Campus security is improving
by George Jawny

Friday, March 7 at 8 PM a plainclothes campus police officer was walking an extra patrol in the residential parking lot. At the same time a young man was attempting to break into a car. The officer apprehended the man, who was armed with a knife. The man was turned over to the Chicago Police for prosecution. He had a previous record of similar offenses.

John Mehlbuchencher, Director of Physical Resources, said that this is a sign that security is getting better, not worse, as some people have suggested. Mr. Mehlbuchencher also said that he has a letter written about a campus police officer that appeared in Tech News was "inappropriate and untrue." He said that if the identity of the officer was known, he would be severely disciplined.

Security will be further increased in the near future. Four new officers have been offered jobs and will join the campus police in the next few days. Four new officers will take their posts after a week-long indoctrination session.

One officer will be assigned to an evening walking patrol of Michigan Avenue between 30th and 35th streets. A second will patrol the fraternity residence hall complex in the evening. The third will have an evening patrol between Stuart Building and the Life Sciences Building. The fourth officer will patrol the residential areas at night.

To further increase security, more exterior lights will be added along Wabash between 30th and 34th Streets and the pedestrian walking path over the summer. This is part of a series of improvements to take place this summer.

In addition to the improvements in security, there will be physical improvements to the campus. New sidewalks will be added on North and South Hills, Military Sciences, Crown Hall, Wainwright Hall, and Perstall Hall. Fire sprinklers, which signal the fire department to the exact location of a building in the event of a fire, will be installed. Exterior doors on Stuart Building, Life Sciences, E1, and Perstall Hall will be replaced. The program of replacing underground steam lines will also be continued. Some of the projects will be begun as early as this week.

Spring leaks into dorms

While all of the dorm residents scrape up extra money to pay for the new dorm damages fee, the residents of 4th floor South Hall are also scraping sludge from their walls and floors. When the weather warmed up new leaks appeared to add to leaks that were there before 1985.

Four buckets have been placed in the hallway to catch the dirty brown water that drips from the ceiling and down the walls. In addition to the hallway, leaks exist in the lounge and in seven of the room's residents. The water that seeps in as stinks as well as stains. According to 4th South resident Davisha Bingham, "If it didn't smell so bad it wouldn't be so bad" but in some areas the stench is unbearable.

The residents, who pay approximately $4000 to live under these conditions each year, complained to Housing Director Jean Bingham. Someone was sent to look at the spring budget to cover the cost of replacing the roof. Deenen Avery, the floor's resident advisor, said that housing told her they had to try to get money from other places such as the IIT Department of Physical Resources. Otherwise, the repairs would have to wait until this summer.

One resident called the Chicago Board of Health. They referred her to the Chicago Authority for Better Housing, where she was able to file a complaint. Other residents requested permission to move to the 4th floor of East Hall. This floor was closed to residents last fall, but is used for conferences. Housing denied permission for the residents to move because of those conferences.

Late last week Vice President Ed Steuben granted permission for the residents to move to another floor. They will move as a floor to either 4th floor Fowler Hall or 4th floor East Hall in the next two weeks. Steuben will arrange financing for the replacement of the roof, which will occur over spring break.
**Writing Contest**

All IIT undergraduates are invited to submit their Essays, Poems, Reviews, Short Stories, Technical Papers, and other written work for prizes up to $250.00.

Editor's note: There will be no printing of Technology News for 2 weeks due to Spring Break. The next issue will be published for April 7.

---

**Nuclear Weather**

The Physics Department Colloquium, on March 19, 1986 in room 217 Siegel Hall at 4:30 p.m. will be on "Climate: Effects of Nuclear War." The speaker will be Professor D. Proctor, from the Department of Meteorology at the University of Wisconsin. A pre-colloquium social will be in the Conference Room of Siegel Hall, room 202, at 3:30 p.m.

---

**Fashion Show**

Take advantage of a great opportunity to participate in a fashion show. The Planning Committee is looking for interested males/females to model their native attire in the International Festival Fashion Show. A mandatory organizational meeting will be held on Wednesday, March 19, 1986 at 12:15 p.m. in room 302 HUB Mezzanine. (Attire must be provided by model. For further information, contact Preeta Parikh at x3074.)

---

**AChiE**

A general AChiE meeting will be held on Tuesday, March 18th from 12:10 - 1:10 pm in room 131 of Perlisten Hall. Our speaker will be Bob Anderson from UOP. Refreshments will be served.

---

**AChiE Party**

The Spring AChiE party will be held on Friday, March 21st from 8-2 p.m. in the BOD. Complimentary pizza and BOD beer will be served. The cost for AChiE members and faculty will be $5.

---

**Plasmid Stability**

Beta Tau, the local chapter of Beta Beta Beta is sponsoring an informal talk by Dr. Stark. His topic is "Molecular Biology of Recombinant Plasmid Stability in E. coli: Plasmids in Higher Plants" and will be given on March 20th at 1:30 p.m. in 249 LS. Refreshments will be served at 11:30 p.m. Everyone is welcome.

---

**Coping**

The Book of Job continues to provide a devotional framework with which to approach various human disappointments and trials. The faculty-student group in "The Bible and You Today" will take up this text again on Tuesday, March 18 at 12 noon in Room 336 of the HUB Mezzanine. The meeting is open to the public.

---

**Communion**

Particularly significant is the celebration of the Eucharist and Prayer Service of the Word on the Sundays of this Lenten Season preceding Easter. The service will be held at 7:45 p.m. in St. John's Chapel, directly north of the Residence Halls Lounge. The Christian community is welcome to share in this experience of prayer dialogue.

---

**MAE Seminar**

The American Institute of Aeronautics and Astronautics proudly announces the last of four speakers on the Midwest Mechanics Colloquium Tour sponsored by the Department of Mechanical and Aerospace Engineering. The MAE Department will host the third speaker, J. G. Hauser of the Materials Engineering Department, Stanford University. Professor Houser will lecture on "Full and Large Eddy Simulation as tools for Turbulence Research.

The seminar will be held on Wednesday, March 19, 1986 in room 104 E1 (Crawford Auditorium) at 4:00 p.m. Refreshments will be served at 3:30 p.m. in room 247 E1. All are encouraged to attend.

---

**Gaming Club**

Alternate Realties, the IIT Gaming Club, will hold its next meeting on Wednesday, March 19th at 12:10 p.m. in the Crow Room in the south-east corner of the hub. Come meet other players and strategy partners. Everyone is welcome.

---

**Stamp Club**

IIT Stamp Club will hold a regular meeting at noon on Thursday, March 20 in the Hub Mezzanine above the cafeteria. The meeting will include the opportunity for members and students to buy sell and trade their extra stamps. IIT Stamp club is open to all members of the IIT community and new members are always welcome. We would like to extend a special invitation this week to IIT Administration and Staff members to be our guest on Thursday at noon.

---

**ATS**

ATS (Association of Tech Students) will be holding a meeting on Wednesday, March 18 12:45 p.m. in the Hub Mezzanine. Nominations for ATS officers will be taken at this meeting. The ATS elections will be held the following week.

---

**EKN**

There will be a meeting on Thursday March 21st at 12:30 in Siegel Auditorium. Discussion will include the upcoming party and the lab. All members are invited to attend.

---

**Artificial AIChE**

On Wednesday, April 2nd at 3 pm, Professor George Stephanopoulos, from the Department of Chemical Engineering at Massachusetts Institute of Technology will give a lecture on the Role of Artificial Intelligence in Process Design and Control: Expert Systems and Beyond. The lecture will take place in room 131 of Perlisten Hall. All are welcome.

---

**Meson Theory**

The Physics Department colloquium will be held on April 12, 1986 in room 217 Siegel Hall at 4 p.m. The speaker will be Professor G. L. Brown from the Department of Physics of Northwestern University will present "How Yukawa arrived at the Meson Theory." A pre-colloquium social will be held in the conference room, room 208 in Siegel Hall at 3:30 p.m.

---

**Last Chance**

Your last chance to enter Tech Entrepreneurs' entry is Tuesday, April 1. So if you're an IIT student with your own business or off campus, enter today. You could win one of two cash prizes of $250 each. Entry blanks are available from Tech Entrepreneurs advisors Anne Burson-Topton, 283 Life Sciences, 567-6912, and Richard Pettigrew, 232 Life Sciences, 567-5897.

---

**HUB Events**

The HUB has free bowling every Tuesday and Wednesday night in the Rec Center.

IIT is sponsoring the High School Science Fair Saturday, March 22nd, from 8:00-6:00. All movies shown in HUB Auditorium.

Union Board presents "Real Genius" Thursday March 20th at 7:15 and Saturday, March 22nd at 2:00, 11am, 1pm and 7:00 p.m. All movies in HUB Auditorium.

The Hub has General Cinema, Easiness, and Rose on sale in Director's Office 10 - 5 daily.

Open Thursday night for the Griffin Night (2 Grizzly beers for the price of 1) every Wednesday night from 5:00 - 7:00.

The Hub has General Cinema, Easiness, and Rose on sale in Director's Office 10 - 5.

The HUB now rents portable VCR's for $5.00 per day.

Entrepeneurism

Tech Entrepreneurs will hold its next meeting on Tuesday, March 18 at 12:30 - 2:00 p.m. in the HUB Field room. The topics will be: Final analysis of the Survey, draft for all proposed campus businesses, nominations of new officers, voting on future events, planning the year end party.

Friday evening, we will be on the lookout for a new president. We would also like to announce the winners of the Fanny May Candy Survey: Rose; A. Gipsilis, Brian Post, James Rosenblatt, Kevin Martin, Ken Van Hool, Bob Duky, Denny Bunker, Gabe Cal, Willy Johnston, Chuck Blank, and Scott Langham. All winners may pick up their prize in the Leadership Center, Room 283 L.S.

If the prizes are not picked up by March 21, new winners will be chosen.

---

**Improvements**

continued from page 1

with the addition of four new officers to walking patrols around campus. Three officers were added to the campus police force in January. This addition of several sworn officers is a one-third increase in the campus police staff.

An officer responds

Dear Mr. Bozon,

Recently, you wrote an article concerning security in the student newspaper. This is the most recent article I have seen in weeks which shows the Campus Police in a bad light. I know this rebuttal which I am writing will probably not go unnoticed in a big paper like you publish in which the bad print for the Campus Police in the past will not be fresh in everyone's mind. I am writing to make you aware of the situation.

Mr. Bozon, my 1983 Silver Trav TaW was stolen recently in front of my house located on the southwest corner of State and Chalmers. This area is relatively crime free. They didn't break the window and steal my stereo, they took the entire car. You should experience the feeling of seeing your car stolen on a Chicago Police Pound. Did I call Mayor Washington and tell him I was going to move out of Chicago because this is the second time this has happened to me. No, because I realize that crimes such as these happen every day in Chicago. It's part of living in a big city.

Mr. Bozon you also stated that you considered the people who work for the Campus Police to be second-class citizens. Do you consider yourself to be first-class? Just because you attend college? Mr. Bozon, do you go on your own or do you have others to do your bidding for you better than everyone else did?

Bozon, before you write another article attacking the Campus Police you should at least have written about what you're talking about. Sir, I come from a large Irish family (brothers and sisters) and we are all located on the Bridgeport area of Chicago. If you have any dealings with anyone from Bridgeport you would seek us out. We don't appreciate anyone calling us "second-class citizens." I was not fortunate enough to attend a private school or a private school, by the way. My father passed away when I was fourteen and college was definitely out of the question until recently.

Mr. Bozon, I was recently married in September and my wife's and I are expecting our first child in July. I left my job in a restaurant located at 3222 S. Halsted. How many IIT students do you know who have their own businesses, or their own restaurant? Or do you think that every time you go to a restaurant you should have at least written about what you're talking about? Sir, I come from a large Irish family (brothers and sisters) and we are all located on the Bridgeport area of Chicago. If you have any dealings with anyone from Bridgeport you would seek us out. We don't appreciate anyone calling us "second-class citizens." I was not fortunate enough to attend a private school or a private school, by the way. My father passed away when I was fourteen and college was definitely out of the question until recently.

Sincerely,

Patrick J. Murray

Campus Police

P.S. This does not pertain to most IIT students. Having worked here I have met many students who will become fine businessmen, architects but most importantly people.

Crime victim appeals

Having been a recent victim of crime in IIT's Frat parking lot, I feel engaged to make a few recommendations to the administration, Commander Higgins, and Mr. Meleheither.

The Frat parking lot is one of the few parking lots on campus where a significant number of automobiles are parked overnight, yet it is the only lot that is not totally fenced. Although crime against property is deplorable, crime against an individual is intolerable. I would like to see a campus police officer stationed in the lot from 9:00 P.M. until 9:00 A.M. in the morning.

I feel that the administration will say that this proposal is too cost prohibitive. I have a suggestion! Let's sell the canopys that was taken off the library.

The students have paid a high enough price already. What else do you want us to pay for? I urge Pres. Martin, Commander Higgins, and Mr. Meleheither to respond.

George Skrypke

Pres. Martin explains

Dear Editor:

In your March 13, 1983 issue of Tech News, Mr. Reddik stated that he has been a member of the Illinois Fair Job Fair and provided some flyers and brochures. It was suggested that we take them and give them to the students.

I was told by a fellow student that the fair is a great opportunity to meet people and if one had contact with someone who might be interested in the fair, they could transport the students. I later received a call from a student asking my assistance. I referred the student to the offices of the IIT Student Services Office.

I know that the fair is a great opportunity for people who are interested in this field.

Sincerely,

Robert J. Blandine

Director of Career Development Programs

In defense of Placement

Dear Editor:

Several people have threatened angry responses to the recent letter to the editor from a Stuart student concerning the Placement Office. Retaliation, whether it be on the part of me or the person writing the letter, is a natural reaction to provocation. I hope, however, to provide some background information and rectify any misunderstanding that might have occurred.

Last fall I asked one of the Stuart School Deans if he could schedule me into one of the senior level Stuart courses for a few weeks. The hope was to explain our Placement system and workshops and to encourage more of the Stuart seniors into our program. The eventual response to my request resulted in a meeting on Thursday, February 27, one day before our last signing-up and two weeks before our last interview.

Data from past semesters shows that on the average, students accept job offers from over 15 interviews. On the average, one accepted job results from every 13 interviews. Many job offers are among multiple offers to the same student. Given this data, it is unlikely that many Stuart students, at that stage of the game, could be seriously interested in job offers from the Placement Office. These were the harsh realities facing them. Coming to grips with this was, according to one of the students present, frustrating.

My best advice to the group was to not count on the Placement Office to solve their job search problems but pursue other possibilities. These included direct contact with personnel offices, using the CPC and IIT Talent Bank in the Cranford of DuPage. Unfortunately, some of the students chose to debate the long-range reasons for the situation rather than deal with the short-range ways to deal with the situation.

Early in the semester, in a meeting with Mr. Meleheither and Dr. Martin Luther King Jr., under the general title of "Defender of Democracy," I mentioned that I had more than 20 hours of study on political science which I studied at previous semesters at high school summer school. While you party every night and said "politics is for boastful and foolish people," you have in a Democracy votes. Not just a few people with the right skin pigmentation. You have no power to hold as a "foolish person." So, maybe, you have seen my face in the streets.

One more note, Mr. Subas, when you are doing political commentary, you don't do research on the comic book wars. You really don't report on your own. Your personal agenda and your personal political beliefs for the copy in Tech News. This letter was written to enlighten you and the IIT community. A reply is not necessary. You obviously do not have the background to do political commentary. If you wanted to do it properly, you would introduce yourself to conservative leaders in my local national party. Maybe, then, you would understand your own audience.

Sincerely,

Patrick Chee

Mr. Subas replies

Dear A.V. Chee IV,

I appreciate your fan mail, dear reader. I am disappointed though that for some reason I always seem to get the same basic questions from you, questions followed by attempts at personal insults. Nonetheless, I get a few laughs out of your writing, and I appreciate you giving this pleasure to all who have read your writing.

In your "defense of the UCBS President," I am assuming that you along with the others have a general state of shock, which paralyzed any attempt in logical thought while writing your letters. Or perhaps too soon in an emotional frenzy after reading a copy of Tech News. Mr. Chee, reasoned debate should be attempted with clear, calm, and a place where you've got reader's attention.

In your "defense of the UCBS President," I am assuming that you along with the others have a general state of shock, which paralyzed any attempt in logical thought while writing your letters. Or perhaps too soon in an emotional frenzy after reading a copy of Tech News. Mr. Chee, reasoned debate should be attempted with clear, calm, and a place where you've got reader's attention.

Sincerely,

Mr. Subas
A rational answer to Ed

Sir,

Thank you for your letter. I am glad to see you are as concerned about this issue as I am. After reading your letter I was unable to discern what that interest is. Your point, however, is well taken. I think your use of the word "six point counter-attack" is quite apt. You raise a lot of valid points but many do not really pertain to the overall situation. In fact, the African situation is an economic haven for Southern Blacks because some Black Africans from Northern areas of Africa are living there. Accurate numbers of reasons are never presented, but what of Blacks from other countries who go to Nigeria to work? Or clashes between the Amouj job seekers and the Bangles? Perhaps your correct facts and reasoning are two things you are quite new to. I must confess that I have never heard of Tech! It has never been known, let us set a precedent. Let's stir the pot some more. White emigration from Africa would have a multiplier effect on the economic situation. The economic situation in SA has not mushroomed because the current government makes it almost impossible for white South Africans to enter the workforce in other valuable assets with them. Without an obstacle SA would have collapsed long ago.

On Military Conflict:...
Focus on the Arts presents

The Amherst Saxophone Quartet

Yes, there is sax at IIT. And to prove it The Amherst Saxophone Quartet will give a performance of ragtime and jazz.

"Their playing has a joyful, sparkling air - they play with a fervor and dedication that compels the listener to get involved in the music. These young men have found a unique way to present their music, and they seem to revel in each new turn of phrase, as they take the melodies through structured, yet loosely-woven arrangements performed with dash, elegance and love."

-MARIAN McPARTLAND

"These boys know almost as much Good Sax as I do."

The chaplain looks at IIT

Dear Editor,

A Chicago winter can depress even the most sanguine optimist and clearly it has taken its toll at IIT. Yet in some consolation to recall that there have been worse winter seasons in recent years. Expect the grey atmosphere has encouraged an open season for negative criticism on campus, from the future of IIT to the quality of life at a HUB Coffee Bar, to the decline in a printed exchange of political and ideological views on human rights. Such expression can be productive if it aids in working towards a consensus clarification or resolution with the involvement of the participants. Otherwise, "objective censoring" from a distance can degenerate into narcissistic self-indulgence among those indulging themselves in a fantasy world transcending the "maddening crowd." Why not initiate a conversation with some informed resource people as panellists, after all representing diverse points on the political spectrum? It might even create some hope for woners.

To some positive experiences available in this environment I submit that it is possible to gain attention to a number of happenings, critical and collective events over the past few months that have contributed to personal and group enrichments. Over a run of clothing distributed by McKenzie in a generous display of concern by IIT students and the students of a rehab bisexual of help to replenish dwindling reserves throughout city hospitals and holiday season gifts to the nurses by a Catholic Service that continues to exceed; the expenditure of time and energy by student tutors; the HUB's flyer service of providing an alternative to the various atmospheres on campus; the celebration by campus and neighborhood children of a multicolored tapestry of global cultures that warm the advent of winter holidays; the common expression of deep appreciation for the gifts of Martin Luther King; and finally, last weekend's impressive intercollege conference hosted by IIT's Resident Hall Association, a revelatory experience for students and advisors, particularly significant for the insight and finance shown in relating learning to life and human issues, urban and otherwise, and for the inventive models of professional development and motivational leaderships demonstrated by the delegates.

Hearty thanks to all of you, known and unknown, for taking time from pressing responsibilities to make life a little more interesting, bearable and hopeful for the rest of us.

Austin Armado
Institute Chaplain
THE ELIMINATOR.

The AT&T Card eliminates fumbling with coins and hassling over bills.

The AT&T Card. The fast, easy way to call long distance—from anywhere to anywhere anytime. The AT&T Card makes keeping in touch with friends and family a lot more convenient when you're at school.

You'll be able to get through on almost any public phone—on campus or off—without bothering with coins. And you'll actually save up to 60¢, compared to AT&T coin, collect, or third-party state-to-state calls. In fact, for most calls, it's our lowest rate next to direct dialing. And there's no charge to order the Card; no minimum usage fee.

You can use your Card to make calls from other people's rooms: the charge will show up on your bill, not theirs. No need to call collect or charge it to a third party.

You can take your AT&T Card with you on summer vacations and semester breaks. Whether you're going traveling or staying home with family or friends—it's a great way to stay in touch with anyone you like. Call from coast to coast and even overseas... and enjoy long distance connections that sound as close as you feel.

As you can see, the AT&T Card eliminates all kinds of hassles. And you can get one even if you don't have a phone in your own name. Put The Eliminator to work for you. Sign up for your AT&T Card by completing and mailing the attached postage-paid application. For more information, call toll free 1 800 CALL ATT, Ext. 48.
Sailing
continued from page 5
November 2, IIT came in strong
and impressive fifth place out of
fourteen competitors, only
three points out of fourth place.
The last regatta in which IIT
participated was the MCSCA
Area C Eliminations at Green
Bay during Nov. 9. IIT came up
short of qualifying into the
country-wide regatta Angsten regatta (a sort of
National Championship) after,
finishing fourth instead of in the
top three qualifying slots.
All in all, the fall season was
delightful and successful. This
semester IIT will host its annual
spring regatta on April 5 with
the participation of a record
seventeen schools. To be a
member of the Sailing Team is
to enjoy not only the thrill of
sailing but also the camaraderie
of competing against your peers.

The recreational sailing
program is geared toward
people interested in sailing for
fun and pleasure, people who
don’t want to spend the whole
summer on the water. Last
semester, a group of avid sailors
had every Saturday during the
afternoon at Belmont Harbor.
This semester, we intend to do
the same thing. We will start
sailing as soon as the weather
permits, which looks like very
soon. The sailing club has its
disposal six flying JUNIORS
sailboats at Belmont Harbor.
If you are not yet familiar with
these boats, the Flying JUNIORS
are fourteen-foot sailboats with
a mainsail and jib designed for
two people.

In conclusion, the Sailing
Club has many opportunities
to offer to the experienced sailor
in or to the soon-to-be-sailor for
the sheer thrill of racing or for
the relaxed pleasure of sailing.
Find out about these and other
opportunities for you on
Tuesday, March 18, from twelve
to one in the afternoon in room
308 of the Hub. The IIT Sailing
Club is an organization
dedicated to the stimulation of
the body and mind and interest
in the great social aspects of
our lives. Don’t miss the hottest
months of 1986. Capture the
spirit of sailing.

Gospel Jubilee a success

Although February is officially recognized as Black History Month, the UCBS (Unions Concerned Black Students) believe that Black History ought to be celebrated year-round. As such, the UCBS continued the celebration of Black History by sponsoring its 6th Annual Gospel Jubilee this past Friday, March 7 in Hummell Hall Auditorium. The Jubilee is a gala event that features various forms of praise—vocalists, instrumentalists and dramatic readings. The choice of a gospel affair was quite appropriate since Black history is closely tied with religious affiliations.

The program opened with a soulful rendition of the “Lord’s Prayer’” by Ma. Laura Johnson, an IT student; followed by another IT student, Ms. Kim Lailey Woodcock who told us about the importance of “Ordinary People” in God’s quest to establish a new kingdom. The Chorale of Chicagoland’s finest choices, the Thornton High School Chorale, opened the program with a medley of inspirational songs—“Holy Spirit,” “I Am Happy,” and “Jesus Brought Me All The Way.” They were well received by the audience. Praises of the Lord included a spirited rendition of “Thank You Jesus,” by the author and Ms. Tereilla Williams, also an IT student. Having seen several Gospel events performed in the city, I have been captivated by the celebrated poem on various occasions. I’ve understood a little more in each interpretation.

The featured group, Serenity, appeared to be a jubilee of performers. Serenity performed on two other occasions. Serenity, a band and lead vocalist comprised of five young gentlemen, presented a group of performances songs which spanned the period of time from an old Negro Spiritual to gospel’s contemporary sound. They brought their house to their feet with songs like “I Can’t Wait,” “Til Jesus Comes Again,” and “Lord, I Wanna Testify.” Knowing that Black history is steeped in religious or spiritual, the Messrs. sang “Lord Let My People Go” (by the Winans) which is in response to South African political system—apartheid. Although this was their first public performance of this anti-apartheid song, they would have easily convinced them that always sing this song.

A climax was reached when Serenity performed; however, we never left this emotion all through the course of the evening. The melodious sound of “Blessed Assurance” was played by the saxist Samson Reeves who returned later in the program with “Living This Kind of Life” with his band and accompaniment by Serenity. The Redemptive Faith Church of Christ told us about how Jesus is the Light of the World in “Walk in the Light” followed by “You Can’t Make Me Doubt Him,” a fine example of contemporary gospel character. Love, Salvation and Devotion sang my ode of inspirational songs which worked that joyous air of “old-time religion” in the auditorium. Ms. Angela Marshall, a petite young lady with big heart and full of joy, was an artist at first. There was also “Going Up Yonder.” The final act of the program was a fine couplet of Fields (last year’s jubilee chairman) for a successful program.

Bravo, Vanessa for a job well done! The community looks forward to the Jubilee next year.

ANSWERS
Q1. How many breast cancer patients were affected in this year’s 2001? 1,400
Q2. How many women were in these cases? 96
Q3. Did the campaign raise a total of $1,000? Yes
Q4. What is the goal amount? $1,000

The IIT Sailing Club will start its spring season this week after a successful and gratifying fall season which was full of delightful experiences in its competitive and recreational components. The club devotes equal time to its competitive sailing program as well as to its recreational sailing program.

The competitive sailing program is geared toward maintaining an active racing team to compete intercollegiately against other universities. The IIT Sailing Club is a full-fledged member of the Midwest Collegiate Sailing Association (MCSA), which is composed of twenty-six schools spread around the Midwest. The Sailing Team competes against such Big Ten Schools as University of Michigan, University of Illinois, Michigan State University, Indiana University, Northwestern University, University of Iowa, Ohio State University, University of Wisconsin, University of Minnesota and other top schools like Notre Dame University, to name a few. Last semester, IIT participated in a total of five tournaments.

Choosing a long distance company is a lot like choosing a roommate.

It’s better to know what they’re like before you move in.

Living with someone for the first time can be an "educational" experience. And living with a long distance company isn’t any different. Because some companies may not give you all the services you’re used to getting from AT&T.

For instance, with some companies you have to spend a certain amount before you qualify for their special volume discounts. With some others, voice quality may vary.

But when you choose AT&T, there won’t be any surprises when you move in. You’ll get the same high-quality, trouble-free service you’re used to. With calls that sound as close as next door. And discounts off our Day Rate on your state-to-state calls.

With savings of over 50% during weekends until 5pm Sundays, or nights from 11pm to 8am, Sunday through Friday And 40% discounts evenings between 5pm and 11pm, Sunday through Friday.

With AT&T, you’ll continue to get services like immediate credit for wrong numbers and collect calling. And long distance operators to help you anytime there’s a problem on the line.

So when you’re asked to choose a long distance company, choose AT&T: Because whether you’re into Mozart or metal, quality is the one thing everyone can agree on. Call 1-800-222-0300 for more information or to choose AT&T:

Reach out and touch someone.

AT&T
The right choice.
Hawks play ball

The IIT Varsity baseball team is working very hard for the upcoming season under the direction of Coach Jim Darragh and his assistant, Rottie Wozniak. The Hawks will be travelling to Jacksonville, Florida, during spring break to participate in a tournament in preparation for their season opener on March 23 vs. Lakeland College.

The Hawks have seven returning starters from last years squad who had shattered several school hitting records. Greg Pastorek, a sophomore from St. Rita High School, will lead-off and play left field. Jack Gaccio, a junior on the Midwest NAIA All American last year, will patrol center field. The right fielder will be Greg Flores, a highly regarded freshman from Marist High School. The infield is equally as strong as the outfield. The third baseman will be Chris Konecki, a sophomore from St. Laurence High School, and a sure-handed fielder as well as the clutch hitter. At the other corner is Chris Malczewski, a big left-handed hitter who will aim his sights at the big monster fence in right field. Up the middle will be the double-play duo of Mike and Scott Carpiniello, the second baseman and shortstop. Scott is the power hitter who is closing in on the home run record and Mike is the Captain of this year’s squad. The catcher is Bob Riley, a major league prospect with a cannon arm and quick release.

The Hawk pitching staff will be led by the starting continued on page 10

Swim team best ever

The varsity swimming team travelled to Spokane, Washington last week and competed in the NAIA National Swimming and Diving Championships. After four grueling days of competition the team came out with an 11th place finish, its best ever in national competition. Last year, the Hawks captured 17th place in the NCAA Division II Nationals.

IIT’s top finishers were sophomore Mike Messler and junior Doug Lovato. Mike Messler placed third in the 100 yard backstroke and seventh in the 200 yard backstroke and seventh in the 400 yard individual medley. Doug Lovato placed fifth in the 100 yard events and earned a third place finish in the 3-meter and sixth place in the 1-meter diving event.

Junior Chuck Fee competed in the 100, 200, and 400 yard freestyle events. Fee and Fee teamed up with freshmen Matthew Fernandez and Patrick Magure in the 400 yard medley relay and the 400 yard freestyle relay. Fee and Messler also teamed up with junior Fred Fluffy and freshman David Hothway in the 800 yard free relay.

The team had hoped to place in the top 20 this last meet, but the 11th place showing was a surprise to us all,” stated Coach Maluch. “The team could improve next year tremendously if our recruiting goes well. We have no seniors on this year’s squad and with three freshmen on the team with national championship experience, we could do very well. Next year’s nationals will be in Milwaukee, Wisconsin, and we will very well close to our own ball park.”

NAIA results

1. Central Washington U. - 381
2. Drury College - 335
3. Denver U. - 278
4. U. of Wisconsin, Eau Claire - 273
5. Fairmont State College - 236
6. Beloit College - 230
7. Stanford U. - 178
8. U. Of Wisconsin, Stevens Point - 98
9. Pacific Lutheran U. - 79
10. U. Of Wisconsin, Milwaukee - 70
11. IIT - 51

Of the 52 teams entered in this meet, only 26 scored points.

Pi Kappa Phi prolonged Interfraternity basketball by another week last Tuesday night. The Pi Kapps knocked off the Deltas in overtime 44-41. The Deltas came in with a spotless 7-0 record and the Pi Kapps came in a step behind at 6-1. Now the Sig Ep, Delt, and Pi Kapps are all tied for first place with 7-1 records.

The single-elimination tournament will now take place between these three teams to determine the winner. The Sig Ep received the 1st-round by. Therefore, the Pi Kapps and Deltas will play Tuesday at 6:30, and the winner will take on the Sig Ep Wednesday at 6:30 for the championship.

In the Delta - Pi Kapp, the Deltas jumped all over the Pi Kapps and took a quick lead. By halftime the Deltas were up by nine points. Phi Aesch, the leading scorer and...
