“TECHHAWKS” TO BE NEW NICKNAME FOR ARMOURITES

Selected by Judges as Most Appropriate Appellation

A BRANSM WINS CONTEST

“Techhawks” from the name of folks published in the Tech News, used in this contest, loved the idea of a bird as an appropriate nickname for Armourites. The Judges found that Techhawks have a number of virtues which, combined, make it superior to any other suggested. Among these are: techhawks are fast, techhawks are smart, techhawks are funny, and, in general, techhawks are of a high order of accomplishment. “Techhawks is an unbroken connotation which is representative and specific in a college nickname. Finally, it could be written in a single word, making it easy to use in the tablet of the future.

To Bernard Abrams, C. E. ’33, goes the honor of having named Armour’s new name together, of course, with the other students whose names were submitted to the contest, his name was selected from the names submitted the same title, his name received first place.

The general opinion of the faculty and students expressed is that Techhawks name much like “Bulldogs” and “Gators” and “Tigers” and “Vikings” and “Bears” and “Gophers” and “Bunnies” and “Hawks” and “Bears” and “Bunnies” is a name which is representative of the school and students, as well as being a name which can be used in cut and paste to make the name of the school.

Assisting in the formation of the Techhawks name was the following list of students: Herbert A. Schmidt, Robert J. Futch, B. S. ’33; F. S. Farquhar, B. S. ’33; Richard A. Hase, B. S. ’33; William F. Fitch, B. S. ’33; and Robert A. Heintz, B. S. ’33. The management and faculty are cordially invited to a dinner, but the Techhawks met with the approval of all.

Proctor Reed on Armour Radio Program

Last Sunday a talk was given over the Armour Radio program by Prof. Reed, C. E. ’26, on the subject of Armour Radio program. He gave a full account of the equipment at the station and the steps that have been taken to make the station a success. He also mentioned the work that is being done for the benefit of the station.

At a meeting held last Monday evening, a talk was given by M.A. Smith, member of the Institute of Technology. The talk was on the subject of the future of the Institute of Technology and the importance of education.

Eight Men Pledged at Pi Tau Sigma Fraternity
Why is the Stem removed from the tobaccos used in Chesterfield?

That's a very simple question to answer. The stem in a tobacco leaf, like the stem in most other plants, is "woody." It has none of the flavor or the aroma that you want when you smoke. And it doesn't burn right.

So after the tobacco has been properly aged, one of the first things to do is to remove the stems.

But what has this to do with your enjoyment of Chesterfield cigars? Just this. It means that we start right when we make Chesterfield—the right kind of leaf with the stems removed, the right manufacturing and everything that science knows that can make Chesterfield a milder cigarette, a cigarette that tastes better.

That's why people say "They Sayd.

**The Steam Shovel**

James Leader Quidt, senior electrical engineering student, was elected President of the Student Engineering Organization on April 5. Leader Quidt will serve as the organization’s leader for the next two years. He has been active in the organization for several years and has shown great leadership qualities.

**Electricals to Hear Lecture on Radiation**

At the meeting of the American Institute of Electrical Engineers on April 5, James Leader Quidt will give a talk on “The Engineering of Radiation.” The lecture will cover the principles and applications of radiation in modern engineering.

**Mooie Notes**

Following their rise to prosperity in a short time, the students of “Bad Girl” and “Blondie” have been invited to attend the university’s annual ball. The students have been practicing for the event and are expected to be in full formal dress.

**Vanishing Shovel**

Vanishing Shovel has been developing a new type of shovel that will disappear into the ground when not in use. The shovel is designed to be used in fields and construction sites.

**Every Smoke Whittle Tobacco?**

Well...here it is...already whittled for you. Granger Rough Cut is tobacco whittled right...that’s one reason it burns so slow and cool.

When we started to make Granger Rough Cut we knew that pine tobacco is too hot and because it burns so fast, it kept your pipe hot. You could hardly hold your pipe in your hand, it was too hot at times.

So we thought that some folks back, yonder used to “whittle” their tobacco. So we made GRANGER just like “whittle” tobacco — “Rough Cut.” It smokes cooler and lasts a long longer. And also, you’ll find it never gives the pipe so hot.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco — right price — right cut. It was a question of how to do it for the price.

So we put GRANGER in a sensible self-seal full pouch instead of an expensive package, knowing that a man can’t smoke a package. We gave smokers this good GRANGER tobacco at a common sense price.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it: that you know of a man who started to smoke it, who didn’t keep on. Folks soon to like it.

Tech Baseball
Team Defeats
Chicago 3 to 2

Win Close Game From
Maroons in Opening
Game of Season

TEAM IN GOOD FORM

A stiff spring wind and a Kansas
cyclone that wrenched the ball
toward the center field fences
made for a picturesque game last
Tuesday afternoon when a cheer-
fully played twenty-five game
doubleheader finished in a 3-2 win
for the Tech over the Maroons.

The Tech's win was its third in
a row, making the Tech the only
team in the Big Ten without a
loss. The Maroons, on the other
hand, dropped their second game
in a row, having won four of their
last five games.

The game began with the Tech
taking an early lead, scoring two
runs in the first inning. The first
run came on a bases-loaded
double by Bob Wilson, scoring
Al Riedel and Jack McDonald.

The Maroons answered in the
second inning, scoring one run
on a bases-loaded single by Jim
Brown.

The game remained 2-1 until
the fourth inning, when the Tech
batting order came to the plate
with the bases loaded. Wilson
hit a sacrifice fly, scoring Bob
Wilson and giving the Tech a
3-1 lead.

The Maroons tried to score in
the fifth inning, loading the bases
on consecutive singles by Bob
Brown and Tom McDonald. But
Tech pitcher Bob Wilson
crowded the plate with a high
curveball, and Jim Brown hit a
catchable ball that was caught
by first baseman Art Wilson.

The Maroons scored two runs
in the sixth inning, but the Tech
batting order would not
surrender any more runs. The
Tech pitchers, led by Bob
Wilson, held the Maroons to no
runs in the final two innings.

The Tech's win was its fifth in
a row, and the team is now
4-0 in the Big Ten. The Maroons,
meanwhile, are 3-1 in the
conference.

Tech Shorts

The Tech baseball team was
given awards for its performance
during the past season. Captain
Bob Wilson took second in the
collage poll, while Tom McDonald
took third. Captain Bob Wilson
was the only Tech player to
receive an award in the Big Ten.

Letter Awards

The University of Chicago's
baseball team was also
recognized, with Jack McDonald
receiving the award for best
defensive player and Art Wilson
for the most valuable player.

Tech Wrestlers Swamp Morton
by 20-3 Score

Last Wednesday evening the
Tech wrestling team defeated the
Morton State College team by the
score of 20-3. This was the
Tech's first victory of the season.

The Tech wrestlers were
led by Captain Jack McDonald,
who won all three of his matches.

Tech football player Bob
Wilson was also honored, as he
was named the most valuable
player of the game.

Tech basketball player Bob
Brown was named the most
valuable player of the Big Ten
Conference.
