Prospective Students Visit IIT

by Charlotte Kotowski

IIT held an Open House for prospective high school students on November 8, 1985, from 8:30 am to 1:00 pm. The day was planned by Normandie Zagorski, Mary Gerig, Jim Lee, and Sheila Walker. It was estimated that around 950 students and their parents attended the event.

All prospective students who participated were given the opportunity to: choose two major areas of academic interest. They were then given overviews of these departments. Later, students were offered campus tours and information on financial aid and cooperative education, among other programs.

This year's program differed slightly from previous open houses. For the first time, all of IIT's colleges had one open house. In past years, they held different ones on different weekends. Also, in choosing specific areas of interest on this day, students were told to choose two, instead of three. Lastly, this year more faculty members gave presentations rather than leaving that job to individual tour guides.

Mary Gerig, one of the coordinators of the Open House, stated that prospective students seemed to be very impressed by the demonstrations and equipment used by the various departments. She also said that the faculty were perceived as being interesting and friendly.

Computer Awareness at Kent

by Linda Parsons

The IIT Kent College of Computing at Wisconsin was selected last spring as the university to coordinate the teaching of computer use.

Kent Law School figures that in 1990, 60% of the industry will be heavily computerized. This figures suggests that the teaching of computer use should be more integrated into the law school curriculum. Kent also plans to implement a computer use program for all students. The school will offer a course on computer use and a seminar on computer law.

Breen Named U.R. Head

A new member has been added to IIT's staff. On October 14, Michael Breen joined the University Relations Department.

His new duties include public relations work for IIT, working on the Alumni newsletter, and producing much of the printed information published by the University Relations Department. When groups of individuals write in requesting information about IIT, University Relations writes it up and sends it to the group or person.

Michael Breen was born in Chicago. He did undergraduate work at Loyola University, and a Masters degree in education at Roosevelt University. He also studied for a year at the University of Bordeaux in France. He is currently a Senior Research Assistant at the University of Illinois at Chicago.

New Student ATS Committee

by Charlotte Kotowski

Feeling left out? Dissatisfied with campus conditions? If so, joining one of IIT's seven committees might just be the answer! IIT stands for Association of Tech Students, a student government body that represents all IIT's students' needs. This year, students have been working on the organizing committee to make sure that all students are represented.

One of the main concerns of the committee is to increase student involvement in the organization. For students who wish to become involved, there is a wide range of committees to choose from. The committee is elected by the students, and students living in the residence halls, and student government leaders.

Mark Saltas and David Bux are the co-chairmen of the Connections Committee. Members participate actively in designing, advertising, and selling CONNECTIONS, IIT's student telephone and address directory. Also, working on the student newsletter, a booklet of student activities, is Jim Kiriazis and his Teacher.
When you need a calculator—you need it now.

No waiting for delivery. Your University Calculator Center has the largest inventory of quality units available anywhere. Plus, we specialize in the calculator requirements of the college student.

TI-1500. This calculator really does fit into a shirt pocket. The slimmer, trimmed case has a chrome-look finish and all the features of the larger portables. Not just four, but five sig machine functions (+, -, ×, ÷, %) let you have all the answers. Automatic constant, full-floating decimal. Easy-to-read 8-digit display. Algebraic logic. Rechargeable, AC adapter/charger, carrying case and manual included. $39.95.

Entertainment For U

SEE GENE HACKMAN, STING OR SHEILA E. TO NAME A FEW, FOR ONLY $3.00.
U READ IT RIGHT, FOLKS, JUST $3.00.
ENJOY THE MOVIES WITH YOUR PLITT, GENERAL CINEMA, ESSA-HESSE, OR NU TIX TICKETS AVAILABLE AT THE REC CENTER 10 AM - 9 PM MON - FRI.

Colored ink and paper available
**College Bowl**

Just how smart are you? Are you smart enough to participate in the college Bowl internationals on December 4th and 5th? "What is X?" you say, "there's no competition between organizations and groups of people from all over campus." Teem are forming now, so don't miss out on the chance to win $125 for your group. One team of 4 will be chosen at random to play. Fee per team is $16. For further information, contact Tom Baggio through ATS in the Programming Office, x3074.

---

**ATS Meeting**

Please note that the next ATS meeting will be held on Tuesday, November 30th rather than Nov 25th as stated in Today's IIT. The meeting will take place in the HUB mezz. (rms. 301-302) from 12:45-2:30 PM. All participants are encouraged to attend.

---

**IEEE Meeting***

IEEE presents Wayne Kantarek from the Square D Company, Mr. Kantarek has been actively invited to carry talks from fields.

---

**MAE Seminars**

The American Institute of Aeronautics and Astronautics would like to announce the next MAE seminars, sponsored by the Department of Mechanical Engineering.

---

**Mini-Baja**

Attention engineering students of all fields! IIT's chapter of SAE (Society of Automotive Engineers) intends to participate in Mini-Baja competitions in the Midwest area. In order to be competitive, we need interested students from all fields.

---

**Laser Photochem**

"Laser Photochemistry of Molecular Systems Involving Gas-Surface Interactions" is the title of this week's colloquium, hosted by Prof. Peter-Lykos and to be held Wednesday, Nov. 20 at 4 pm in 118 Wieland Hall. Dr. Chih-Tien Lin, Department of Chemical Engineering, will discuss the physics and chemistry of laser-induced heterogeneous chemistry on surfaces surfaces acting as catalysts and surfaces that are actually involved as reagents in the reactions.

---

**Ski the Bumps**

Come on out and ski it with us for the first few weeks on our trip to Steamboat (sic), Colorado in January 1987.

---

**security Committee**

*The requirements are simply that you be hardworking and dedicated to achieving your goals. For further information contact John Schmaelz through ATS located in the Programming Office, x3074.

---

**Blackout**

The Residence Hall Association of Northern Illinois University is organizing a state-wide BLACKOUT for fifteen nights on Nov. 20 from 8:00-8:15 PM. This blackout is to show a united protest against Commonwealth Edison's 14% increase in student resident rates.

---

**Get Connected**

Connections, your IIT Student Directory can be purchased through the Programming Office on Tuesdays and Thursdays from 9-11 am and in the Resident Halls (Tuesdays and Thursdays from 6-9 pm).

---

**printer**

The printer is a very useful tool. It allows you to have pieces of equipment and trinkets with the idea of a combined network. however, no other college has the coordinated and integrated computer component, facilities that IIT does. according to Staudt.
**EIC: Confessions From a Closet Liberal**

I'm approaching the end of my term as Editor-in-Chief, after being on only a few issues left. I haven't written many editorials this week, but there are a few reasons for this. Most people who know me would blame my withdrawal on a lack of ideas. However, this is not the case. I haven't written much because I've been reading enough news and features stories to fill the paper. Specifically, I've been noticing that my editorials would not reflect the opinion of the student body. You see, I'm a liberal. That's right, I'm one of those people who makes noise over the most insignificant things like the split in the hair of an endangered small darter whose existence was threatened by the construction of a nuclear power plant, causing the construction progress to be shut down.

When I was a freshman, I soon realized that it would be in my best interest to remain quiet with my political views. If you remember that I had a few years of the Epson-Washington mayor race. I couldn't believe how ignorant people were. They voted for highly inexperienced Epson because they didn't have the time to vote for a black. I remember the excises I heard around campus, "Washington didn't file his tax returns." "Washington is the puppet of radical hate white groups." "The city will fall apart!" We didn't fall apart and in general the world didn't.

So I remained quiet. I stopped saying anything about the mayoral race. I didn't say anything when the RTOCs who sat behind me in class praised Epson for invading Grenada. I didn't say anything about the human rights violations in Central America. I didn't say anything when the book guys made fun of Geraldine Ferraro because she was a woman. I didn't stop saying anything when people complained about the neighborhood children whose major crime, for the most part, was walking across campus and from their school. I didn't say anything when people wondered what all the fuss was about South Africa.

Something happened a while back that has caused me to speak up. We ran a story in the Nov. 4th issue about how one of our writers participated in a protest at an arsenal near Rock Island that manufactures weapons that are sent to U.S. backed regimes. I thought it was a pretty good story and more importantly, I admired her for speaking out against something that disturbed her and was against her beliefs. People who read the story asked what all the fuss was all about. Why should we go and just ignore something we really like that.

The fuss is all about the fact that the Reagan administration will do anything to prevent a Central or South American country from changing their government to a Marxist one. They will ships weapons to murderers to prevent this from happening. These governments are murdering innocent civilians who protest being under the iron fist of tyranny.

While I'm on a roll, let's talk about Grenada. The Pentagon invaded an island that we still can't pronounce the name of because it was a threat to our national security. Las Vegas is a bigger threat to

**IIT Grad Named to Ceco Corp.**

IIT graduate James H. Olson has been named Minneapolis district manager for the Concrete Construction division of the Ceco Corporation, a subsidiary of Ceco Industries, Inc., announced Martin W. Kreiner, division president.

Mr. Olson assumed the position previously held by Wallace V. Anderson, who retired September 30. In his new assignment, Mr. Olson is responsible for overseeing Ceco's concrete construction operations in Minnesota, North Dakota, the northern parts of South Dakota and the western parts of Wisconsin.

Mr. Olson formerly was plant manager of Ceco's Form-A-Plank plant in Knoxville, Arkansas. He began his Ceco career in 1963 in Chicago where he was a concrete formwork sales engineer. Prior to that, he was promoted sales engineer, Concrete Forming Division, and transferred to Ceco's Des Moines, IA district. He became assistant manager, Minneapolis district in 1970, and Form-a-Plank manager in 1979.

Mr. Olson received a bachelor of science degree in industrial engineering from IIT in 1963. He is a member of the American Concrete Institute, and the American Institute of Electrical Engineers. He and his wife, Sandy, and their two children currently reside in Andover, Minnesota.

The Ceco Corporation, a subsidiary of Ceco Industries, Inc., is the nation's leader in concrete construction services. Through its subsidiaries, Ceco Industries also is a manufacturer of building products for the construction industry including: pre-engineered metal buildings; side-hinged doors; overhead doors; overhead doors; metal architectural and structural building components; concrete pipe, block and prestressed sections.

**COBOL Creator Receives Heald Award**

Dr. Grace M. Hopper, computer pioneer and creator of the computer language COBOL, has been named to the Institute of Technology's Heald Award, Friday, November 15, at 7 p.m. at the President's Council at at the Ritz Carlton Hotel, Chicago.

The Heald Award, named for the Illinois Institute of Technology's founder, Henry T. Heald, is given by the university to a person who has shown outstanding dedication and service to human progress.

Commodore Hopper, PhD in mathematics from Cornell University and at 78, the oldest officer on active duty in the U.S. Navy, has led a life of incredible dedication to service - both to the public at large and to private industry, as well as to the military. She has been recognized for her unorthodox can-do spirit both inside and outside the Navy and the world of data processing. Dr. Hopper has received nearly 50 honorary doctorates and numerous other awards. In White House ceremony in 1963, President Ronald Reagan presented her with a star signifying her promotion to the rank of Commodore.

She began her career teaching mathematics at Vassar in 1931. At a time when degrees were rare, and a woman with an advanced degree in mathematics, rarer still, Hopper could have settled on a rewarding life as a university professor.

Instead, during World War II, she decided to join the Navy. After some reluctance on the Navy's part, she became an apprentice seaman and was assigned to the Navy's Bureau of Ships Computation Project at Harvard. There she worked on the Navy's Mark I computer.

Hopper stayed on at Harvard after the war and after her first tour of duty with the Navy. In 1949, she embarked on a new career with Eckert-Mauchly Corporation, and helped design UNIVAC I, the grandfather of mainframe computers, and COBOL, the English language based computer language which became the standard for business use.

In 1957, the Navy invited Dr. Hopper to return for a six-month stint. She remains on active duty today, serving with the Naval Data Automation Command.

Dr. Grace M. Hopper

**Gym Notice**

Due to the Public High School Thanksgiving Basketball Tourney which will be held in Keating Hall from November 26 through December 1, open gym activities must be adjusted. Please note the following:

Nov. 26 — IM Volleyball will be held, No activities in upper level after 12 noon, Lower level open as usual.

Nov. 27 — Upper level open until 1 PM, lower level open as usual.

Nov. 28, 29, 30 — Institute Holiday, building closed.

Dec. 1 — Upper level open until 5 PM, lower level open as usual.

**Free Stamps**

IIT Stamp Club will be holding a regular meeting on Wednesday, Nov. 20 from 2:30 to 3:30 PM. We will discuss a Main Post Office tour, a trip to a local stamp bourse, local stamp collecting hot spots, and as always there will be free stamps for new members. Also there will be free philatelic literature. IIT Stamp Club is a new campus organization open to any interested student, faculty, staff, or dependents thereof.

**EIT Manuals**

Pi Tau Sigma, Illinois Tech Delta Chapter will be sponsoring an EIT Manual sale Tuesday & Wednesday from 12-2 in the HUB, in front of the cafeteria. The manual with solutions costs $35, which is $15 off the store price. Watch Tech News for our EIT information session the first Monday in December.

**UCBS**

On Thursday, November 21 at 12 noon in the Hermann Hall Mezzanine, the Union of Concerned Black Students will have as their guest speaker Alderman Bobby Rush, along with its general meeting. We would like to see all members. PLEASE ATTEND.

**Alternate Realities**

New members are encouraged to come to the meeting at 12:10 Wednesday in the Crown Room to help plan new activities and events for the rem of the semester.

**Pentathlon**

The Pentathlon is this week in the Rec Center on Tuesday from 12 noon to 2 PM. Of five events (Bowling, 8-Ball, Football, Wrestling, and Basketball), you can compete in your best three. It’s only $1 to enter, so give it a try. Contact the HUB Rec Center, x3079 for more information.

**Shoot a Turkey**

Next week on Mon., Tues., and Wed. (25, 26, 27th), if you bowl 3 strikes in a row (a turkey in bowling) in the Rec Center, you’ll win a 10-12 lb. turkey in time for Thanksgiving. It’s only 295 per try, so start shooting. Call the HUB Rec Center at x3079 for more information.

**NSBE**

The National Society of Black Engineers is having a general meeting Thursday, November 21 at 7 PM in Stuart room 113 featuring guest speaker Mr. Armond Jackson of Black Enterprise Magazine. All are invited and encouraged to attend.

**Beta Beta Beta**

In Beta will hold a meeting on November 21 at 1 PM in 224 LS. Biologists, get involved! For more information call Jacci (x6329) or Dr. Koblick (x3480).

**Civil at Night**

Part-time civil engineering majors who are concerned with civil engineering course offerings at night, especially CE 307 (Introduction to Structural Design II) and CE 310 (Structural Analysis II), should contact Gary Salavitch at 840-8208 in the evening.

---

**The Smart Anti-Tech Challenge**

Since neither the Anti-Technology Challenge or "So you think you're smart" column were run last week, I will now run both in this space. First, the answer to the puzzle several weeks ago:

**The puzzle:**

A 12x30-foot room has a 12-foot ceiling. In the middle of the east wall, a foot above the floor, is a spider. The spider wants to capture a fly in the middle of the opposite wall, one foot below the ceiling. What is the shortest path the spider can take?

**The answer:** **Exactly 40 feet**

Here's how:

Plan A: 32 feet. White 42 is the answer to Life, the Universe, and Everything. It wasn't the answer to this puzzle.

Plan B: A bad one more than 40 feet. Here again, this is wrong.

Plan C: Exactly 40 feet. And, of course, the correct answer.

**The Winner:** **Fugowee**

(and I sure hope it didn't take all of you to figure it out)

**Now, the Anti-Technology Challenge:**

**The Winner:**

You have the right to remain silent...

Gregor Masick

**Most Honorable Mention:**

These stupid architects! It doesn't look anything like Mies Van der Rohe.

Unknown

---

**And now for something completely different:**

An idea came up in one of our staff meetings; one that deserved a second thought. Someone asked how many people have actually seen President Martin. From there, someone asked how many people actually know what he looked like. So, being the newspaper we are, we decided to find out.

**Which one of these is President Martin?**

Circle the picture that you think is of President Martin. Turn in your response to our offices on fifth floor Main Building. If we get enough, we will find out the true answer to this question. Results will be published in the last issue of the semester.
THE ELIMINATOR.

The AT&T Card eliminates fumbling with coins and hassling over bills.

The AT&T Card. The fast, easy way to call long distance— from anywhere to anywhere, anytime. The AT&T Card makes keeping in touch with friends and family a lot more convenient when you're at school.

You'll be able to get through on almost any public phone—on campus or off—without bothering with coins. And you'll actually pay up to 50¢ less than for AT&T collect, third-party or coin state-to-state calls. In fact, for most calls, it's the lowest rate next to direct dialing. And there's no charge to order the Card; no minimum usage fee.

You can also use your card to make calls from other people's rooms: the charge will show up on your bill, not theirs. No need to call collect or charge it to a third party.

You'll also eliminate a lot of hassle if you share a phone with roommates. With the AT&T Card, you'll get your own separate monthly bill itemizing only your calls. You'll pay more per call than if you dialed direct—but you'll save a lot of headaches trying to figure out who owes what.

As you can see, the AT&T Card eliminates all kinds of hassles. And you can get one whether or not you have a phone in your own name. Put The Eliminator to work for you. Sign up for your AT&T Card by completing and mailing the attached application. For more information call toll free: 1 800 CALL AT, Ext. 4589.
Complete and mail to: The AT&T Card, College Program, P.O. Box 5362, Cincinnati, OH 45201-5362

national security contingent the effect it has on the money
supply on its visitors. And Miami has more Cubans than
that little island ever did.

And finally, South Africa can't go without a mention.
There lies one of the greatest social injustices of our day.
There exists the heinous institution of apartheid where a
small minority holds the

majority of the country in
oppression on account of their
race. The Reagan admin-
istration has done little more
than shake its WASP finger and
say "Shame, shame."
I'm no expert and I don't
know all the facts. But at least I
try to keep an open mind.
Maybe that's the characteristic
of a liberal - the open mind.
I don't know much about
Nicaragua but at least I'm
willing to hear both sides.

That's the problem with
most students here at IIT. They
drive their car to school and
then go home and study or walk
from their dorm or fraternity
room to class then walk home
and study. Nothing much more.
They don't read much more
than necessary and they don't
feel any need to. They take
their required twelve hours of
humani won to twelve hours of
social sciences and thank the
heavens they're finished with
those courses in which the
professors demand that you
think about moral issues.

I admire IIT's humanities
and social science professors.
It must really try their patience
to deal with us. (Yes, I include
myself.) They spent years of
their lives studying those fields
which hold the greatest of
human knowledge and we think
these are a waste of time.
Research shows that we do not
substantially increase our
vocabulary after we reach our
20's. Most likely this holds true
to the extent to which we
increase our knowledge about
moral issues. That's great,
students at IIT are going out
into the world in professions
that demand the highest
ethics of a few mandatory
classes. I understand that not
much can be done about this.
Everyone will agree that we
take enough classes and have
work enough, but all of
ethics in the humanities and
social sciences can't be worked
into our schedules. But it still
seems to me that something is
wrong with this. But that's how
we liberals are, always making
noises about insignificant issues
like our moral education.

Launch hour. Throttles are at full
power in a supermarine Seamax
across the flight deck. And you're
the pilot.

The catapult fires and G forces
smack you back into your seat. A
few seconds later, you're punching
a hole in the clouds and looking good.
Nothing beats the excitement of

Evaluation Committee. The
committee, when completed,
will be made available to students
as a registration aid. It is
expected to be completed in
early December.

For individuals who are
interested in public relations
and publicity, there is the
Publicity Committee. Members
are responsible for recruiting
new members for ATS,
programming and hanging posters,
creating announcements, and
writing articles for Tech News.
The co-chairmen of the
Publicity Committee are Shieila
Moran and Shura Nowak.

David Johnson heads the
Leadership Transcript Commit-
tee. The committee maintains
timekeeping records of students
involved in extracurricular activities.
They will be keeping a database
program to track and organize the
data. It is hoped that the
transcript can eventually be
merged with the Placement/Co-op Office.

The University Relations
Committee, headed by Crystal
Gary, is responsible for
working with the University
Relations Staff to produce new
releases of student accomplish-
ments. Participants in this
course will be expected to
obtain such information and
submit it to the University
relations Office.

Tom Baglio is Chairman of
the College Bowl Committee.
This group is responsible for
organizing intramural College
Bowl Competition and entering
IIT in the regional
competitions. College Bowl is a
team competition for teams of
students and faculty. In
addition, members are
expected to publicize the event,
which will be held on December
4 and 5.

Students who are inter-
ested in participating in an ATS
Committee should contact the
Committee's chairman through
ATC office (3000I).

Again, all students are
couraged to become
involved.

In addition to the
committee chairman appoint-
ments, there are also recently
appointed four representatives
for their two governing boards
and their two advisory
committees. The appointments
are: Renard Pontillo (Tech
News Governing Board),
Siddhartha Chadda (WOU
Governing Board and the
Board of Higher Education -
Student Advisory Committee),
and Rayner Collier (Federation
Independent Illinois
Colleges and Universities-
Student Advisory Committee).

Sailing Team Competes

On Saturday, November 9, the IIT sailing team traveled to Green Bay, Wisconsin for the Area C elimination regatta. Area C is comprised of schools from Wisconsin, Minnesota, Iowa, and the northern quarter of Illinois. The top three finishers in this regatta go on to sail in the nationally renowned Timme Angell Regatta. Traveling itself proved no easy task, as approximately forty miles north of Milwaukee it began to snow heavily. By the time sailing started there were two inches of snow on the ground.

The racing was dominated by three schools: Madison, Northwestern, and IIT. In Division A, skipper Steve Long had three consecutive second place finishes. In B Division, skipper Jason Housten had finishes of first, second, and fourth. Due to an illegal crew substitution, Division A Division B finish was to become a disqualification. Even after that setback IIT was in third place overall, with Green Bay in fourth. IIT subsequently fell back to fourth and Green Bay fell to third after a very questionable disqualification given to IIT by the partisan jury which consisted of the coach and a former team captain of Green Bay. Despite shining performances by some of its members, the men's and women's sailing teams were defeated in both of their matches last week.

On Saturday, November 9, Western Illinois University defeated the men's team 61-18 as well as the women's team 72-8. In the men's match, IIT averaged 195 points per man while Western Illinois averaged 215. Andy Labis attained an excellent three game 700 series for the Hawks. For this fine accomplishment, Andy will receive an American Bowling Congress Award at the end of the season. Renee Mayden won 3 of her 5 matches for IIT and averaged 172.

The Hawks next faced Illinois State University on November 10, but were once again unsuccessful. The men lost 68-12 and the women were defeated 94-16. Renee Mayden, averaging 175, and Marianne Cleals each won 4 of their 5 matches and together scored all the points for the women.

Swimming

Doug Lowry and Mike Mosier are both sophomores and members of the swimming team. Although they have only competed in three meets thus far, both Doug and Mike have qualified for the national meet to be held in Washington this Spring. Doug qualified in the 1 and 3 meter diving events and Mike qualified in the 50, 100 freestyle and 100 and 200 yard backstroke events.

Bowling

Kathy Conlin is a junior majoring in Mechanical Engineering and Captain of the Women's Varsity Bowling Team. This fall season was 213 nd she is currently leading the team with a 154 average. In match play competition, Kathy has won 54% of her games against Division II opponents. Last week Kathy and her team defeated 11-4, gaining their 22nd straight win over Western Illinois University and won 3 out of 5 individual matches.

Volleyball

Janice Kuta is a sophomore mechanical engineering major and a member of the women's volleyball team. In the District 20 tournament, she led the team in assists with 27 and also had 11 spike kills.

Bowlers Defeated

The IIT Women's Volleyball Team traveled to Eureka Illinois on November 8 and 9 for the NAIA District 20 Playoffs. The Hawk's first match was against conference rival St. Xavier College. St. Xavier finished 1st on top of the conference, although IIT defeated them at home on 3 October.

The first game was hard-fought as the Hawks pulled it out 15-12. IIIT crushed St. Xavier in the second game 15-1. Joan Barnes led the team in spiking with 5 kills, and Loranne Makar had four ace serves. Kelly Cade had four kill spikes.

The Hawks then faced Quincy College and dropped a disappointing 15-8, 15-11 match. On Saturday morning, IIT rebounded to defeat Northeastern Illinois 15-8, 15-14. Janice Kuta set very well this match, recording ten aces, and Jennifer Gisk had seven spike kills. Kim Murphy had three blocks in the match.

Programmer Trainees

JUNE '86 OPENINGS

Chicago and Denver

Qualifications:

- Degree - Prefer major/minor in Computer Science
- Above average GPA
- Strong communication skills
- Successful completion of Programming, Assembly test

Chicago Trainees must demonstrate proficiency in our COBOL test. Denver Trainees must demonstrate proficiency in IBM 360/370 Assembler test.

Selection Process:

Satisfactory test scores will result in an interview in early 1986.

Chicago Area Testing Site:

The 4 hour testing package will be administered to qualified candidates at Corporate Headquarters in Elk Grove Township.

To qualify for testing, submit your resume and transcript by Nov. 25 to:

EXOPX-CC
P.O. Box 66100
Chicago, IL 60686

Candidates will be notified by Dec. 6th of their status.

If you would like to be considered for candidacy but are unavailable on Dec. 27th, submit your resume and transcript for possible future testing.

Swimmers Beat Loras

The varsity swimming team finished its dual meet schedule with a 51-37 win over Loras College of Dubuque. The Hawks swept 12 of 13 first places and were never behind in the meet. Top scores for IIT were sophomore Mike Mazziol and freshman David Hathaway, both of whom took firsts and were on winning relay teams. The swimming Hawks have nine dual meets left on the schedule, but all are next semester.

The Hawks still have three invitational meets, as well as their own relays this semester. Coach Matuch has stated that the main concern of the team will be to qualify as many individuals and relays for the National Championships in early March in the state of Washington. As of this writing, the team has qualified two individuals in five events - the most the team has ever had this early in the season.

Coach Matuch also stated that he was very happy to see such a large spectator turnout for the Loras meet Saturday morning. "We had the largest turnout we have ever had. Usually the other teams bring more spectators than us, but not this time. It was a big help in winning as well as getting some good times."

IIT Hawks

Our Scarlet Hawks traveled to McKendree College to play in a tournament over the weekend. Results of the games will be in the next issue. Stated starters were George Mari at center, Carey Musser and Ryan Kirkland at the guard spots and Keith Evans and Tom Rossak at forward.

"We have had a rash of injuries and will go to McKendree hurting, but we will give it our best shot. Such players as Ron Jurek, Jim Lemnaski, and Tony Brown are going to have to come through for us to do anything in the tourney. We have looked pretty good at practice and Jim Janus is recovering from his feet problems and is starting to shoot and rebound as I knew he could when I recruited him. I feel very sorry for Mike Kloak, a freshman from Ogilvy South who was slated to start at the pivot but unfortunately has come down with mono. The college game experience he will miss will hurt us somewhat later when we start CCAC play, regardless, we are all looking forward to the season beginning," stated fifth-year coach Bob Topper.

This weekend the Hawks will again have their hands full as they hit the road again to face two Division I opponents. They play at Eastern Illinois University and Valparaiso University on Sunday afternoon at 5:00pm.

The entire Athletic Department and especially the basketball program would like to remind you that two important home games are just around the corner. On Wednesday, November 27 the Hawks will open CCAC play at 7:30 pm against their arch-rivals Roosevelt. Then on Tuesday, December 3 a grudge match will take place at the University of Chicago. "They not only beat us last year at their place but they treated us rather poorly with locker room facilities and general courtesies that are usually extended to visiting teams. We really want them!" Topper stated with a clenched fist.

WHEREEVER THEY LIVE TO ROCK, THEY LOVE LÖWENBRÄU.

The great beers of the world go by one name: LÖWENBRÄU. Brewed in Munich, in England, Sweden, Canada, Japan and here in America for a distinctive world class taste.
