Schoemaker Gives Talk to Officials

Professor John J. Schoemaker, who recently gave the annual address to the Alumni Officials Association at a meeting held at the Athletic Banquet last Tuesday.

The subject of his talk was "The Importance of Athletics," which he is well qualified to handle because of his many years of experience as an official. He divided the treatment of officials into two parts, each of which he said in every case it was good, but in a few cases it could have been better. He also spoke of the officials' position of handling themselves under a large crowd without attracting attention, and of the value to be obtained in the teaching of individuals who conduct anything to win. These were many cases and officials present, but the members of the Alumni Officials Association Mr. Schoemaker, who is a member of this association, was largely responsible for making Professor Schoemaker as a speaker for this occasion.

The tobacco does not spill out

Every Lucky Strike is made from the finest tobacco and only the center leaves. Not the bottom leaves, because these are under-developed and not ripe. They would give a harsh smoke. Not the bottom leaves because these are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy. The center leaves are the mildest leaves, for which farmers are paid higher prices. Only these center leaves are used in making Lucky Strike the fully packed cigarette - so round, so firm - free from loose ends. That's why Luckies burn easily, burn evenly. And remember - 'It's toasted' - for that protection - for your taste.
