**Medina High Athletic Club Chosen for Fosho Hop**

Jack Chapman and Bev Bedell were featured.

**President to Attend**

March 30 was a big day for Armour Tech sports fans. The game today against the Michigan Techs will be a red-letter day for the students of Armour Tech. For that day, the students, athletes, and spectators will be gathered at the Armour Tech gymnasium, ready to cheer on their team.

**Chapman Popular with Exponents**

Armour Tech Athletic Club is known as the Big Four. Chapman played all four sports, and was popular with the proponents of the sport. He was a natural leader and was known for his athletic ability.

**Faculty Discuss Institute Plans**

At a meeting of the Armour faculty held Tuesday morning, the question of the opening was discussed. It was agreed that the opening should take place on the first day of the weekend. This was unanimously decided on by the faculty.

**Armour Players Announce Cast**

The mystery play which will be presented at an assembly on Friday morning, March 23, was announced yesterday by Armour Tech Dean, Mr. William J. Brown. The play is entitled "The Mystery of the White Glove." It is a comedy in two acts, and is expected to be a big hit with the students.

**A.T.A.A. Awards Eight Major A's**

Eight major "A" awards were presented to Armour Tech students last week. The awards were presented by the Armour Tech Athletic Association.

**Scherger's Visitor Field Museum**

Dr. Scherger is augmenting his collection of minerals and flowers with a trip to the Field Museum of Natural History in Chicago. The trip will be on Saturday, April 15, and is expected to last for about two weeks.

**F.P.E.S. and A.S.M.E. See Film at Meeting**

A motion picture with sound, "The Bride of Neptune," was shown at theemetery of the Planetary Corporation. The film featured the lives of the planets and their moons, and was enjoyed by all who attended.

**Senior Electricals Conceive Idea in Reducing Time of Service**

By Arthur Highness

The senior electrical students of Armour Tech have come up with an idea to reduce the time of service for their department. They have devised a system of mathematical calculations which they believe will save time and reduce costs.

**Radio Talks Feature Penny and Anderson**

The "Steel in Guns" show was held on Tuesday, March 27, at the Armour Tech auditorium. The show featured Penny and Anderson, who discussed the latest developments in the field of gun research.

**Use of Library Shows Decline**

It would be very much appreciated if the students of Armour Tech would make use of the library facilities. The number of books checked out has decreased by 1,000 in the past year. It is suggested that the students make use of the library more frequently to support their studies.

**Third Consecutive Championship**

By K. L. Hackley

For the third consecutive year the White Team of the Armour Tech Rifle Team, with owner of 140 points, has won the championship of the State of Illinois in the Fifty-Foot Individual Scores. But for the third consecutive year Armour Tech theme numbers.

**Architects Hear Address by Penn**

Mr. Henry Penn, a former professor at the Armour Tech, spoke to the architects of the State of Illinois on Tuesday. The lecture was given in the Great Hall, and was well received.

**LETTER BOX**

**The Steam Shovel**

We have that "LOVEY DOVET" ROBERTS' famous west (CD) is marked by the reading of spring and performed better.

Two new tuners are in a group and turkeys can't help people's hands.

"It's love, isn't it?" Spontaneously is a place that doesn't put people with their hands together.

The deadline for the "Cullom Pigeon" is Thursday at 5 p.m. You can't choose who wins the book.

One of the things that can be used is to discover the identity of the kinds who show their love for the Wood every morning on the "T:" book.

Frogs, a great sport and a great way to make money, can be kept as pets. Frogs have been used to keep gardens free of pests. Some of the most popular varieties are the "King five-day," and the "King six-day."

**Movie Notes**

Warren Baxter is at his best, revealing a man who is "The Man with the "Sword.""

Just a question of whether the film will be a hit or not, but it has the right kind of a girl who describes it well. The film is charming because those who have rejected letters for their effort.

For my part, I wish the town all access to its resources to include a small star at America."}

**Bell System**

**It Takes Resourcefulness**

Time and again, Bell System engineers have demonstrated their pioneering in working out unsolved telephone construction problems.

For example, they had a huge conductor under the Harlem River. They dredged a trench in the river bottom, lowered enormous sections of five paces, sent down divers to join the section, removed the finished links in a cut. Through this they ran telephone cables forming one of New York's main lines of communication. Across the Gulf River in Arizona they constructed a span over 1,773 feet long. To bridge oceas, they built telephone tunnels.

Their resourcefulness in getting through, over or under natural barriers makes possible telephone service that is practically everywhere in reach.
WULFING SPEAKS TO MEMBERS AT A.I.E.E. MEETING

Member of the A.I. E.E. was prevailed upon on Tuesday to speak at the meeting of the San Francisco local section by the recent resignation of the dean of the Electrical Engineering department, Mr. Wulfing, who has been working on this for the past fifteen years and was able to present to us the subject as only one who is intimately acquainted with the subject can present them.

One of the first half of Fawcett's talk was an exposition of the economic and engineering feature which decided that the Marshall Electric Building should be equipped in the unique way that has been put into effect. Thus the height and distribution of facilities is such that a direct current system would cost about forty thousand dollars more in one day. The increasing current installation, however, makes the problem of a possible saving in cost a matter of great concern.

Because of the conditions required by the city and by the University, the Electrical Engineering building was the first of its kind in the West.

At Georgia Tech a senior took the exam twice in the same room since the exam season was such long ago last fall, and this was the second time the student was examined.

In an effort to round up the pool of manpower for the work, the Georgia Tech staff has been very active in obtaining more students from the University, and the University has issued the orders for the construction of a new building.

Among the recommendations for freshmen in the University Chemical Society is the general practice of working on the premises of women for it is not safe.

DINNER and DANCE

Thursday Evening Dansants

75c Per Person

Includes Dancing, Special 4 Course Dinner served in our Main Dining Room, Free Cocktails, Vaudeville, Parking. Every Thursday Evening, 9:30 to 12:00

ARMSMITH'S ALWAYS WELCOME

Reservations for 2, 4, 6 or more please

You get what you want, and you don't have to take what you don't want

It's like this: You don't want a strong, rank cigarette; you don't want one that's tasteless. You want one that lets you know that you are smoking, but you don't want one that's bitty. Chesterfields are milder... and yet they Satisfy.
TECH SHORTS

Although spring is here and many sports are in season, action has been rather sparse for Tech athletics. In a few weeks, however, the situation will change pretty drastically. On Saturday, March 21, the Tech football team will face the University of Cincinnati in the 14th annual Carmel Bowl.

The Tech football team is preparing for the game with great enthusiasm. The players are working hard to improve their skills and fitness. They are focusing on both offensive and defensive strategies to ensure a competitive performance.

The game will be held at the Tech Stadium, with kickoff scheduled for 2:00 PM. Fans are encouraged to arrive early to secure their seats and enjoy the excitement of the match. The Tech basketball team will also be on hand to support their fellow teammates.

It promises to be an exciting day filled with energy, teamwork, and the spirit of collegiate sportsmanship. Don't miss your opportunity to witness this historic event in the world of Tech athletics.
