Security Improvements
by Linda Parsons

The Campus Security committee discussed thefts that took place over the summer, including seven in July, and August there was an increase in thefts from the Commons building, and most of these were thefts of candy bars from the 7-11 located downstairs. July and August, most of these thefts were reported by students, and by week 1 of September, these thefts were reported by staff. The 35th Street El stop has been a major hub for the last few months, and the 35th Street El stop has had a number of thefts, including cell phones, purses, and wallets. The 7-11 has a surveillance system, but it does not seem to be functioning properly. The 7-11 has a security guard, but he does not seem to be on duty. The 7-11 also has a security system, but it does not seem to be functioning properly.

Two weeks ago the University Faculty Planning Committee (UFPC) and two of its subcommittees, those committees are the Undergraduate Program Task Force and the Graduate and Research Program Task Force. Both committees have submitted draft reports to the UFPC for faculty review, discussion, and comment. A final draft of both reports will be voted on at the next meeting.

UFPC Proposals

Crusade of Mercy Campaign Begins

IIT's annual United Way Crusade of Mercy campaign opens today. Kicked-off by a luncheon for solicitors last Friday which was attended by President Marin and by Mr. William Gernrody of the United Way, the IIT campaign hopes to raise $45,000 toward the overall Chicago Metropolitan goal of $83,000. For the next three weeks, solicitors will urge IIT faculty and staff to contribute to the United Way Crusade of Mercy. The goal is to raise $45,000, which will be divided among five worthy charitable and community service organizations.

Intersociety Council
by Joseph Duciabella

What is the Intersociety Council and what is its purpose? This year, there are a number of articles designed to provide answers to this question, as well as articles that will appear in the next issue. The Intersociety Council is a body organized to provide a forum for the exchange of ideas and information among the various organizations. The Council's purpose is to foster and promote a spirit of unity among the various organizations. The Council provides a channel, an avenue of transmission for information of such important information.

The degree requirements are sound because they satisfy the "professional" sense of the IIT faculty and the accrediting agencies. These agencies include North Central Association of Colleges and Secondary Schools, Accreditation Board for Engineering and Technology, and the American Bar Association among others. This year, new programs are being offered with one of the available kinds of help provided by IIT's United Way agencies. Challenge Grant: The year, thanks to the generosity of the Chicago Community Trust, the United Way will receive matching funds on a dollar-for-dollar basis up to $2,000,000 for every new contribution of $250 or more. Many new IIT fair-share givers, therefore, found that their annual contributions of $250 or more will automatically be doubled as a result of this one-year only grant. This year, therefore, contributors have a unique opportunity to make their contributions count for more.

Fair Share Drawing: A special feature of this year's campaign will be a drawing open to all new and old Fair Share givers. Organizations can exist by themselves, but the ISC was created to help them. Whether information can be exchanged about events upcoming and current within the organization or ISC assists in making these events more meaningful and well-attended. All too often one organization has an event or speaker, but because of absent times of communication or simple forgetfulness, no one society knows of it, and consequently the event is only sparsely attended. The ISC exists to help this problem. It provides a channel, an avenue of transmission for information of such important information.

Two weeks ago the University Faculty Planning Committee (UFPC) and two of its subcommittees, those committees are the Undergraduate Program Task Force and the Graduate and Research Program Task Force. Both committees have submitted draft reports to the UFPC for faculty review, discussion, and comment. A final draft of both reports will be voted on at the next meeting.

So, you think you're smart?

If you can solve this puzzle and turn in the answer by noon Thursday, October 3, at our offices on Fifth Floor Main Building, you could win and experience the unbelievable thrill of seeing your name in print. (Sound familiar? Sorry, guys. If you think you have no money, try playing with our budget. We already spent all of our money.)

A rope over the top of fence has the same length on each side. It weighs one third of a pound per foot. On one end hangs a monkey holding a banana, and on the other end a weight equal to the weight of the monkey. The banana weighs two ounces per inch. The rope is as long (in feet) as the age of the monkey (in years), and the weight of the monkey (in ounces) is the same age of the monkey's mother. The combined ages of the monkey and its mother are thirty years. One half the weight of the monkey, plus the weight of the banana, is one fourth as much as the weight of the rope and the weight of the rope. The monkey's mother is half as old as the monkey will be when it is three times as old as its mother was when she was half as old as the monkey will be before it is as old as its mother will be when she is four times as old as the monkey was when it was twice as old as its mother was when she was one third as old as the monkey was when it was as old as its mother was when she was three times as old as the monkey was when it was one-fourth as old as it is now. How long is the banana?

Answer:

RENT-A-ROOMMATE.

$23.35 A MO.

$13.45 A MO.

$17.95 A MO.

STUDENT ID GETS YOU 10% OFF

Now you can have a roommate you're guaranteed to get along with. And all you have to do is call Granada TV Rental.

At Granada, companionship comes cheap. When you rent 'till the end of the school year, your student I.D. gets you a Magnavox, RCA or Hitachi color TV for as little as $13.45 to $23.35 a month. A VCR for as little as $17.95 to $22.95 a month.

And our incredible combo offer—a TV, VCR and stand—for just $29.95 a month.

Make your payments with a major credit card, and you'll save another $3.00 a month. And, let's face it, you don't have to have a PhD in economics to realize they're the best deals around.

What's more, our low rates also include free service and repairs, usually within 24 hours. And if we can't fix it on the spot, we'll give you a free loaner.

So give us a call today and let us set you up with an ideal roommate. Just think, if it ever gets on your nerves, you can simply shut it off.

GRANADA TV RENTAL
THE BEST BUYS IN RENTING.

CHICAGO: 734 N. MICHIGAN AVENUE (312) 642-2100
CALUMET CITY: 589 RIVER OAKS WEST (312) 868-6000

Note: The deadline for the Anti-Technology Challenge has been extended to this Thursday, September 26, due to the amazing lack of response. If we do not get more responses than the two we have now, we will run the stupid picture every week until it either falls apart or we get a decent answer.
Sensored

Constant potential anomperometry has been useful for many years to detect and quantify gaseous air pollutants. More recent developments involve the use of new and improved instruments and techniques to achieve selectivity in such measurements. Thus, Dr. Joseph R. Stetter, Section Manager of Geosciences and Environmental Instrumentation for the Laboratory Commission, will spend two days on "Electrochemical Sensors, Sensor Arrays, and Algorithms." This Chemistry Department colloquium, hosted by Prof. George Brubaker, will be Wednesday, Sept. 29 at 4 PM, 118 Washnich Hall. Preparing the colloquium, coffee will be served at 3:30 in the WH lobby.

Learn to Read

This week’s Counseling Center Workshop on Tuesday, Sept. 29 at 1-4:15 in the Computer Lab will be open to all IIT students, faculty, staff, etc. We will establish a meeting schedule and discuss our collecting interests. The purpose of this club is to bring members together so that they can share their love of books and literature while appreciating the culture and ideas presented within them. If you can't make it but are interested in the club, leave your name and number and the student life office, c/o Stamp Club.

Licking Fun

A Stamp Club is forming here on campus. We will be holding an organizational meeting on Friday, Sept. 27 in the Crown Room (HUB). More information is available by going to the stamp club, scheduled in the Student Life Office.

SWE Meeting

A general meeting of the Society of Women Engineers will be held on Thursday, Sept. 25 at 11:30 AM in the Student Life Office. The meeting will be Dr. Valez of the VA Hospital. Refreshments will be served.

Dress for Success

Guy,s Girls! Worried about projecting the right IMAGE at that important club interview? Find out all you need to know at the Dress for Success Seminar. Hart, Schaffer & Marx will be presenting a workshop on Tuesday, October 8 from 12-2 PM, in HUB. Sponsored by SWE.

Be a Leader

On Friday, Sept. 27, the Association of Tech Students, in conjunction with the Dean of Student Life Office, will be sponsoring the annual Fall Leadership Conference. Conference is open to all leaders and is an excellent opportunity to improve your skills and knowledge about leadership. More information is available by contacting SWE.

All That Jazz

The IIT Jazz Band is looking for new members. Anyone who can read music and play one of the traditional jazz band instruments is welcome. To participate, contact Neil Dunlap at 779-5632.

Entrepreneur Contest

Do you have your own small business? Are you thinking about starting one? If so, then enter Tech Entrepreneurs' second annual IIT Student Entrepreneur of the Year Contest. To enter, your business plan must be submitted by October 15. The first prize will be given to a student entrepreneur, or a student group, who provides a product or service to the IIT community. The second prize will be given to the student entrepreneur (or group) who produces a product or service to the IIT community. The second prize will be given to the student entrepreneur (or group) who produces a product or service to the IIT community.

Interview Sign Ups

Direct From Paris

Come see the highly acclaimed international exhibit on Chicago Architecture. All students are invited to join the IIT Alumni Association for an exclusive viewing of the 50 Years of Change: The Post-War Modernism in Chicago exhibit on Thursday, October 3, from 5:30-9:30 PM. For only $10, you can have hors d'oeuvres, cocktails (cash bar), and hear IIT Professor William Harrington discuss IIT's role in Chicago's architectural history.

To make reservations, contact the Alumni Relations office at 567-3190 by Sept. 30.

Eta Kappa Nu

Eta Kappa Nu will have an initiation and general meeting on Tuesday, Sept. 24, at 12:10 in Rm. 301, HUB.

What is a Co-op?

Any student interested in learning more about the Co-op Program can meet with Co-op Program Coordinator, Dr. C. B. Heyward, at 11:30 AM in the Siegel Hall auditorium. All students who have participated in Co-op will be on hand to share some of their experiences. This session will be held in the HUB mezzanine, Tuesday Sept. 24 at 12:15 in rooms 303 and 304.

IEEE Meeting

IEEE proudly presents John Corsiglia from Arthur Anderson Co. as our guest speaker next week. The meeting will be held in the Siegel Hall auditorium. More details will be announced soon. Mr. Corsiglia will be talking about the employment opportunities available at Arthur Anderson. Everyone is invited to attend.

Be a Leader

On Friday, Sept. 27, the Association of Tech Students, in conjunction with the Dean of Student Life Office, will be sponsoring the annual Fall Leadership Conference. Conference is open to all leaders and is an excellent opportunity to improve your skills and knowledge about leadership. More information is available by contacting SWE.

Grenada TV Rental has openings for part-time rental agents. If interested, contact Sue M. GRENADA or stop in our showroom at 734 N. Michigan.

Special IIT strike force now forming! Phone calls and fax messages in English are being received.

Minority Students

If you still want to have your resume included in the 1985-86 National Society of Black Engineers Resume Booklet for Tech Expo, please send a copy of it through the mail to the career office located in the basement of the Commons Bldg, no later than 500 PM Wednesday, Sept. 25. If you do not have a resume, you may look for one through the BSAlegs and offices of minority students, especially, are encouraged to submit their own resume. If there are any questions, contact Dona Greenwood (x2883) or Shirley Finley (x2394).

Sick Cars

The IIT Service Station is offering a Car Care Workshop on Thursday, Oct. 3 from 12-2 PM. The workshop is open to all IIT students. It is a great opportunity to learn how to handle car-related emergency situations. Also, door prizes will be given. If you don't think you want to get stuck while driving, be on the Service Station on October 3.

Foreign Students

International students are invited to have lunch with American families on Saturday, Oct. 5 at 12:15 PM. Take a study break and enjoy good food while getting to know more about American culture and family life. For more information and to sign up, come to the International Office, Rm. 403 Farr Hall, or call 597-3607.

UFCP

The second proposal is called the Honors Program. At present there does not exist a formal honors program. The Committee recommends that a visible and viable program of "formally recognizes student excellence," that this program only students who have a record of academic achievement at IIT would be accepted in this program.

The students would follow a specially structured program of study designed to create a research thesis. They would also be assigned to a faculty mentor. Honors students would also receive such benefits as special permission to meet certain prerequisites and to take advanced courses so that they can receive specialized advanced training that might otherwise be allowed to carry more than 18 hours at the regular full-time tuition rate.

The third proposal is entitled "Continuing Commitment to IIT Graduates." Since IIT's commitment to professional education does not end with a bachelor's degree, graduates have the opportunity for continued study and use of facilities at IIT. The proposal of the UFCP is called "The Freshman Year." The committee strongly believes the freshman year is the critical one in the undergraduate program. Success or failure in the freshman year may be a deciding factor in the number of returning sophomores. This is an area the committee wishes to consider, especially in the face of declining enrollment.

The Committee proposes

break a leg

Once again the IIT ski club is sponsoring a trip to an outstanding ski area this year. In the past, we have run very successful trips to great destinations such as Vail Colorado and Jackson Hole Wyoming. This year the destination is the famous Stowe mountain ski resort in Vermont. The price of $300 includes six nights' lodging in high class condos, five day lifts, transportation, and free parties sponsored by Miller Lite and other popular American beers. If you have a weekend to spend at Stowe this December, then IIT ski club trip is for you! In order to be an IIT student to go, so bring as many friends and relatives as you like. Faculty and staff are also invited. Remember the spaces are filled on a first-come-first-served base, so sign up right now.

We will be holding a meeting on Tuesday, Sept. 24 at 1:00 PM in Rm. 403, HH 100 to discuss this trip and to sign up for the trip. For more info., call John Estes at 326-9565 or x3914.

New ATs Office

The Institute for Education Invites applications, particularly from persons holding Bachelor's degrees, for proposals to study and pursue research programs at various universities and institutions in the United States. Anyone who has received the undergraduate degree by summer of '86 is eligible to enter the competition for awards to follow non-degree programs in Europe, Latin America, and the Caribbean. Applications are due to the office by Oct. 9. California University, Long Island University, and Northeastern University are among the institutions selected.

The Institute for Education is a part of the National Institutes of Health, and is subject to any editorial decisions deemed necessary. When possible, writers will be contacted concerning any revisions made to their articles. However, this is only a courtesy and writers of unsolicited material may not always be consulted.

Technology News is published on Monday of each week of the academic year. The deadline for articles, announcements, letters, and advertising is 12:00 Thursday preceding Monday publication. Advertising rate sheets and information are available upon request. Business, editorial, and production offices are located on the fifth floor of Main Building, Phone 567-2085. Our address is Technology News, Illinois Institute of Technology, 3300 S. Federal St., Chicago, IL 60616.

September 23, 1985
Harrassment by Cults

Continued incidents of student harassment by certain "religious" societies on campuses of metropolitan Chicago colleges prompt a critical review of such activities which exploit the emotional and stressful situation of students at the start of the academic year. The tactics and mind-set displayed by members of these groups suggest a cultic quality in their structure, namely, destructive practices such as deceptive recruitment, the use of "ends justify the means" philosophy, thought reform and mind-control techniques, the planting of guilt, shame, and fear in members, and an intense emphasis on personal confession of one's faults and weaknesses. Given the vulnerability of those experiencing a new environment and added pressure, it is helpful to consider the tactics and means for coping with groups with whom involvement should be avoided. Be on guard for persons or groups that offer simple answers or "truth" to all life's problems. Many human situations do not admit of simple solutions.

Be on guard for persons and groups who attempt to define your circle of friends for you. Such choices should be made individually and, when possible, by each individual's right and responsibility.

Look out for groups who will not let you be critical in discussions, who dominate all talks, and have the only "correct" answers. Maturity comes in learning to listen, but also in processing what we learn. We may trust others, but not blindly.

Be of those who try to get you to join the group by appeals to guilt and emotions. "Guilt-tripping" is hardly a concern and respectable manner.

Be on guard against someone who invites you to a weekend workshop but who is vague about the goals, or who promises happiness and friendship by the experience. Such qualities of life are required for time development.

Although the names of some groups may appear respectable, it's always a good idea to investigate further before becoming involved with them.

Recall the psychology of "mind control": if you can get a person to believe the way you want, then that person will begin to believe what you want. Moreover, one's vulnerability to being manipulated is higher during times of emotional or physical stress, or when there has been a sudden change in environment or usual support structures, etc., before and during exams, in homesickness, or when a relationship is breaking up.

We all pass through times of confusion or feeling overwhelmed and lonely. At such moments let's not be afraid to reach out to a known friend, family, or counselor in the areas of Student Life, the Chaplaincy, priest or pastor, or Psychological Services.

Security

continued from page 1

lead only to the campus police and each will be recorded by viewing cameras. Hopefully, these phones will be installed by the end of the current calendar year in Knecting, the Commons, the Commerce, and all regular academic buildings.

Share givers. The winner of the drawing will enjoy dinner for two at the luxurious Le Francais restaurant in Wheeling, Illinois. Le Francais, regarded by many critics as the best French restaurant in the United States, has been internationally acclaimed for its exquisite cuisine. The value of the dinner prize is approximately $200.

Agency tours. This year IIT will once again sponsor tours to nearby University agencies so that contributors can see how their contributions are used to support vital community activities. Details on the dates and times of these tours will be announced in forthcoming issues of Tech News.

This year's co-chairmen of the IIT United Way/Crusade of Mercy Campaign are Dr. Robert F. Irving of the Department of Humanities, and Dr. S.收益 Marcus of the IIT Counseling Center. Both welcome questions about the United Way. Call Dr. Irving at x3465 or Dr. Marcus at x3500 for further information.

UFPC

continued from page 4

different needs of its undergruates. This includes shifting some of the functions of the mainframe computers to personal computers. IIT should also implement the recommendations of the Computer Advisory Committee that freshmen own personal computers, that all first year students have substantial computing assignments, and that financing and other supporting efforts are quickly developed.

The ninth proposal is the "Upper Division Project," which is designed to provide critical skills of synthesis and report writing. Upper Division students will be instructed in general problem solving techniques, design creativity, and general research skills.

The members of the Undergraduate Program Task Force and their respective departments are as follows: Roy Aymen, Psychology; Paul Barret, Humanities; George Brubaker, Chemistry; Ali Alami, Chemical Engineering; Rollin Dix, AAC; Tolea Elrod, Computer Science; Barbara Heltzer, Mathematics; Kevin Meade, Mechanical Engineering; Eugene Smith, Chemical Engineering; S.收益 Marcus, Civil Engineering; John Snapper, Humanities; San Utsumi, Architecture; James Victor, Student Life; Erwin Weber, Electrical Engineering; Dr. W. J. Hassan of the business department is the Committee Chair.

The IIT Task Force on Research and Graduate Programs has come to three main conclusions. First, IIT should increase its emphasis on the development of graduate programs. IIT has offered graduate assistantships for 40 years. This is longer than any other Chicago area school. Second, the undergraduates graduate, professional, and continuing education programs are the four components of education at IIT. These should be separately recognized and promoted to enhance the university as a whole. The third conclusion is that IIT should have a Vice-President for Research and Graduate Studies. The administrator would be responsible for the development of graduate programs and research as well. This Vice-President would also establish "Centers of Excellence." The committee also produced a list of eight recommendations. The draft emphasizes that the recommendations should not take away from the quality of IIT's undergraduate program.

Three of the recommendations summarize the three conclusions outlined above. They developed the subject of the Vice-President, however, by elaborating on the responsibilities of this post.

The Vice-President of Research and Graduate Studies at IIT would work in conjunction with the corresponding officer at IITRI. Together, they would promote a more productive relation in areas with advantages to both institutions.

The Vice-President should have the resources to increase industry and government support, and the University-affiliated centers so that a person diminishes the need to merge the Science and Engineering Departments.

Letter to the Editor

Most of us probably remember that, when the 7-11 store was first open in the neighborhood kids pushed past me to get into the 7-11. It seems that every time I go through the Commonwealth neighborhood kids are neighborhood kids either running around in the Commons, or they are in the 7-11 playing video games.

Now, the school doesn't want the neighborhood kids in the Commons anymore. That's why they put those red stickers on all of the building doors. We have to keep these kids out of the Commons if the 7-11 simply hired them to play some video game. I think it's time for the school to tell the 7-11 management to keep these kids out of the store. The 7-11 really wants to be open to the public, then maybe the school should charge them for their common area.

First Soccer Victory

The soccer team recorded its first victory of the season last Saturday, Sept. 14th, defeating Carthage College of Kenosha, Wisconsin 4-0 before a sizable crowd of IIT fans. Carthage College never had a chance against the devastating Hawks. As soon as the whistle blew to start the first half, IIT marched down the field on their first possession and came very close to scoring. For the next ten minutes, the Hawks held Carthage defenders in their own goal area and took shots at will. At this point, Carthage knew they were in for a long game.

The Hawks scored three goals in the first half. Freshman forward Kevin Yurgi from St. Joseph's High School scored twice while junior forward Johnny Bueno scored the third. In the second half, senior midfielder, Juan Aparicio, scored his fourth goal of the season, dribbling by Carthage defenders and deceptively placing the ball past the goalkeepers. All throughout the second half IIT totally dominated play.

Hawks Over Trinity

The IIT women's volleyball team traveled to Trinity College in Deerfield on Tuesday night for a non-conference match. The Hawks defeated Trinity 15-4, 15-0, 15-12. IIT played very smooth the first two games, and with many quick spikes hitting the floor on the Trinity side. The third game was hard fought. The Hawks pulled away from a 10-10 tie to clinch the final set 15-10.

Jennifer Glisk has 14 assists and Janice Kuta served 19 times without an error.

Sailors Place Sixth

The weekend of Sept. 14, 5 IIT sailing team traveled to Notre Dame in South Bend Indiana. The regatta was sailed on Diamond Lake in Cassopolis, Michigan. IIT finished sixth out of eighteen competing teams. A skipper Stephen Long finished seventh, while B skipper Aaron Houston finished eighth. Team places were:

1) Michigan - Ann Arbor
2) Wisconsin - Madison
3) Wisconsin - Milwaukee
4) Chicago
5) Tulane
6) Iowa
7) Ohio Wesleyan
8) Michigan State

Netters Even Record

The women's tennis team was victorious in two of four matches this past week and has evened their record at 3-3. The College of St. Francis and Illinois Wesleyan University defeated our netters by identical scores of 7-0. However, the Hawks won 8-0 against Aurora College and 8-1 against Northern Illinois College.

In the match against Aurora, it looked as though the talent was fairly even, possibly favoring the Hawks slightly. However, our women netters completely dominated play and scored an impressive 8-0 victory.

"We have made progress so far, I honestly feel we are not as strong overall this season as last. We have improved at #4, and 6 singles and our top three spots are still 4 to 5 strokes per match away from a 60-0 victory," stated Coach Topper.

Tech News Athletes of the Week

Tennis

Chris Kostner from Oak Park River Forest High School has been outstanding at #6 singles and #3 doubles (her doubles partner is senior Ruth Zeldenhun). Although IIT has lost its last two matches by identical 3-2 scores, Kostner has been instrumental in her match victories. "Chris doesn't talk very much but let her actions speak for her. She is hardworking and highly competitive. She has tenacious qualities on the court," states her coach, Bob Topper.

Soccer

Juan Aparicio is a senior and the central midfielder on the IIT men's soccer team. Juan scored his first goal of the season and helped the Hawks to a 4-0 victory over Carthage College last Saturday. His superb dribbling and passing skills, knowledge of the game, and was so physical that he made him replaceable. Every game he plays he stands out and scores several goals. He continues to produce this magic with his feet, the Hawks are undoubtedly on the road to the NAJLA playoffs.

Volleyball

Jennifer Glisk is a junior and a setter on the women's volleyball team. Jennifer had 14 assists in the match against Trinity College and 10 assists against North Park College. She also had 30 spiking attempts in these two matches, with 6 kills and only 1 error. She also served 9 times without an error. Her setting and good all-around play was instrumental in the wins over North Park and Trinity. Jennifer will undoubtedly be using her talents to aid the IIT women's volleyball team in the future.
Before you make a long distance commitment, make sure you know what you’re getting into.

If Fletcher Christian and Captain Bligh had known what being stuck in the same boat would mean, chances are neither would have set foot aboard.

And if you’re stuck in the same boat with a long distance company that doesn’t give you all the services you need, it’s easy to harbor mutinous thoughts.

But when you pick AT&T as your long distance company, you know you’re in for smooth sailing. You’ll get trouble-free, reliable service. Immediate connections—even during the busiest hours—Guaranteed 60% and 40% discounts off our Day Rate on state-to-state calls. And operators to assist you with immediate credit for wrong numbers and collect calling.

So when you’re asked to choose a long distance company, sign aboard with AT&T. With AT&T Long Distance Service, you’ll never be left stranded. Reach out and touch someone.

AT&T
The right choice.
