Concerned students address problems currently facing IIT

A series of meetings was initiated by a group of students concerned about the plans being discussed by the President and the Board of Trustees regarding the future of IIT. The initial meeting was held on November 12 and was publicly advertised by flyers posted on campus. Approximately 35 students, both graduate and undergraduate, attended. The purpose of the initial meeting was to determine what concern, if any, existed among the student body, and to determine the appropriate course of action.

As a result of the meeting, an open letter-petition, briefly outlining our concerns as students of IIT, was prepared and circulated by those present. The intention of the letter-petition is to inform the administration of the existence of a concerned and committed group—the students of IIT.

Consequently, as a means of establishing communication with the Board of Trustees and the administration of IIT, it was decided to circulate the letter-petition which briefly outlined the concerns of the students. The purpose in circulating the petition was to garner more support and to allow all students the opportunity to be represented in subsequent communications.

On Dec. 3, a meeting with the Committee of Concerned Students was initiated by Mr. Arch, continued on page 4.

IIT swimmers take second at Invitational

7-11 to open store

IIT agreed several weeks ago to lease space in the Commons to 7-11. Renovation will begin on December 22nd and the store will be open for business 24 hours a day next semester. It will have a liquor license to sell beer and wine.

The Commons Mart, which is being replaced by the 7-11, is owned and operated by IIT. By the time the 7-11 begins operating in the end of January, it will be doing more than replacing the campus mart, Gaspar Garafalo, manager of the Mart and an employee of IIT for 11 years, 7 months, will be replaced as well.

Mr. Garafalo has reached a crossroads in his life. The father of three daughters and a grandfather, at age 62, he has a few decisions to make. "As of now IIT has yet to talk to us (about a new job). If I don't find a new job, I'll retire early." Previous to IIT, Mr. Garafalo worked for an insurance firm as a claim adjuster. He was also laid-off from that position. "It happens," said Garafalo.

Regarding the incoming 7-11, Mr. Garafalo thinks things should be alright for IIT. "If they have extra security, things should work well." And, about the sale of alcoholic beverage, he stated "I used to work in a liquor store. Determining age, it's tough."

Even though he's leaving under difficult circumstances, Mr. Garafalo has anything but bad feelings for IIT. "I think IIT has fine academic programs. I have one daughter getting her masters degree in the ID program. He also has another daughter in the optometry school. I am happy to have worked here. The students make you feel like you're at home. I'll really miss the people, and especially, I'll miss the students."

This issue marks the end of Tech News' publishing semester. It has been a long and interesting term. We plan to continue striving for excellence and we invite you to join us. Good luck with exams and have a happy holiday.

The Tech News staff

DePaul University

Review Course for the
May, 1985
CPA EXAMINATION

(January 3–April 30, 1985)

The 56th DePaul University CPA Review is now accepting enrollments for the Winter 1984-85 Review. The Review features live classroom instruction, an all-CPA/alum facult, two convenient locations and session options, and special repeat tuitions. The Review has an open admission policy.

The last 57 reviews maintained:
*70% or over pass/criterion rate
*over 85 models and awards (statewide and nationwide)

NO review can match the coverage, the instruction, the faculty and the experience of the DePaul CPA Review Course. For information call (312) 341-8640.

All rates quoted above subject to availability, certain restrictions apply.
Master Films

The popular feature film "My Bodyguard" will be shown as part of the semester's "Master Films" program, in the Residence Hall cafeteria Friday, December 14 at 7:30 p.m. Free and open to the IIT community.

Christmas Fair

The 5th Annual Children's Christmas Fair will be celebrated this season on Thursday, December 13 in the Commons lower level area beginning at 3:30 p.m. IIT's pastoral Santa Claus, retired Institute of Design professor Cosmo Campoli, will generate his magical atmosphere and will call all children to the full house area to play to a rosy-touched crowded room full of Christmas stories. A team made up of Vandyk College of Music students (courtesy of Mike Greulich) and the hospitality of the Campus Marti and the Housing Office will further the good cheer.

Children of all ages and the young-at-heart from the IIT community are invited to enjoy this popular campus tradition.

Connections delay

Due to publication problems, "Connections" will be available during finals week instead of the originally scheduled date of Dec. 12. The secretary can be picked up in the Student Life Office.

Bible and You today

The "Bible and You Today" program will hold its closing session for the semester Tuesday, December 11 at 12:15 p.m. in the Field Conference Room 104. The organization of the service and the significance of this Christmas celebration to St. Mark's gospel will be the focus of reflection. A dialogue on the relationship of the biblical message to personal development will follow this central theme. The meeting is open to the IIT community.

Give to the needy

Once again this season of the semester, any clothing or food deposited at the HUB location by the Student Life Office or in the Resident Dining Hall will be distributed to needy families in the neighborhood and in the open area. IIT's Home-Religious Council sponsors the drive and will be glad to see that any of your extras are put to good use.

ATS elections

ATS will be holding an election for the office of Assistant Treasurer on Tuesday, December 11. Ballots will be set up in the northwestern corner of the HUB from 12:15-2:45 and 3:45-6:30, in the Commons from 12:15-2:45, and in the Resident Halls from 4:30-6:30. All full-time students with a valid ID may vote.

Secure your home

On Monday, December 10th there will be a presentation on "Home Security" conducted by the Chicago Police Department. The presentation will be held at 8 p.m. in Cohen Lounge at the Residence Halls. Topics of concern include: organizing your campus residential area, the apartments, fraternity and sorority, and residence halls.

See the opera

The International Visitors Center has obtained reduced rate tickets to the opera. The opera is a fantastic way to celebrate the winter break. There are also special tickets to the Chicago Bulls, Orchestra concerts, and baseball games. Students are encouraged to attend events with plenty of encouragement, ideas, and participation next semester!

Co-op thanks

At the end of a successful semester for the IIT-Coop Student Organizations, I would like to express my deepest thanks to everyone who participated and helped. We involved ourselves in many things, which strengthened our organization and ourselves. The Telescopes to Electric, Motel, Fernbach, and Fisher Body were all first rate, as well as our other get-togethers. Special thanks go to Officers Ron Rogalla, Bill Nordbrock, and Bob Decoteau.

The next semester promises to be another success. Newly elected President Jody Turner and Secretary Sue Kricker are already planning for next semester. I wish Co-op students much success with plenty of encouragement, ideas, and participation next semester!

Good Luck on finals—Erick Kramm

IIT receiving grants

IIT is receiving grants and gifts worth much money from Chicago area companies, including:

- IBM, to be used for the Computer Science and Electrical Computer Engineering Department.
- AT&T is giving IIT equipment valued at $100,000, including four AT&T 3B2 supercomputers with two terminals each. AT&T will install the equipment and provide free maintenance for one year.
- AT&T gave the equipment to IIT as part of a program to invest millions to promote computer education in research universities. IIT has an outstanding relationship with IIT. For example, AT&T is one of the largest subscribers to IIT's V. IIT plans to incorporate the AT&T equipment into the IIT's computer system, to help run the center's lab environment, for both teaching and research purposes. The equipment is ideal for teaching advanced operating systems concepts and applications and is important to the IIT's educational mission.

College Bowl

continued from page 1
McClure, Assistant President and Executive Secretary to the Board of Trustees. At this time the president discussed the current concerns as represented by the board and asked for a voluntary commitment to serve as the liaison with the Board of Trustees in expressing the concerns of the students. It was decided to accept and utilize his offer, and the petition will be sent to the Board, via Mr. McClure.

To date, over 500 signatures representing departments and unions in the university, have been obtained. The response indicates a strong concern on the part of the student body about the future status of the university and the health of its students.

The petition reflects the seriousness with which the students regard the situation. The text of the petition is reproduced below:

"We, the students at IIT, agree with the policy change of the Board of Trustees which empowers the president to hire and fire.

We oppose the use of technology at the expense of basic scientific research. We feel that the present faculty salaries and limitations in current policy are detrimental to the quality of education in this country.

We ask the Board of Trustees and President Martin to reconsider their decisions and to clarify their position on the status of Lewis College at IIT. We feel that the immediate and future existence of the College is threatened if the Board continues its present course of action.

Over the years, many students have enrolled at IIT because of the school's good academic reputation and the opportunity for specialization and its evening program. The loss of Lewis College would ensure a drop in enrollment and a loss of revenue and irreversibly damage IIT's reputation in the academic field.

"We ask the Board of Trustees and President Martin to reevaluate their decision for Lewis College and to realize its significance and importance to IIT and the whole academic community in Chicago and surrounding area.

Concerned Students at IIT

Kathleen Ryan ( Chemistry )
Patsy Gallery ( Biology )
Pat Kuney ( Psychology )
Andresa Maka ( Biology )

IIT gets money for program

IIT is also granting IIT $5,000 to purchase other equipment, including a multi-processor computer that can be used for office automation and remote teaching equipment for a Distributed Computer Library. The Society for Manufacturing Engineers is giving IIT $2,100 to help purchase automation equipment. The equipment includes 11 IBM PC and a machine tool which are instructed by a program. The setup is capable of laser marking and drilling operations.

Another $1,000 is being given by the American Telephone and Telegraph Company to IIT for purchasing similar automation equipment. This equipment will be used by the IIT student and faculty in the CE and ECS Departments.

General Motors has agreed to grant IIT $15,000 over the 3-year period. IIT has already received $50,000. This money will be used for equipment purposes. The faculty and the students will go to development of CAD/CAM and robotics facilities for student and faculty use in engineering education. It will allow training in programmable automation.

Another portion of the money will go to the Pre-University Program for Women and Minority students. The plan is to expand their recruiting programs.

The third portion will be used to improve facilities in the Placement and Cooperative Education Department.
Students react to cheating

The time has come when stress levels are at their utmost high. And as most of us know stress causes us to do things we wouldn't ordinarily do under a relaxed situation. Jack Edwards, Associate Professor of Industrial Organization, gave stress as the reason why he cheat. He said, "Students may cheat because of the amount of stress placed on them by parents who cannot accept failure. Maintaining a certain GPA for financial aid or financial reimbursement from a corporation may be other causes of student related stress." Dean Vise said that, "most cheaters are ones who are failing already. By cheating they hope to get a "D" instead of an "F"."

Cheating takes many forms from plagiarism, to looking on another's test paper for a calculation result to having someone complete your drawings. Some call this "innocent borrowing" but Professor John Root, chairman of the Humanities Department, believes that when an "out and out substitution of someone else's work without attribution occurs, it is theft and should be dealt with as such." The most obvious form of cheating in Professor Root's opinion is "the term paper writing service." Unless a student attaches the paper to the company that completed the research and wrote the paper, it is cheating. "Even a paraphrase of an idea or collection of words must be attributed," says Professor Root. You just can't change three words in a published paragraph and claim the thought as your own.

Professor Graham, acting chairman of Mechanical Engineering said that "if a policy statement on cheating is read to the students at the beginning of each semester. An incident of cheating is directly reported to Dean Vise, the chairman of the department, and the dean of the school. Professor Graham said, "Engineering is a profession and cheating is not a professional activity." What is worse than cheating? She responded, "Incompetence as an engineer." In Architecture, Planning and Design, "cheating is very difficult to measure. Clearly, if someone does your drawings, that is cheating," said George Schippert, Dean of the College of Architecture, Planning and Design. The developmental process inherent in these professional fields makes it difficult to cheat.

Students are evaluated on what he/she produces on a semester-long project. The whole process of concept development-construction-production is an evolution of ideas, plans, and models. Mr. Schippert said that, "when someone misrepresents himself by using another's ideas or drawings, it is immoral, an act of commentary on one's life. You simply cannot go through life concealing your way."

So while we here at IT are discussing the school policy and the morality of cheating, one question still remains for the "real" world to discuss: Who wrote Michael Jackson's amp; "The Girl Is Mine?"

The students respond to the issue of cheating:

- Michele Hines, MIS, freshman

"Cheating is a dishonest way of getting ahead. It is taking advantage over other students. I really can't say whether a lot of people cheat here at IT. I'm not looking to see who's cheating. If someone is caught they should get a zero for that exam."

- Name withheld, Engineering, Junior

"Cheating is a way of life here for some students. When they know they can get away with it they will cheat. If they get caught they should take a zero for that examination, not get thrown out of school."

- Eileen Delon, Electrical Engineering

"Cheating occurs when someone looks at another's paper during an exam or when they use another's homework. Most people I know don't cheat, but I'm sure there are people at IT, as well as at other schools who do cheat. If someone gets caught the punishment should depend on the extent of cheating. A zero should be given on homework or an exam."

- Lauren Schwartz, Design, Junior

"Cheating occurs when someone tries to get something they didn't work for, earn, or deserve. I don't think a lot of people at IT cheat, at least not as much as at any other university. Although this is a high pressured school there might be more who feels that cheating is their only way out. If someone gets caught cheating they should be asked to drop the class. If it happens more than once they should be expelled."

HELP WANTED

Technology News is looking for two typists to work for our publication. Beginning in the Spring 1985 semester, the position is open to any student capable of typing approximately 45 wpm or better. The job requires 3-5 hours per week of your time. There are three possible time slots open; Thursday 3-7 p.m., Friday 2-6 p.m., and Friday 7-11 p.m. These positions are salaried. The starting date is January 24 - 25. If you would like to get involved in the publication you are reading, and make some money to boot, please contact Bob at x3605 or stop by 5th floor Main Building on Friday evenings.
UB Month in the Rec Room is Over!

To everyone's shock and chagrin, UB Month in the Rec Room is over. All the winners are listed below. Congratulations! Your hard work and determination paid off. You win a spazlin' new UB Tournament T-Shirt!

High score bowlers win Ubman T-Shirts.

THURSDAY SHOW ONLY!

STALKING

THE WRATH OF KHAN

Attention All Trekkies: Prepare to be beamed directly into another adventure beyond the stars aboard the Starship Enterprise. The sequel to Star Trek: The Motion Picture has been shipped old biz-office records into hyperspace. All the original characters are back, ready to face their most challenging foe to star-date in the most exciting, effects-filled journey ever undertaken. Fifteen years after the evil Khan (Khan Noonien Singh) was imprisoned on a deserted planet, he has not forgotten his man responsible for his captivity and has vowed revenge on his former foe Kirk. Now an admiral with nothing more to do than push papers, Kirk (William Shatner) is only as a remnant of the powerful starship captain he once was, dropping only on his hard memories of past adventures among the stars. On a three-week reunion voyage on his former ship, Kirk and the other Enterprise crew members discover that Khan has escaped possessing a weapon of limitless power and that they must enter into the battle of their lives, a battle that can afford but one victory, a battle against... The Wrath of Khan!
Everyone knew what Jeffrey should do with his life. Everyone was wrong.

What I want for Xmas
by Thomas N. Finn

Dear Santa,

It's that time of year again — you know, deck the halls and all of that. Here's what we want for Christmas. Just in case it's too much for you to handle, don't feel like you have to make an extra trip and Send the stuff by United Parcel after the holidays.

Oh yeah, I'd better tell you not to come down the chimney again at a fire's going. Dad's still mad about the carpet. In fact, we don't even want any through the back. Maybe P raised won't get so lazy this winter.

Anyway, here's my list:

Electric beachball, roller skates powered by Saturn IV rockets; Rolaids for my burning Tupperware; a record of Harry Caray singing "Take Me Out to the Ball Game" in Arabic; a rosewood display cabinet for my friend's chicken collection; a giant paperweight for Clara Peller; Raspberry-flavored bath soap, a scale model of Wright Field with animated figures and surrendering Boy George designer makeup (it's not for me — we're from Ohio); rubber razor blades; Hefty bags (small size); ice cream cone gallon each flavor; bologna ripple, catsup, mint, liverwurst; a wind-up pot roast; a football with three points; glow in the dark french fries; downhill skis for my pet golden.; Robie's grenade (scramble it — you have 6 seconds to solve it); a propane powered calculator (must have trig functions); cheese that goes crunchy; five portable toilets (assorted sizes); parallel bars; parallel beer mugs; a wheelchair with which you peddle; a revolving door for my doghouse; a dashboard with automatic return; peach colored asphalt so my driveway can match my '84 DeCato; a wallet-sized Chicago telephone directory; a polyester leisure suit for my einen tree (size: dwarf); a refrigerator that runs on moldy head; sponge rubber mats and boxes (Nos. 8 and No. 10); a Rolls-Royce with a Volkswagen Beetle front; membership to the Club of the Century — three pounds adjustable green beans; a sunny snack for more than a snack; industrial strength chocolate pudding; Pistachio flavored mash-ups; eve package instant water; blackjack drinking glasses; a whipped cream cheese cut; a walking stick for my pet goat; a kite box for my kite.

You can see there's not too much this year. If I don't get what I asked for I'll kidnap your reindeer and make them watch Dragnet reruns until they think Richie Daley is witty and charismatic.

Yours truly,
T. F.
S. P. Weell.

There is just one more thing. My mom said it was hopeless to ask for and you just sneak anyways, but I'd rather have this than anything else. What I really like it Peace on Earth, good will towards all men. (Even the Padres.) Merry Christmas!
VARSITY BASKETBALL OFF TO A BAD START

The fortunes of the varsity basketball team still are catastrophic with an 0-5 record. According to Coach Topper, he hopes to return from Florida with a 3-5 or 4-6 record.

"We aren't that bad of a team. It is like flipping a coin and tails comes up five straight times. Sooner or later (hopefully sooner) you know that it has to come up heads. We are trying hard, playing exciting basketball and losing. We can do nothing more than continue to try as hard as we can and maintain our present work ethic. Realistically, I truly thought that if those returning played to their potential we would be 3-3 right now because our schedule is so difficult," stated a stern Coach Topper.

Leading the Hawks in scoring are junior guard, Gary Musser, and sophomore forward, Bill Recchia, who has a 7.8 average. Recchia also is a high rebounder with a 7.6 average. Keith Evans, a junior, was named "Player of the Week" due to his performances against Illinois Benedictine and Valparaiso University. However, he cooled down as the Hawks returned home and lost 78-29 when they took on the 6-0 University of Wisconsin-Parkside Rangers who were averaging almost 100 points per game. Evans scored only 5 points and had only 4 rebounds in that game.

Admission to all home games is free to all IIT students. Let's fill up the bleachers at Keating Hall and help the Hawks get on the winning track.

Cary Musser

IIT HOCKEY TEAM BRUISES BELOIT 11-3

The Hawk Hockey team was on the road last weekend for two conference games. Friday night the Hawks traveled to Beloit, Wisconsin to face a much improved Beloit team. The Hawks pounded Beloit’s goalie with 60 shots which resulted in a 11-3 I.I.T. victory. Beloit started out strong by taking a 3-1 lead with three minutes left in the first period. By the end of the period, the Hawks had come back to tie the score with goals by Greg Dowd and Mike Galich.

The Hawk penalty killers were superb in stopping all of Beloit’s six power plays. Despite the poor officiating, the Hawks retaliated with 8 more goals to finish off Beloit. Bill Nixon scored 4 goals to lead the Hawk attack. Also prominent in the scoring were Rick Pappas, John Thomas, and Mike Galich. Defenseman, Robe Himley and Matt Brach were relied on heavily for penalty killing duties as well as neutralizing Beloit’s strongest line. Matt Brach was shaken up the eye by a Beloit player. There was no penalty called. Matt received four minutes after the game and was ready to play in Sunday’s game. Also injured was Tom McCowan who strained his neck.

This game was the Hawks best overall performance of the year. Each of the four lines had contributed at least one point and the defense played a very strong game. Jim McGlinn had another outstanding game in goal by stopping 33 of Beloit’s 36 shots on goal.

The Hawks had an early morning practice on Saturday and then travelled to Dubuque, Iowa to play the University of Wisconsin-Piattsville on Sunday. The Hawks hoped to gain 1st place with a victory but were outplayed by a 9-2 score. The first 10 minutes of the game were the most devastating as the Hawks gave up 6 goals. The Hawks regained their composure but were unable to make up for the six goal deficit. Injuries plagued the Hawks as defensemen Rick Pilapil was taken to the hospital in the second period. He was checked from behind by a Piattsville player but no penalty was called. His knee was slammed into the boards and will probably be out of action for about 6-8 weeks. Steve West was also taken to the hospital with a shoulder injury. He will also be out of action for 6-8 weeks. Tom McGowan played only a few shifts since his neck was hurting again. IIT Coach Charlie Stasica had to mix up the lines to make up for the missing players. The loss brought the Hawks conference record to 2-2.

The Hawks came home to play Trinity College on Sat., Dec. 15 at 7:00 p.m. There will be a fan bus leaving for the Southwest Ice Arena at 5:00 p.m. Anyone interested in going should sign up at Keating Hall. There is no charge for the bus or refreshments so come out and support the Hawks.

IIT Scoring

Bill Nixon 4 goals 3 assists
John Thomas 4 assists
Rick Pappas 3 goals 2 assists
Mike Galich 2 goals 1 assist
Terry Collins 1 goal 1 assist
Matt Brach 1 goal 1 assist
Rich Groch 2 assists
Steve West 1 goal
Greg Dowd 1 goal

IIT Swimming

IIT swimmers place second

What was supposed to be a workout meet at the Loyola invitational last Saturday (Dec. 1), turned out to be an excellent showing for the Hawk swimmers and divers. They beat tough Division 1 schools: Loyola University, University of Missouri; St. Louis, and the University of Chicago. They outscored the University of Missouri by a single point, after a disappointing disappointment in the last relay. The only loss for the Hawks was to Northern Illinois University.

Sophomore Chuck Fee led the Hawks with a first in the 200 freestyle and a second in the 500 freestyle. Captain, Steve Hitz, got two seconds in the 200 butterfly and the 200 breaststroke. Other top scorers were Mike Meeker, Aaron Helby, and Ray Sullivan. Messler, Henly, Fei, and Eida teamed up to get a second in the 400 medley relay, narrowly losing to a powerful Northern Illinois.

Hawk divers, Gordon Stanesch and Doug Levato, also kept pace with the competition as they both placed in the top six in the diving competition.

Coach Matuch said before the meet that the team would train through this time in preparation for the 13 team Regency Invitational at Rockford College on December 8. However, the squad came out hard and knocked down a couple of the big teams. Coach Matuch also stated, "Although this year's squad is as talented as past teams, this is one of the most aggressive and vicious. Nobody who swims against us this year will be able to brush us aside or call us an easy one, because we are capable of putting the boot in any of the big guns we see this year."

The Hawks also won a scrimmaged meet against Harper Junior College last Tuesday.
