An Appeal For An Appellation

or Who Wants Five Bucks

RULES

1. A description is to be submitted, preferably one that can be applied to the club for which it is desired. Although no general appeal can be accepted, any club with a solid basis for the appeal will be considered.

2. The appeal is to be submitted to the Armour Institute of Technology, 3701 South State Street, Chicago, Illinois.

3. All appeals must be received by 5:00 p.m. on Valentine's Day, February 14th.

4. Each appeal must be accompanied by a small fee, which will be returned if the appeal is accepted.

5. The decision of the Armour Institute of Technology will be final and not subject to appeal.

Musical Clubs at Evanston Mar. 5

The club has had several successful performances since its inception, and it is looking forward to its next major event. The concert will be held in the auditorium of the Armour Institute of Technology, and tickets will be available at the door.

Senior Mechanics Smear in the New Parlor Sport

The mechanical engineering students have developed a new game that is gaining popularity among the students. The game involves strategic thinking and quick decision-making.

Advocates of Prohibition

The debate continues as proponents and opponents of prohibition engage in lively discussions.

Alpha Chi Sigma

The professional chapter of Alpha Chi Sigma, the national fraternity for engineering students, will hold its annual meeting at Armour Tech. The event will feature guest speakers and networking opportunities.

Haggard Speaks to W.E.S. Meeting

Mr. A. Haggard, the distinguished engineer, discussed the future of engineering education and the importance of interdisciplinary collaboration.
Get In The Contest

The News contained an editorial on The News. It would run a contest for a name for the student body if the school wanted one. During the last school year, and at the time of the favorable comments that we have heard such a contest will be well worth while. The rules are stated on page 2.

Armour has long lost the need for such a designation, some characterizing term that can be applied to the student body or to the athletic teams. Practically every school in the country has some term that it is known by. These names are woven into the hearts of the students and become a part of that elusive thing that makes a school the school in the world that makes its foundation and the name that makes the student body the best of fellowships, at least in the minds of its students.

The page of The News is offering $100 for such a name. Every student should contribute his suggestion to the designation of the student body. This is an added incentive. Five dollars may not be a lot of money but we can think of no one that could not be found.

Every student and professor should send his suggestion. The name that you suggest is what that name is supposed to be. The student body needs the members of the student body and faculty should want one.

It Still Applies

London Times on May 31, 1889

About once in 10 years the British public finds itself in a sort of a depression. It is like a large meal that is left on a table and then topped over. At every such disappointment people make the reflection that they give it at the worst of times, but they will not be taken in a second time, or, perhaps, that they will not allow their own individuality and back up in time. Nevertheless, the fact that comes on them as the real, and they go through the stages of the disease with pathological accuracy. The melancholy is at its height and the time for us to be a little more lenient and then tell you that you will not succeed. That is when you are about to anticipate a whole year, while still being interested in a point.

H. PENN TO TAKE ON NEXT ARMOUR RADIO PROGRAM

There will be an exceptionally interesting series of radio programs sponsored by Armour "Borden" Fruit Jam, appearing over the radio station of Armour Institute of Technology, on Tuesday and Thursday evenings, beginning next week.

During March there will be tales by Mrs. T. C. Cope, narrator, of the airship which was decided on as the most likely choice for the first flight and the home of England. Mr. Henry Forrest of the Henry Forrest Agency, director of the Radio Department of Armour Institute of Technology, will broadcast from 6 to 8:30 every Tuesday from the studio of the station.

Schmid History Takes Its Final Bow, As Ray Marty Paints Ceiling

By Henry Lewis

The first of the series of Armour Institute of Technology radio programs was broadcast last Tuesday evening. Although the program was short and did not take full advantage of the capabilities of the radio station, it was an interesting and informative program.

The broadcast consisted of a talk by Dr. Schmid on the history of Armour Institute of Technology. Dr. Schmid is well known for his work in the field of engineering.

Fraternity Notes

TITIA XI

Due to the fact that the Armour "Borden" Fruit Jam is under the direction of the Armour Institute of Technology, and the fact that the Armour Institute of Technology has a large number of students, it is fitting that the Armour Institute of Technology should have its own radio program. As a result, the Armour Institute of Technology radio program, under the direction of Dr. Schmid, will start next week.

ARMOUR TECH BASKETEERS
FINISH SEASON BY WINNING
FIFTH CONSECUTIVE VICTORY

A game that was of limited interest to the fans of the two teams and to players, but which did have its importance in the context of the season's overall standings. Armour won the game by a score of 40-28, extending their winning streak to five games in a row. The win also secured them the fifth place in the league standings.

RAY PFLUM Elected CAPTAIN FOR 1933-34

Ray Pflum was named the captain for the 1933-34 season. This was a significant role for the team, as the captain is typically the most experienced player on the team and is responsible for leading the team on and off the court.

COACH GIVES HIS OPINIONS OF TECH VARSITY CAGERS

Coach gave his opinions on the team and the upcoming season. He expressed confidence in the team's ability to improve and excel in the upcoming season. He also highlighted the strengths and weaknesses of the team, and provided strategies for addressing those weaknesses.

INTERESTING BOOKS

Several books were highlighted, each with unique themes and perspectives. These books were recommended for further reading.

ALICE RESTAURANT

The Alice Restaurant was a popular eatery known for its delicious food and cozy atmosphere. The menu included a variety of dishes, from sandwiches and salads to more elaborate meals. The restaurant was especially popular among students and young professionals.

Do You Know that
the
Armour Tech News
Is Offering $5?

The Armour Tech News announced a special offer, possibly related to an upcoming event or promotion. The offer was for $5, which was a significant amount at the time.

Salamander Presents Award to Wheaton

Salamander presented an award to Wheaton. The nature of the award and its significance were not specified in the text.
WHEATON BEATS TECH WRESTLERS BY A 6-2 SCORE

Last Wednesday evening the Wheaton Tech wrestlers made their first trip into town and were defeated by the score of 6 to 2. This was the second meeting of the season for both teams and both were being represented by Wheaton.

The Tech wrestlers scored only two points in the first bout of the night. The first bout was won by a Tech wrestler who defeated his opponent in the 140 pound class. The score for the first bout was 2 to 0.

The next bout was won by a Tech wrestler who defeated his opponent in the 150 pound class. The score for the second bout was 2 to 0.

The final bout was won by a Tech wrestler who defeated his opponent in the 160 pound class. The score for the third bout was 2 to 0.

The Tech wrestlers were unable to score in the first bout, but they were able to score two points in the second and third bouts. The Tech wrestlers were defeated by the score of 6 to 2.
BATTERIES WORK HARD TO PREPARE FOR MOUND DUTY

With springtime drawing ever near and closer, baseball is another big question of indoor sports, and with Spring Round holding the spotlight, the Armour Tech baseball team is again preparing for a successful season in the diamond.

The pitchers and infielders are already at work in the second baseman. Under the strict watch of Coach Kraft, the-batteries have been reassembled in a slush of throwing the ball. A new pitcher and some veteran players, plus one very promising pitcher, the players are preparing for the successful season in the diamond.

PREPARE FOR RELAYS

Another victory was achieved for Armour last Saturday when the Armour Tech Track team defeated the Crane College in a meet at 5:30 p.m. on the field in the varsity and varsity-boys' meet.

Boys' Wins Dual

As usual, the Tech team came through with their best in the 40-yard dash, with Krenzke taking the first. The Tech team was composed of five members, with Ziebell, a member of the Tech team, being the second.

Crane's Wins Dual

As usual, the Crane team came through with their best in the 40-yard dash, with Krenzke taking the first. The Tech team was composed of five members, with Ziebell, a member of the Tech team, being the second.

Good Two Mile Race

Dr. Robert Arrow, the basketball team's coach, in charge of the two-mile race, was pleased with the results. The race was won by the Tech team, with Krenzke taking the first. The Tech team was composed of five members, with Ziebell, a member of the Tech team, being the second.

Outdoor Practice Starting March 20

A week from Monday, March 20, the baseball team will go outdoors again. The players are excited about the upcoming season. They are looking forward to the opportunity to play under the open sky.

Tech Shorts

With the arrival of spring came the news about the new baseball season. The Tech team is ready to take on the challenge and show their skills on the field.
