President Martin meets with faculty

Last Thursday, November 12th, President Martin called a special meeting of the full faculty. Martin heads the full faculty of IIT, while Dr. Frederick E. Giannini is president of the Faculty Senate which is comprised of all tenured faculty.

At the meeting, Martin praised the faculty for their achievements. He explained the need for the faculty and administration to pull together. He also outlined seven specific areas of study that are now being carried out by various parts of the administration and faculty.

Martin feels that IIT's objective for the future puts in first emphasis on educational excellence. He believes that attention to seven areas described below will help. At the meeting Martin also emphasized that in order for excellence to be achieved, the faculty and administration must communicate.

At one point Martin asked the faculty to work together with him "to solve our problems, to avoid redundancy, and to seek campus unity." He expressed an enthusiasm for the work of the UPCC, and noted his involvement. He said "no one on campus has worked harder to secure faculty participation in the planning process than I have..."

The Council of Deans is in charge of the first of the seven areas outlined by the president. The Council is to study the administrative academic structure and policies needed to address the environment at IIT. The ideal by which they are going is outlined in Martin's memorandum "IIT in the decade 85-95." The council is to submit a report on February 15th, 1985. The University Faculty Planning Committee is being asked to review and give input to the report.

The administration is responsible for reviewing the "alternative" plan presented on October 12th to the Board of Trustees by the University Faculty Planning Committee. The UPCC showed how money could be saved in the operating budget by using unrestricted funds. It also listed figures showing how the administrative and non-faculty staff has grown too much for the size of the institution.

The effect budget cuts can have on IIT is great. A group of students from all departments is being organized to prevent long-term negative effects.

Early this year, President Martin presented a plan to reduce the 84-85 financial budget. Included in this plan was the dismissal of tenured faculty. Martin has since appeared to the Board of Trustees.

Budget cut seriously affect IIT

The remarks made by President Martin at the meeting with the full faculty on November 15th (see story above) aroused tremendous emotional responses from the faculty. At one point, the intensity grew so high that Martin blurted: "I don't want to partake in a David-and-Jeremiah's-den defense. It's obviously very easy to beat me down because I'm very much outnumbered."

One professor said that he was pleased to hear about efforts being made in student recruitment. He questioned Martin about recruitment in the area of engineering. To this Martin replied that he felt like to go until the December 15th meeting "rather than shoot from the hip."

According to Martin the enrollment is in decline. He said that in about the last three years, IIT has lost 600 full time equivalent students. Of these, 200 were full time equivalent part time students. Minority student liasses account for an additional 150. Martin reported that the remaining 260 losses were due to reductions in the architecture, civil engineering and chemical engineering departments.

Another professor felt that the college administration was over exaggerated praise and minimization of the school's difficulties. He pointed out that IIT has declining enrollment in computer science while other science and technology institutions like IIT have increasing enrollment in that field.

He said Martin was acting like "the emperor who says look at my beautiful clothes. Aren't they great? And anyone who is there to

Faculty responds to Martin

Security meeting to discuss crime

by Eric Strobel

Do you feel secure? If not, come to the next campus security meeting which will be held on Wednesday, Nov. 21 at 7:30 p.m. at the south side dining room of the faculty club. All students interested in campus security are strongly encouraged to attend. The recent incidents in campus security will be discussed.

To attend, call Bubba Crowder, the administrative assistant at the Student Life Office, at 282-5717, or come to the lunchroom on Wednesday.

Statistics on crime will be compiled and discussed by all who attended, which will influence future security policies. The statistics are for the last two years up to the September. Non-auto related thefts refer to theft of personal or campus property. All campus property is self-insured. Physical assaults, according to James Vice, Dean of Student Life, usually are between students, not as a result of robbery. Trespassing was defined by Dean Vice as an intrusion on campus by people specifically told not to enter, or by suspicious persons having no reason to be on campus buildings.

Criminal arrests are those across performed by the Chicago Police. Dean Vice states that the campus police are fully deputized by the Chicago Police for non-campus security activities only. This does mean that personnel or campus security reports to the Chicago Police. All students involved in an on-campus crime must report incidents to the city police themselves.

Students who have an interest in security policy will have a voice in the upcoming security meeting. The problem of security has gone beyond students and administration and has become a team effort between IIT, WMAQ-TV, Channel Five, and law enforcement agencies.

The letter expresses the feelings of the "Concerned Students of IIT" in an appeal to continued on page 3

Baton faces difficulty

Trinity College is in trouble. Passaic NAACP, chairman of the Trinity College Board since 1981, has accused of pratiscing nepotism and favoritism in arranging school contracts involving much money, and in hiring and firing faculty members. Passaic NAACP president says that his firm was among those receiving contracts and that neither he nor his firm has been hereby notified yet, only that he was not named. The college entered into a contract for fast food services with a reputed Napieran political association. The arrangement apparently does not bring in nearly the revenue for Trinity that similar agreements earn from other community colleges.

So far, there are no allegations of criminal conduct before the final plan is drawn up. A letter of protest was presented at the meeting. That week's notebook says that all of Trinity's contracts will be reviewed. There has been philosophical difference between Napier and Napier on providing contracts for law schools within the university. Trinity President Daniel Morrissey says that his firm's law school was being used by Napier. Napier has been active on the board for over ten years, only that in the past six years he has become extremely powerful. Now that Napier's activities have been made public in the past six years he has become extremely powerful. Now that Napier's activities have been made public, he has resigned as chairman of the board. He will resign when the new report is issued.

Many students at Trinity are enraged over the situation. They are wondering what resolution continued on page 3
DePaul University’s Program in Corporate Ethics and The Public Interest (with the support of the “Technology and Human Values” Program at IIT) — presents a Conference on Technology, Human Society and the Future Thursday and Friday, November 29 - 30, 1984 at The Blismerk Hotel, (LaSalle and Randolph Streets)

Program: (partial)

Thursday, November 29:

10:00 - 11:45 A.M. Sascha Bellmann (AT&T) Christopher Lasch (Prof. of History, University of Rochester) "Technology and the Degradation of Work"

10:00 - 11:45 A.M. Sascha Bellmann (AT&T) Christopher Lasch (Prof. of History, University of Rochester) "Technology and the Degradation of Work"

12:00 - 1:00 P.M. Irwin Bluestone (Co-Chairman, Economic Alliance of Michigan) "Productivity, Technology and Human Factors"

2:00 - 3:45 P.M. Senator Charles MacMathews (R-M.D.) "Constitutional Rights in a High-Tech Society"

Friday, November 30:

9:00 - 11:00 A.M. Alan Kistler (Director Field Services, AFL-CIO) "Work and the Future"

"Economic Development and Technological Fantasies"

12:00 - 2:00 P.M. Leo Marx (Prof. American Cultural History, MIT) "Does Improved Technology Mean Progress"

For further information, contact Assam Amadio, Student Life Office, Ext. 3080.
Read a Good Book

"The White and You Today," a weekly noontime discussion group, will meet again Tuesday, November 20 at 12:15 p.m. in the Field Conference Room. Members of the group will lead the program continuing the prayer-study-session model with the Gospel according to Saint Mark. The meeting is open to the IIT Community.

Study abroad

All Fulbright Scholarship applications for study abroad must be submitted by November 21 for consideration for the 86-87 school year. For more information contact Anselm Amadi at the Student Life Office. x3069.

HKN meeting!

Elections for Vice-President and Corresponding Secretary will be Tuesday, November 27 in Room 304 HUB. It is very important that all members attend.

We will also discuss the party we will be having and plans for next semester. Be there.

Image processing

On Tuesday, Nov. 20, 12 noon 104 SB, Dave Strong from R.R. Donnelley, will present a discussion of current Image Processing Technology. Examples of Donnelley's state of the art image processing will be presented. All members of IEEE-IC and the Computer graphics interest group, as well as all interested students and faculty are invited and encouraged to attend. Refreshments will be served.

Flex your brain

The 1984 IIT ultrasound, go for broke, College Bowl Instrumental Tournament will be held Wednesday, December 5, 1984 from 3:45 p.m. until 7:30 p.m. in the HUB Gallery Lounge (where the soft chairs are). For a $10 registration fee, your team of four plays one alternate team who competes for a $125 prize. An all star team chosen from the best of Wednesday's players will play an exhibition match against a faculty team on Thursday, December 6 in the Gallery Lounge. In College Bowl, teams compete by correctly answering questions on art, science, literature, and history. Team registration will be held until November 30 from 12:00 to 2:00 p.m. daily in the NE corner of the HUB. If you cannot register at those times, please leave a note in the Student Life Office, and you will be contacted.

Items for the needy

A drive for food and clothing for the needy will be located at the Northeast Entrance of the HUB and in the Residence Hall Cafeteria, Monday through Wednesday, November 19 - 21. The Chaplain's Office, together with the "Life and Religion" Program Committee will distribute the collection to the Dearborn Homes Emergency Aid Center, 26th and State, Wednesday afternoon before Thanksgiving. "Whatever a necessity of life is concerned, nothing is too small.

Health careers

Health Careers for Engineering Students will be the subject of a meeting Thursday, December 6, 12 noon to 1:00 p.m. in room 206 of Hermann Hall. The Chicago Area Health and Medical Careers Program (CAHMC) will provide information on how to prepare for medical and health professions schools by earning a degree in engineering. CAHMC staff will present information on curriculum planning, MCAT, and financial aid for professional school. If you have even thought about being a doctor, dentist, veterinarian or other health professional this is the meeting for you.

Join BSO

The Business Students' Organization is looking for a few good students! We need students to fill the offices of President, Vice-President, Secretary, Treasurer, Publicity Director and Member-at-Large.

Nomination meetings will be held at our next general meeting on Thursday, November 29 at 12:30 p.m. in Stuart Bldg., room 111. (Any questions concerning the duties of any officer will be answered at this meeting.) Elections will be held the following Thursday, December 6 also in Stuart room 111 at 12:30. Only membership card-holding students will be allowed to vote, see you there.

 Going to graduate?

A mailing pertaining to attendance at the December Commencement has been sent to all candidates. If you have not received this material, please contact us at 567-3316, the Office of Student Records and Registration, Room 104 MB prior to December 1, 1984.

Improve your skills

Tourmasters, the group dedicated to the improvement of oral presentation skills and the development of leadership skills will meet at 5 p.m., Tuesday, November 20, in the Crown Room of Hermann Hall. The meeting is open to all interested persons. Admission is free. For further information contact Mary Davison, x3105.

Illinois Bell Careers

Bruce DeMeyer, Vice-President of Operations at Illinois Bell, will be discussing opportunities at his company for entry-level engineers, different career paths for engineers, technical vs management careers, and anything you want to discuss on Tuesday, Nov. 20 at 12:15 p.m. in room 104 E1. Refreshments will be served.

This is part of a continuing series of discussions sponsored by IEEE and HKN concerning Careers & Opportunities in Electrical Engineering.

Need advice?

ECE students are strongly urged to see their academic advisor during the first week of pre-registration for the Spring Semester 1985, that is, from November 15-21, 1984. Block advising will take place on Thursday, Nov. 15 from 12-2 p.m. in 118 SH and on Tuesday, Nov. 20 from 12-2 p.m. in 310 SH — No appointments necessary. First come, first served. See your individual advisors.

ECE students can also sign up for advising. Sign up sheets will be posted outside the ECE office on November 14. NOTE: You can be advised before you receive your registration packet. Advising consists of planning your Spring 1985 courses. Your registration form can then be stamped at a later date.

HELP WANTED

Technology News is looking for an intern for our publication beginning in the Spring semester of 1986, under the direction of Dr. K. Connelly. Your responsibilities will include the opportunity to work with the undergraduate engineering student capable of typing approximately 90 words per minute. The position is non-credit, and is paid at a rate of $5 per hour (Friday: 1-11 p.m.), this position is open to both students and individuals. If you would like to get involved in the publication you are invited to make use of this information, please contact Bill Madsen or Steve Grimes.

NOT FREE! Unns and His personal bomber tinkerers. Send $100 and a S.A.E. to M.E. Emanuel, P.O. Box 687, Park Forest, Ill. 60466.

COLLEGE AEPP WANTED to distribute "Student Rate" subscription cards on campus. Good income, no selling involved. For information and application write to CAMPUS SERVICE, 7145 W. Gland Ave., Phoenix, Ariz. 85021.

SUMMER HELP WANTED

WANTED: Students, counselors, or any energetic individual to act as our tour for our annual spring hotel trips to Florida. Earn commissions and/or free trip. Call or write Continental Tours, P.O. Box 68, Oak Forest, Illinois 60452. 312-963-8500.

RESEARCH: Catalog of 15,000 topics. Send $1, Research, 407 S. Dearborn, Chicago, Ill. 60605 (312) 922-0300.

Keep pressure on Nicaragua

Ed Sabas

What is the big flap over that little Central American country - Nicaragua? How could such a small, poor, third-world nation hold ten million people at the throat of the vast and powerful United States? Isn't this just another example of the nations so strong as ours has to bully a much weaker nation who is trying to develop a democracy in the face of a ruling party (Sandinistas) that was re-elected by an overwhelming majority of the Nicaraguan population? What will the Reagan Administration have in thinking it has a right to force a weaker nation to follow its wishes?

This is the uncharacteristic attitude that many of our politicians and media people share. It is the common attitude that can be defended with with high-minded ideological standards. The demands of war, of war that as nations as yours should hold and possess dear to its heart.

For which no country can see how a smaller country like Nicaragua can possibly pose any threat to the United States. It just does not look at Cuba. We would all like to know why "Democracy" is not an option any longer. The support of the Sandinistas is the subject of the current political debate. A newspaper, La Prensa, has been shut down by the Sandinista government for its opposition to the American policy.

Jim and9 Jan comment on cheating

The personal ethics of cheating

In the last year, the word "cheating" has been a topic of discussion among students, educators, and the general public. The ethical implications of cheating in various contexts have been widely debated.

Protestors blockade base

Two hundred people gathered at the Guantanamo Naval Base on November 12 to protest U.S. involvement in Central America. The demonstrators are part of the Central American Solidarity Group (DGA) and organized the protest as part of a national day of action. The purpose was to "demonstrate our solidarity with the people of Central America, and to let the world know of our solidarity in making war on the U.S. empire of Central America," said Reverend R. Recinos, a member and military veteran.

The demonstration included the distribution of signs and banners, talking to sailors, and blockading traffic leading to the base.

This was my second experience in a blockade. I was arrested for trying to shut down the Rock Island Arsenal on June 4th, and found not guilty by a jury.

One of its editors, Pedro Chamorro, said "The grip of Sandinista control is tightening. In fact, we believe the 15,000 Contra rebels based in Honduras who are fighting the Sandinistas is tightening. In fact, we believe the 15,000 Contra rebels based in Honduras who are fighting the Sandinistas is tightening. We believe that the Contras are trying to eliminate their opposition. In this the way to achieve the freedom and democracy guaranteed by the Sandinistas, Nicaragua and who now rule Nicaragua."

The Sandinistas are in an uphill battle for power and resources.

The recent earthquakes shook the country, and it is uncertain what will happen to the Sandinista government.

The most notable changes in the Sandinista regime have been in the area of education. The government has closed several universities, including the University of Central America, and imprisoned hundreds of students.

The students have been credited with having staged the most peaceful and effective protests in the country.

The personal ethics of cheating

Cheating is automatically determined when an instructor or professor only looks at another person's paper during an exam. Dean Vien said that often "the exam is a point of personal ethics. You cannot be taught or known to do anything we can't do for your own." We all have heard the statement made by instructors that "cheating is a way to cheat yourself." In one sense this is true, but when grades on an exam are cut there are other factors that may have unfairly damaged to have others cheated.

In the ITT Student Handbook for 1984-1985, "Misconduct for which students are subject to discipline" is defined as follows:

Dishonesty, such as cheating, plagiarizing, or knowingly furnishing false information to the administration.

2. Forgery, alteration, or use of university documents, records, or property. This includes the unauthorized commitment or intent to defraud...

Mr. James V. Vien, Dean of Student Life said that this provision is typically "related to cases of cheating incidents per semester." When asked about the frequency of such cases, Dean Vien said that it is typically several times a semester. When asked about the frequency of such cases, Dean Vien said that it is typically several times a semester. When asked about the potential for the institute to cause someone to get caught, Dean Vien said that it is typically several times a semester. When asked about the potential for the institute to cause someone to get caught, Dean Vien said that it is typically several times a semester.

The ITT student body of 1985-1986 is made up of 2,500 students. This is a relatively small number compared to the 9,000 students enrolled at the University of Illinois at Urbana-Champaign.

The student body of 1985-1986 is made up of 2,500 students. This is a relatively small number compared to the 9,000 students enrolled at the University of Illinois at Urbana-Champaign.

The University of Illinois at Urbana-Champaign is one of the largest state universities in the United States, with an enrollment of approximately 30,000 students.

Budget (continued from page 1) President Martin and the Board of Trustees reevaluate their plans before making a final budget proposal.

The group pointed out that the changes in the science and research applied in technology at the expense of basic scientific research is a concern. They also mention that if a large enough number of professors and staff members are cut, that IIT could lose accreditation.

One professor believes that IIT and their education is in jeopardy is urged the president to attend the next meeting. The next meeting will be held on Monday, November 19 in room 204 of the Life Science building. It is scheduled to begin at 5 p.m.

Jim & Joe (continued from page 4) of his RS network. He must be able to set it back in only moments before the critical crash. Though this soon becomes routine, his stop-start timing and fast writing hand are necessary.

At times, overworked RS may have to return to the wares of the chesiter. In cases such as these, the Chester must work dows with the primary RS to the secondary, even tertiary RS.

In one instance, he observes the distributing his homework assignments from three classes to members of his RS network. In addition to the initial distribution, pick-up locations and times needed to be determined; RS must communicate and link the communication established (in case of an emergency). The system proceeded only because of the organizational skills and leadership abilities of the individual RS.

Of course, there are forces of chaos that arise, such as a sudden fire, but this does not suggest laziness on the part of the Chester. For the RS to be caught up by copying, this implies patience and a strength of will, not laziness. The Chester must know that the RS will not work on his homework during an exam period while the student next to him (hopefully an RS) will check most of it or all of most of it.

Only then does the checker begin the check, quietly saying “yes” or “no” while avoiding detection.

In some cases, the checker will enter a substitute student to perhaps take a final exam. But this is bad, and often involves a high monetary reward for the substitute. Once again, this is not a sign of sloth on the part of the Chester, but rather a desperation.

One can, in fact, see that cheating is not a symptom of laziness. Now, we’re not saying that the chemistry students are not lazy, but there are a lot of lazy cheaters. What we are saying, in fact, is that cheating is caused by laziness. One merely needs to observe the effort that goes into not cheating, and the statement becomes obvious.

Perhaps, then, our study will free us from the current attitude stigma of being lazy.

Carnival for Jackie a success

Friday, November 16, the long awaited Carnival for Jackie took place. Not only was it fun, but the event raised $1000 for Jackie Michelin's trust. The students of IIT did a superb job organizing the carnival. There was a one-horned minature golf course complete with bubble blower, pin-the-eye-poke, and others.

There was a shooting gallery where you could shoot your favorite person from the IIT staff. There was also a coin toss for the boys, while not much was turned on the girls.

There was also a prize for the person who was the best dressed. In total, there was $2500 raised.

The highlight of the night was the dancing competition, as IIT’s Doug Lovato and Lori’s highly requested dance group was able to win off against each other on the 1 and 3 meter dancing events. Doug dove on Lori’s back and won for the 238.60 to 211.95 on the 1 meter, and 274.55 to 236.03 on the 3 meter. Finally, the 3 meter was over 3 points away from qualifying for the NCAA National II National Championships.

Swim teams win dual meets.

Will Johnston.

The Hawk swimming team traveled to the University of Iowa in Dacukah, Iowa last Saturday for a dual-meet with Rockford as we as Chicago. The Hawks were worth it for for, as the Hawks came away with two victories. IIT won over the Bears 116-97, and over Rockford 60-43.

The Hawks dominated the first three meets of the season with winning 10 out of 13 events over Loras, and swiping all 13 events against Rockford.

Seniors Ed Paulo and Dennis Mele led the swimming team to victories over Bradley and Loyola. After the victory over Bradley, the team’s record is now 2-0-4. All of the competition has been against Division III teams.

IIT was able to beat Bradley average an earlier loss to the Braves at home. Ed Paulo pulled off victories in both 200 and 400 freestyle, and 200 and 250 breaststroke, and 200 and 250 backstroke.

In addition to individual events, the 4x200 and 4x100 relays added victories. A real team effort paced the IIT swimmers to victories over Bradley.

Protest (continued from page 4) in the United States, actions in Nicaragua are following the same pattern as our own. The installation of a new regime in two countries before that conflict left 60,000 Azerbaijanis dead and another 500,000 homeless. And the USSR and America have killed more than 2,000,000 Vietnamese, mostly civilians, killed. The last effort to stop the slaughter of our sisters and brothers in Central America has been made.

We must let Central America be Central America, not just a puppet of the U.S.& C. S. Wacker Drive. The Deans of Loyola college and the College of Law, with along with others, need to put pressure on Martin to change the situation.

The guerrillas were arrested, most for sitting in the street. They were charged with murder, rioting, violation of violent protest, obstructing traffic, or resisting a police officer.

Later, Martin emphasized that IIT is great, and that the police are great. "Look around you," Martin said. Then he "see smiles and seniors (as I say "seniors") and that we are a kind of attitude that doesn't belong on this campus... that's how you feel (as a faculty member) at the least." Martin should seriously reconsider your position here.

The meeting cooled down after a few questions. As a close of the meeting, Martin told the faculty for offering and suggestions.

Martin (continued from page 1) administration will give a report on its review of these ideas by December 15, 1984.

The UFFPC has been asked to report on the 1984-85 budget and any changes in the Student Union before a DCC vote by February 23, 1984.

The FUFC has been asked to report on the 1984-85 budget and any changes in the Student Union before a DCC vote by February 23, 1984.

The highlight of the night was the dancing competition, as IIT’s Doug Lovato and Lori’s highly requested dance group was able to win off against each other on the 1 and 3 meter dancing events. Doug dove on Lori’s back and won for the 238.60 to 211.95 on the 1 meter, and 274.55 to 236.03 on the 3 meter. Finally, the 3 meter was over 3 points away from qualifying for the NCAA National II National Championships.

The UB Films Committee will show Studio Product Reels for the selection of the Spring ’80 movie schedule on Tuesday, November 20 in Cohen Lounge at 7:00 p.m. All students are welcome. Please come and let us know what movies you would like to see next semester.
The next two games were very close and went into overtime. IIT came out on top both of them, 16-14. They needed to win the final game in order to win the match, but after playing 9 consecutive games they couldn't do it. Wilmington defeated the Hawks 11-15 in the last game, winning the match.

Mary Kroush was voted most valuable player of the season. Kroush was also selected for the all tournament team in the Scarlet Hawks and Trinity Christian tournaments. She is a senior majoring in chemical engineering.

Cathy O'Riordan was voted most improved player. She specialized in serving and defense. O'Riordan is a sophomore in civil engineering.

Two team members were voted "Freshman of the Year." They are Janice Kosta and Michelle Mosanah. They both played the setting position. Kuta's major is mechanical engineering. Mosanah is majoring in business.

Jennifer Glick was selected for the All Conference team. She was also voted most valuable player at the Rockford Invitational. Glick is a sophomore majoring in computer science.

This year's co-captains were Loraine Makar and Kelly Cuda. Both of them are outside hitters. Coach Meyer feels they both did a good job leading the team throughout the season. Makar was named to the all tournament team in the Scarlet Hawk Invitational. She is a junior majoring in electrical engineering. Cuda is a junior majoring in accounting.

The Scarlet Hawk's two leading spikers were Joan Benes and Ruth Zeldin. Beets is a sophomore majoring in chemical engineering. Zeldin was a junior continued on page 15-11.
Herman and AT&T.
The Long Distance Winners.

Herman van Springel, long distance cyclist, left the others far behind in the 1981 Bordeaux-Paris race, covering over 362 miles in 13 hours, 35 minutes, 48 seconds.

AT&T long distance leaves the others far behind, too. You'll get great service, unmatched quality — plus savings that keep on rolling every day. You'll save 40% evenings — 60% nights and weekends. So you'll come out way ahead.

For information on AT&T Long Distance, call 1 800 222-0300.

"The more you hear, the better we sound."
