President-Elect appointed

In the words of Robert A. Pritzker, vice-chairman of the board of trustees and chairman of the search committee, "Meyer Feldberg's accomplishments at Tulane have proved his administrative leadership and his ability to achieve aggressive goals." President John Jacob, dean of Northwestern University, praised the appointment, saying that Feldberg was "an important addition to our faculty and to our University." Feldberg will take office as president-elect in July 1986.

Students honored at Stryker banquet

On Friday, April 25, over 75 student leaders representing 22 departments, student organizations, and professional societies were honored at the annual Student Leadership Award banquet. Fifty-five students received honors for their participation in extracurricular activities on campus. The Stryker winners represent organizations such as the Society of Women Engineers (SWE), the Institute of Electrical and Electronics Engineers (IEEE), and the American Chemical Society (ACS). In addition, thirty-five students were honored for their contributions to the University's academic and research programs.

ATS to host "Our Future in Space"

Do you care how much of our national budget is spent on space exploration? Does it matter to you how the United States fares in this area? Do you feel that our nation's space program is making progress or not? These are some of the questions that will be addressed at the "Our Future in Space" conference, sponsored by the American Astronautical Society (AAS) and the AAS Regional Chapters.

GM Scholarship winners announced

Two IIT students have won General Motors (GM) scholarships. They are Michael J. Schmitt, a junior in mechanical engineering, and James E. Fee, a senior in electrical engineering. The winners of the scholarships are selected based on academic achievement, leadership qualities, and potential for future success.

Workshop to be held

Nationally syndicated careers columnist Carol Kleinman will keynote an all-day workshop for women interested in professional careers in high technology. The workshop will be held from 9 a.m. to 2 p.m. at the IIT Campus Center. The fee is $25, and registration is required.

The workshop will cover topics such as career planning, job search strategies, and networking. Participants will have the opportunity to meet with industry professionals and learn about the latest job opportunities in high technology fields.
Need a lot of copies quickly but short on pocket change?

Don't worry! Office Services, the on-campus one-stop print shop, can make crisp clean copies as well as print your:

- Resumes
- Flyers
- Booklets
- Posters
- Stationery
- Invitations
- Theses
- Note Pads

...and much more

—all for unbelievably low prices!

Monthly Specials!

- 10% off xeroxing when you need 10 copies or more.

Illinois Institute of Technology
Prep for Fall

Each Fall, the new president of a student organization comes to the DOS and office and says, “I didn’t know that former presidents always have to come. I thought they only had to come once.”

So, if you are a newly elected officer, please come into the Student Life Office and provide us with the following information by May 9th:

1. Name, address, and phone number of officer elected.
2. Name and address of organization representative to be contacted for orientation.
3. Date, time, and place of major events planned for the year.
4. Information on spring activities.
5. A new officer budget for the year.

This is a great summer and we look forward to working with you this fall.

ATS

The winners of the ATS Election are: Preeta Parikh- President; Cathy Paul-Vice-President; Crystal Gary-Secretary; Patty Murphy- Treasurer. Thanks to all for participating in this year’s election.

New Group

A new group is forming on campus—the IIT Conservative Caucus. An organizational meeting will be held Thursday, May 12th at 12 noon in 301-302 of the HUB. The topic will be “Slavery in the United States.” There will be a slide show with rare views of “The Underground Railroad.” Join the group on one of the most interesting periods in our history as a nation.

The lecturer will be Professor Paul Barrett and will be hosted by Chairman Ed Saba.

Car Wash

On May 1st, from 8:00 a.m. to 6:00 p.m., the sisters of Delta Phi Epsilon Sorority will be washing cars to raise money for the Diabetes Research. The charge will be $2.00 per car. Cars will be washed by the IIT Garages next to the rain drain. The raindate is Tuesday, May 9th.

President

Feldberg feels that IIT is one of the few high-quality, private-study-based institutions in the Midwest. He also said, “IIT is positioned to participate in the essential task of dramatically impacting the smokestack industries through the application of technology as we move into the 21st century. In partnership with existing enterprises, new high-technology companies are being formed and growing.”

He went on to say, “I am very pleased to be an agitator of recruiting students, faculty, and staff to achieve national prominence.”

Feldberg has traveled extensively and has been involved in the functioning of different education and economic systems. He has been a number of corporate and nonprofit boards in the United States and Europe. He has published numerous articles in the management field in addition to a number of books.

Martin reports that Feldberg’s positions and views on various issues are very close to his own. He notes that they have a history of conversation with Feldberg, as he has the chairman and vice-chairman (board of trustees) and there is no shadow of difference between our opinions, on anything. Therefore the switch should occur fairly smoothly. As Martin describes it, “We are planning a relay race where one runner hands the baton to another runner before the baton is given to the next person without breaking stride.”

Dr. Martin will be 65 years old when his retirement becomes effective. He will have served as president for twelve years. Not many presidents have served in that capacity for such a long term. According to Martin, it is a privilege to be a president of IIT, which is an academic institution.

In Future Space

Do you care how much of the national budget is spent on space exploration? Does it matter where we get “there” from or how? How do you feel about sending our military on space missions? If you have any opinions you would like to share with the IIT community, the IIT Student Merit Club will be holding an “entry contest” as part of the IIT Spring Conference. Different issues will be discussed during the week and the results will be written into a paper sent to the White House. Everyone (students, faculty, administration, staff) is invited to participate.

Farewell

The sisters of Delta Phi Epsilon Sorority would like to wish their seniors, Rachel Rupp, Epsilon Pledge Class, and Lauren Schwartz, Theta Pledge Class, a warm farewell. Much good luck and success, and we wish you both a special place in our hearts. LOVE YOUR SISTERS!!

WOU Meeting

On Tuesday, May 6th, WOU will host a meeting for all staff members and anyone interested in joining the WOU staff for the Fall. The meeting will begin at 7:00 p.m. in the WOU office (5th Floor, Main Building). Please bring a copy of your class schedule for Fall 98. We will be picking slots for next semester.

Inverse Problems

The Physics Department Colloquium, “Inverse Scattering Problems,” will be given by Professor Roger Newton of the Department of Physics of the Indiana University. The colloquium will be held on Wednesday, April 22, 1987 in Siegel Hall, Room 217 at 4:00 p.m. A pre-colloquium will be held at 3:45 in Siegel Hall, Room 207 at 1:00 p.m. A post-colloquium will be held at 5:00 p.m. in Siegel Hall, Room 217.
LETTERS SECTION

A response to protestors at IIT

To the IIT community,

I am writing in response to what I had witnessed Monday afternoon at the doorsteps of Siegel Hall. As many of you know, a group of young protestors staged a demonstration of their message for No Business As Usual Day. Their message was evident from the signs and stickers on the doorsteps (at the end of which we say they were quite thoroughly asked). On raising themselves from the dead they attempted a virtual display of their sentiments.

The disturbing part was when IIT students began expressing theirs. Rather than communicate, they opened their mouths and threw up. Out poured unnecessary taunts and cliches...echoes from the darkness of closed minds.

I heard some stupid generalizations coming from the mouths under some of those muffhats. I thought the goose-stepping pair was off-the-mark. I laughed when they all blew up. I reentered them suggesting it was wealthy and living easy. I didn't like the fat one in the suit but who could blame him. Finally, you can't help but think them a bit misdirected in aiming anti-Semitic bars at our physics department.

But what were they really asking? It seemed to me that they called on us to think. (It seems to me they are better off doing so, for are we not the power-to-be?) They asked us to think about what we do... and where the doing leads. From some of the unhurrying, rather eerie, responses I bring from our side, some thinking is in order.

In a world of relative realities, when a younger person comes to you proposing ideas that are perhaps out of proportion, perhaps naive, ideas which stem from problems of a broader dimension, do we reject the way we did that afternoon?

Most of us solve problems everyday. We do so by bowing away the chaff and trying to see things for what they are. We don't get caught up in the orange hair, or the over-exuberance, or the jack-boots...we're smarter than that.

And finally, without extremes, how do we, as individuals or as a people, move or grow? In a world riddled with extremes, is one country isolated for its diversity, a school whose student body hails from so many stations, it is surprising we do not respect another voice. I hope this rare opportunity is not already lost.

Sincerely,

Paul R. Morrison

ASME students praised

As President of any organization on the IIT Campus, trying to bring your group to new heights takes a lot of effort and time...usually anyways. I'm glad to say that as President of ASME, my time and effort was minimal due to the participation of members and assistance of faculty and friends.

Barb Jefferson, treasurer, did a wonderful job with money matters. She also did a wonderful job running errands quickly when needed. Another one of the officers, Samo Campione, pitched in with publicity and summary reports. And Jim Zhuda, ATE rep, kept ASME in tune to what happened at student government meetings.

Also besides our elected reps, there are two outstanding members that deserve special recognition. Aye Kung and Bob Montavibas had consisted (sic) offered their help throughout the semester. They both have exceptional spirit and willingly shared it with ASME.

We also had extra support from Dr. Kalkpkin, our faculty advisor, and the rambunctious Dr. Tao. Thanks!

ASME is looking good, and I'm glad to be a part of that.

Sincerely,

Tina Kola
ASME President

P.S. To fellow ME's not in ASME: I'm sorry you missed out this semester — step by Km 112 E1 and find out if you can join for next semester.

CMIS to be held here

What will the U.S. population be in the year 2010? How long does it take for radioactive materials to decay? How fast does a Chicago "L" train accelerate? This summer, gifted Chicago-area 9th, 10th, and 11th graders can learn how to use computers to answer such questions.

At Illinois Institute of Technology's third annual Computer Modeling in Science Institutes (CMIS) this summer, bright high school students will learn mathematical modeling and BASIC computer programming for the purpose of tackling fundamental science problems. With funding from the Chicago Board of Education, Professor Peter Johnson will run two three-week sessions — June 29 — July 11 and July 14 — August 1.

The Chicago Board of Education will support the participation of 80 Chicago public school students. Students from Chicago private schools and from the suburbs are eligible through tuition rebate.

Interested students, parents, and teachers may call either Professor Johnson at (312) 567-3440 or Denise Dowell at 312/567-5315 for an application.

OPPORTUNITY KNOCKS!

Now — enjoy a job for MBA's while studying to be one:

IIT's NEW MBA with a Management internship

But hurry, program begins June, 1986. Act now to reserve your place!

This new, full-time, six semester program includes two summers in which you will be placed in a paid position with a major Chicago corporation. You will earn over half your expenses, gain valuable management experience and have the opportunity to advance to full-time employment with your management company.

End of Document
The ultimate goal of "Our Future in Space" is to gather the feelings of the IIT community—faculty, administration, staff and students—and write them into a position paper which will be sent to the White House. Many of you are entering fields of engineering or science that may be affected by future decisions on space exploration and research; this is your chance to tell those decision-makers how we feel.

A list of special topics to be discussed in each session will be made available in the Student Life office starting April 28 and at the sessions. Several students have been working on developing this program: Cathy Paul and Sandy Markus (ATS), Joe Ducicella (BC), David Johnson (AIAA), Ed Slicher (LLN), Tina Kula (ASME) and Janet Guevara (TSB).

Members of the IIT community

Don't let college expenses put the brakes on your education.

Get the money you need with a student loan from The First National Bank of Chicago. Students can borrow:

- up to $2,500 a year for undergraduate studies
- up to $3,000 a year for graduate studies

We also offer Parental Loans for Undergraduate Students (PLUS)—an affordable way your parents can help you with college expenses—even if your family income is over $30,000.

Get in gear with a chance to win a 10-speed bicycle—send for a student loan application kit now!

Fill out the coupon and mail it to us today. We'll send you a student loan application kit and enter your name in our 10-speed bicycle giveaway sweepstakes!

For more information on student loans at The First, call (312) 407-3412 or 407-3420.

Student Loans from The First

- 119 undergraduate or graduate courses to choose from
- 6-week summer session—June 16 to August 6
- Day and evening classes
- Main Campus and Extension Centers
-ample FREE parking
- Mail pre-registration available

Want to sell your books?

A new solution is available to an old problem. Eta Kappa Nu announces a new concept in textbook sales. The promotion, which goes into full swing this week, is designed to provide books to students at fair prices. In addition, the plan also makes it possible for students who wish to sell their books to get a fair price.

The whole idea is based on cutting out the middle man, who buys your old books at cheap prices, and then resells them for large profits.

So, anyone interested in getting a little more for your old books, and paying less for your new ones, listen up!

TO SELL A BOOK: 1. Pick up a book exchange form in the EE department office, the Dean of Student Life office, from any Eta Kappa Nu member, or stop by our table in the HUB 12:00-1:00 p.m. any day this week, 4/28 to 5/8. 2. Fill out the form by appropriately describing the books you wish to sell, and return the form plus $0.50 per book you have listed, to our table in the HUB before 1:30 p.m. Friday 5/2/86.

That’s all you do. In turn, Eta Kappa Nu promises to distribute 1,000 copies of a printed master list, during the last week of classes this spring, and the first week of classes next fall.

TO BUY A BOOK: 1. Simply pick up a copy of the master list next week (or the first week of classes next fall) and choose the books you are interested in. 2. Telephone the person who is selling the book, and together you can negotiate a price.

Surprised? You should be. If students have been working together for a long time. This is a chance for everyone on campus to use their books for a price they feel is fair, and also buy the books they are interested in without having to cash in their IRAs.

It’s not too late, or too early to be thinking about this right now. If you have any questions, stop by the HUB 12:00-1:00 p.m. any day this week.

Sportsfest recently held at IIT

by Jim McNulty

The event of the year was here. For its tenth consecutive year, Sportsfest, a residence hall and IIT community sports festival, gave students a chance to put away their calculators and books, if only for a few hours, and experience the thrill of victory and the agony of defeat through athletic competition. In past years, "neither rain nor snow nor institute policy will keep the games from being held," was declared by anonymous students all over campus in inclement weather and red tape always appeared to cast a shadow upon the gala event. This year, Sportsfest, sponsored by the Residence Hall Association and Quest Food Management, was blessed with a sunny sky, a warm breeze and an exceptional organizing committee. Sportsfest X will be remembered by all who were involved as one of the greatest and most exciting of its kind in IIT history.

To commemorate Sportsfest’s 10th anniversary, water events held in Echo pool in Keating Hall were introduced into the competition for the first time ever. Three new events, the Vest/Clothes Relay, the Kayak Race and the Beach Ball Relay allowed those among us with aquatic tendencies to show up all the rest of the landlubbers.

The atmosphere at the start of the sports festival was relatively friendly but especially tense since the bragging rights of the residence halls was on the line, not to mention the jerseys, medals and trophy which accompany first place. All nervousness disappeared as the first competition, the vest/clothes relay began with a splash. In this event, it was expected that each member of a four-man team swim the length of the pool as quickly as possible. However, there is one catch to this seemingly easy event. A pair of sweat pants and a life preserver had to be exchanged at each leg of the race. As it turned out, however, everyone was able to keep their composure as well as their pants, even down to the early lead. The Spookes came in 2nd, the Brews Brothers 3rd and the Diana Sisters 4th.

The kayak race gave everyone insight into why America wasn’t discovered earlier. On the inflatable boats powered with paddles seemed to wander in every geometric pattern possible through the pool with a particular attention paid to the circle. The Brems Brothers, in the lead, stopped for water to use as navigators and were awarded 1st place. Fogwoses was 2nd, the Tri-camp Traditionals and the Western Attire came in 3rd and Challenge was 4th.

The final pool event was the Beach Ball Relay in which teams had to transport a large colored object across the width of the pool without using their hands. The results were Spookes (1st), Rude (2nd) and Pouders and Fogwoses (3rd).

Fogwoses was declared the winner of the water events with 21 points and was presented a trophy in honor of their accomplishment.

To be continued next week.

Swim (continued from page 8)

automatically nominated for the ISBA Swimmer and Coach of the Year in the College Division. Messier placed in 3 events at the NCAA Nationals and IIT’s team for the 2nd year in a row got a national ranking. Messier will be up against Rodney Miller of Millikin who got 1st and 3rd at the NCAA Division 3 Nationals and also Diver Paul Straub of DuPage College who got a 1st and 2nd and the National Junior College Athletic Association Swimming Championships. Mattick pointed out that Tony Young of Millikin whose team was 8th at the NCAA Division 3 Nationals.

Coach Mattick stated at a hearing of the nominating that he’s sure he speaks for Messier as well as himself that “it’s a great honor for both of us just to be nominated for these honors.”

Future (continued from page 5)

community have been contact to speak at the program and present their ideas. These include: Dr. Paul DeForest (Social Sciences), Dr. Thomas Corbe (MAE), Prof. Anthony Amadio (Chaplain), Colonel Helms (AFROTC), Captain Martin (NROTC), and Dr. David Williams (MAE).

We ask that you encourage your professors to attend the program so that we can get a true representation of IIT. We especially want you to participate, since YOU are a vital part of IIT and your ideas CAN make a difference in our Future in Space!

If you have any suggestions about the program this week, call Cathy Paul in the ATP office at 837-0437, or contact one of the students working on the program, and plan to be a part of “OUR FUTURE IN SPACE” !
Baseball team nears perfection with recent win

The IIIT baseball team was close to perfection this past week. Of the five games played, the Hawks were victorious in all but one. This loss broke IIIT’s 6 game winning streak begun the week before. If the Hawks continue their winning ways, a post season bid for the NAIA playoff tournament is well within their grasp.

On Thursday, April 17th IIIT dominated the visiting Trinity Divinity College and came away with a convincing 9-1 victory before a seasonable home crowd. Chris Lindsay went the distance for the Hawks and was the winning pitcher. Hot hitters in the game were Chris Malczewski and Greg Flores with 2 hits apiece and Greg Pastorek with 3 hits.

The Hawks’ second victory of the week came on Friday, April 18th as IIIT smothered the Flames of U of I Circle 14-4. A 15 hit Hawk attack was led by Jack Cacioppo, who had 4 hits, and Chris Malczewski with 2 hits. Paul Nykaza was the winning pitcher and Kevin Hyrams, pitching 2 innings of relief, was awarded the save.

Traveling to St. Joseph College on Saturday, April 19th, the Hawks stole both ends of a double header with scores of 3-2 and 4-3, in the first game. IIIT was behind 2-1 with two outs in the 9th inning when Greg Flores stepped to the plate and struck a two run home run, handing the Hawks their third straight win. Other key hitting came from Greg Pastorek and Todd Kuhlman. The winning pitcher was Dominic Picarella who played the entire game.

Game two of the double header was won in extra innings with a round tripper off the bat of Chris Malczewski. Chris, along with Greg Pastorek each had two hits on the day. Dave Haslo pitched 6 good innings, before being relieved by Kevin Hyrams who completed the 4-3 victory.

The Hawks’ home game against St. Francis College on Tuesday, April 22nd was IIIT’s first loss in seven games. St. Francis, ranked third in the nation in a preseason poll and undefeated in their conference, edged the Hawks in the ninth inning by scoring two runs and breaking the 3-5 tie. This tough defeat was taken by relief pitcher Kevin Hyrams after seven good innings from Chris Lindsay. In this game, Mike Carpinelli and Bob Ryley each had two hits.

IIIT has a tough week ahead of them as they face the Cougars of St. Xavier away on Tuesday April 26th at 3:00 PM., Lewis University at home at 1:00 PM on May 1st, Chicago State University at home on Friday May 2nd at 3:00 PM, and a home double header against George Williams College on Saturday May 3rd at 12 noon. All home games are played at the baseball field behind Keating Hall. Fans of the winning Hawks as always are encouraged to attend.

Swim Shorts

Varsity swimming coach Dennis Matuch was elected Chairman of the International Marathon Swimming Hall of Fame Selection Committee. Matuch succeeds retiring Hall of Fame Director Buck Devenson in this post. The committee’s sole responsibility is to nominate and vote on possible inductees to the International Swimming Hall of Fame in Fort Lauderdale Florida. Matuch has been a member of the committee since his retirement from professional marathon swimming in 1978.

Jon Lederhouse, swimming coach from Wheaton College, and men and women’s collegiate co-ordinator for the Illinois Swimming Association announced that varsity sophomore swimmer Mike Messeler and IIIT Swimming Coach Dennis Matuch were continued on page 9.
