ARMOUR PLAN TO BE DISCUSSED AT MEETING FRIDAY

Math Department to Attend Teachers College

KRAITHWOL TO SPEAK

The next meet under the auspices of the Mathematics Club is meeting the number of the department of mathematics, which was held at the beginning of the academic year, and is one of the most important events in the history of the department. The meeting was called to order by the president, Mr. Kraithwol, who briefly reviewed the history of the department and the work of the department for the past year. He then introduced the special guests who were to speak on various topics.

Music Clubs to Sing at Belmont

The orchestra and glee club after having made a successful tour of the country, have returned to Chicago, and are preparing for their concert on April 1st, which is to be given in the Auditorium. The orchestra will consist of about 100 musicians, and the glee club of about 80 voices. The concert will be given in the Auditorium on April 1st, and is expected to be a great success.

A.I.E.E. Continues to Present Speakers

Continuing in the policy of presenting prominent speakers at each of the sectional meetings, the A.I.E.E. has scheduled, as its next meeting, Mr. A. F. Williams, a professional engineer. Mr. Williams will discuss the subject of electrical distribution systems.

Armour Players Plan to Attend Irish Play

Several members of the cast of the play, which the Armour Players are planning to produce on Friday evening, April 1st, in the Auditorium, are planning to attend the Irish Players' production of "The Playboy of the Western World." It is expected that the Armour Players will be invited to participate in the production.

Scholastic Standing of Entire Student Body Is Higher Than Last Year

JOHNSON HAS HIGHEST AVERAGE OF STUDENTS

The following students have been awarded the highest average of students in the Armour Institute of Technology. These students have been selected based on their academic performance and contributions to the school community.

Roberts to Talk on Rope Making

Mr. W. H. Roberts, an expert in the field of rope making, will be the speaker at the next meeting of the Crafts Club. Mr. Roberts will discuss the history of rope making and the various techniques used in modern rope making.

Frosh Soph Complete Plans for Big Dance

The Frosh Soph class is in the process of planning a large dance to be held on Friday evening, April 1st, in the Auditorium. The dance will feature live music and a variety of entertainment options.

Foxy Fred Frustrates Foasters; Confiscates Chemicals' Confections

By John Francon

Foxy Fred, a well-known student, has been causing a stir on campus with his latest prank. He has taken control of the化学 laboratory and has confiscated all the laboratory chemicals. He has issued an ultimatum to the chemistry department, demanding that they provide him with all the chemicals he needs for his experiments.

E.T.A. KAPPAN NU PLEDGES

The E.T.A. KAPPAN NU chapter held a meeting on Wednesday evening, April 1st, in the meeting room. The meeting was attended by members of the chapter, and was led by the chapter president.

Harvard Offering Scholarship Awards

The opportunities for scholarships at Harvard University have been increased. This year, the university is offering more scholarships than ever before, and is particularly interested in students who have demonstrated exceptional academic performance and leadership qualities.

The above text is a sample of the content that could be found in a typical page of the Armour Tech News. It includes articles on various topics such as academic events, student activities, and departmental news. The text is presented in a clear and organized manner, with headings and subheadings to help readers navigate the content easily.
Don't Put It Off

The name Armour Tech News is now in the second week. We have experimented with several titles that have already come into the hands of the students.

Don't forget to submit a proposal for the contest of the name. Not only will the name submission be selected by the more active members of the student body, but it is not unlikely that possibility is not with us.

The name is to be submitted by the students in the final selection. The general character of each person submits a name which he feels would be the most popular with the students of Armour.

Guest Editorial

The Tech Swimming Team

The Armour swimming team has progressed greatly in the past two seasons and has already established a reputation of excellence of performance which a new name seems to fit.

The season now is over yet everyone is engaged in competition with schools whose records equal or surpass our own.

The Tech swimming team has been in contact with Illinois Wabash University, State University of Iowa, and the University of Wisconsin.

More importantly than naming their leading opponents, the names the Tech Dawson in several meets and the other names, speak well for the length and excellence of our swimming season.

The Tech swimming team will be among one of the largest and most popular team in the Conference.

MINUTE PHILOSOPHY

Lack of space prevents a definite philosophy for this issue, but the main point is: "You are what you do, and what you do is what you are."

SUCCESS

Office Boy—But the manager is busy.

Office Boy—Here's an important message to you from the General Manager: "To be successful, you must do more than the ordinary."

But why this is so important is not to be made known yet; you will be asked to report later.

Test the following on a sample audience when you get a chance to talk: "What do you think of your college courses?"

Before you answer, you'll have to keep your mind open. You'll have to be ready to think on your feet and to give an answer in a few seconds. A few minutes to think is useless. You'll have to be prepared to answer a question at any moment.

A good student is one who can answer questions quickly and accurately. A good student does not wait for a question to be asked, but actively seeks to answer it. A good student does not rely on the teacher, but depends on his own knowledge and experience.

For the moment, you're a student and you're trying to learn. For the moment, you're not a teacher and you're not teaching. You're trying to learn.
LETTER BOX

Students of Armour-

Arming, as an eternity and multifaceted sport, has been sharply explained in recent years. It involves a certain amount of strategic thinking, physical stamina, and mental agility. The skills involved can prove to be quite complex. It's not just about speed or strength, but also about timing and coordination.

Cigarettes, like Foods - need Seasoning

That's the part Turkish Tobaccos play in making Chesterfield Taste Better

Smokers notice a certain "touch" in Chesterfield that comes from having just enough Turkish tobaccos in there. It's spicy, aromatic flavor that's much the same to a cigarette as seasoning is to food.

For only by blending and cross-bredting the right amounts of mild Domestic tobaccos with the right amount of solid Domestic tobaccos can the flavor and aroma that Chesterfield smokers enjoy.

Next time, ask for "The Cigarette that Satisfies" - you'll get Chesterfield with Milder, Better Taste.

CHESTERFIELD

THEY'RE MILDIER - THEY TASTE BETTER
ARMOUR TANKMEN ARE DEFEATED BY WISCONSIN 55-29

CARLSTROM—B POINTS

The Armour Tech wrestling team traveled to Madison, Wisconsin, for a match against the University of Wisconsin on February 1st. The match was held in the State Gymnasium. The Armour Tech team was led by Captain Ray Carlstrom, who scored points in several matches. The match resulted in a 55-29 victory for the Wisconsin Badgers.

IT'S FUN TO BE FooLED...IT'S MORE FUN TO KNOW

One of the tricks of cigarettes advertising is to pretend that "Heat Treatment" is an exclusive process, making one cigarette better than any other. EXPLANATION: All cigarette manufacturers use heat treatment. It is a routine process of manufacture. The cigarette embryo made was produced under the heat-treatment process. Every one of the billions of cigarettes produced since has received the necessary heat treatment. Hurry, your tobacco requires extra processing under high temperatures. The more expensive advertising, which is naturally sold, call for only a moderate application of heat. Here's a treatise: treatment never can make cheap, inferior tobacco. It is a fact, well known by tobacco experts, that Camel is the most

TECH SHORTS

Roberts Postponed

Roberts was postponed on February 1st in order to ensure a successful season for the varsity tennis team. Roberts will be rescheduled for a later date.

RECORDS OF TECH SWIMMERS GIVEN FOR FIRST TIME

To date, the Armour Tech swimming team has broken several records. The team's performance has been impressive, setting new standards in breaststroke and freestyle events.

DANCING ON GLASS

Tech Wrestling Team Journeys to Morton

Still working through their early season schedule, the Tech wrestlers are preparing to "sink into" the upcoming tournament. This weekend, March 10th, the team will take on the North Dakota State University and the University of Wisconsin in their first meet, which, as yet, has little history. Following these matches, the team will face their next opponent, the University of Minnesota. Their schedule is packed, with matches every weekend, to ensure they are prepared for the upcoming season.
