DAVID P. MORETON MADE PRESIDENT OF FACULTY CLUB

Professors Swineford, Huntley, Spiers, and Tech in Office

CLUB IS REMODELED

To Professor D. P. Moreton has been given the honor which has never before been accorded a member of Armour's faculty. He was elected by unanimous vote to succeed himself as president of the Faculty Club. This is the first time in the history of the Club that one man has held the office of president for more than a single year in succession.

Superintendent Remodeling

The Faculties Club, one of the oldest institutions on the campus, is being completely remodeled under the direction of its new president. Most of the improvements are already in progress.

New President

On Friday, January 27, the faculty and Armour of the Club were present in the Board of Trustees. The new president of the Faculty Club, Mr. Moreton, was installed at the meeting. The new president will preside over the Club for the next academic year.

Scherger Writes Book On Leading World Men

Mr. Scherger, a well-known author, has recently completed a new book, "The Men Who Shaped the World," which will be published later this year.

Faculty Tournament

The Faculty Tournament, an annual event, has taken place this year. The tournament was well attended and enjoyed by all.

Cyclist Discontinues Contest This Year

Last year's champion, Mr. Johnson, has decided not to participate in the race this year.

"Armour Tech News" Feature Writer Solids for Trolley Car

By DORVILLE Y. BARNETT

Last Thursday your gadgets were at their best, long and painful work through the streets and through the darkness. The trolley cars were filled with people, and the streets were crowded. The conductors were working overtime, but the cars were very crowded.

NOTICE

Students should have their games in order. The faculty will not tolerate the splitting of the school's games.

NOTICE

In order to fill a limited vacancy in the "Armour Tech News" office on Wednesday, February 14, 1935, the "Armour Tech News" office will hold a special meeting to consider the matter. All students interested in the position are invited to attend.

Bernard E. Sunny

Chosen Trustee

Bernard E. Sunny, an official of the Armour Institute of Technology, has been elected to the Board of Trustees of the Institute. He has been a member of the faculty for many years and is well respected by his colleagues.

Arms Team Trounces Illinois Wesleyan

DEFEAT WESLEYAN 57-13

The Tech swimmers defeated Illinois Wesleyan by a score of 134-39 at Polk Gym last Friday night. The meet came on a hot Wednesday night when the weathermen expressed a high of 70 degrees, and a front that was due to arrive later that evening. The weather was perfect for an outdoor meet.

Event Results

Swimmers in both teams were greatly entertained by the cool weather. The Tech swimmers held the lead for the entire meet and finished with 134 points. Illinois Wesleyan finished with 39 points.

Arms Swim Relay

The first event was the 200-yard relay, a Tech victory that was preplanned due to the time chosen for the meet. The Tech swimmers were able to hold the lead and build it throughout the race.

Individual Events

Seminars

The meet featured a variety of individual events, including the 100-yard backstroke, 100-yard breaststroke, 100-yard freestyle, and 100-yard butterfly. The Tech swimmers excelled in all events, with several Tech swimmers setting new records.

Summers

The Tech swimmers also dominated the 50-yard freestyle event, with a Tech swimmer setting a new record.

Tobacco to Smoke Right

In Kentucky, they have pretty women, fast horses, and blue grass, there grows a tobacco called White Burley. It doesn’t grow anywhere else in the world.

There is a type of this White Burley that is best for pipe smoking. It is neither too thick nor too thin. It is not light and chaffy; at the same time, it is not rank or strong. "U. S. Type 33" is the government classification for White Burley.

Since no other pipe tobacco has yet been found which seems to equal White Burley, this is what we use in making Granger Rough Cut.

Next, we use the Methodist Method, a famous 1670 method of making pipe tobaccos, to give Granger its fine flavor and fragrance. Then, too, Granger is "Rough Cut"—just like they used to make pipes by throwing off a plug with a sharp knife. It smokes cool, finely, and never gums a pipe.

And finally, we want to sell Granger. It’s Good Tobacco—full of taste—cut right. So we put Granger in a sensible soft foil pouch instead of an expensive package, knowing that a man can’t smoke the package.

Granger has not been on sale very long, but it has grown to be a popular smoke. Folks seem to like it.

Tech Tracksters Defeat La Grange

In the first meet of the season, the Tech tracksters defeated La Grange, 22-10. The meet was held in the Armour Tech School gymnasium.

The Tech tracksters were led by George A. Johnson, who won the 100-yard dash in 14.5 seconds. The Tech team also won the 440-yard relay race.

The La Grange team was led by Charles A. Smith, who won the 220-yard dash in 23.8 seconds. The La Grange team also won the 880-yard relay race.

It's Fun to be Fooled...IT'S MORE FUN TO KNOW

Tricks are common in the stage but not so common in life. Here's a trick that has been used in cigarette advertising...the illusion that blending is everything in a cigarette.

Explanations: Blending is important...but it makes a difference what's blended. Inferior tobaccos can be blended to improve their humble origin. But when you smoke a blend of the finest tobaccos.

The proper use of blending is to bring out the full flavor of each tobacco. If you discover that a certain cigarette is "too mild" in taste, it's the result of improper blending. The cigar is just as nutritious as a fresh mouth of rifles...but it's not as good as a fresh mouth of rifles.

It's a fact, well known by all tobacco manufacturers, that cigarettes are made from fine, choice tobacco leaves. But they are not all alike.

Hundreds of thousands of dollars have been spent by the tobacco manufacturers discovering how cigarettes are blended. The blend is an important factor.

But there is another point that should not be overlooked. The blend is not enough to make a good cigarette. The tobacco must be properly cured and aged.

Lighting a cigarette, the draw should be smooth and easy, the tip should be moist, and the smoke should rise in a cloud. If these conditions are not met, the cigarette is not worth smoking.
