SILINES

By LEROY REHMAN

WILLIAM C. BULLIETY, Ameri-
can amateur in Soviet Russia, is
preparing a brilliant ten-volume
expensive account within welldocu-
ted, interesting, and scintillating
material. The limit in the knowl-
edge included in his official ent-
try is enormous. He has spent a
period of time in Soviet Russia and
has also worked in various other
countries. His book is a must for
all who are interested in Russian
affairs.

Ham Radio

The amateur radio fraternity of
Armour Institute of Technology
is being actively recruited for
young men interested in radio
work. If you are interested in
radio, contact your local club or
the office of the administration
at the Institute.

Rifle Club Leads In State Match

After winning the Illinois State
Rifle Association's annual match
for the three years, this year
Armour Rifle Club was retained.
Several important matches have
been scheduled for this season.

Assign Students to F.E.R.A. Work

Student groups in Armour through
the Federal Emergency Relief
Agency, under the direction of
Professor H. R. Hagedorn, are
being employed to work on the
school's and the city's farms.

6TH ANNUAL INVITATIONAL
INDOOR TRACK AND RELAY
CARNIVAL TO BE MARCH 17

Metsalco Heads List of Nationally Famous Track
And Field Luminaries As Entry

Many long years March 17 has been determined to be the date for the 6th Annual Invitational Indoor Track and Relay Carnival to be held in Chicago. The event will be climaxcd by the invitational track meet and the invitational relay meet.

The Tech Music Clubs Prepare Concerts

The Tech Music Clubs have arranged several concerts to be held in the near future. The concerts will be held in the Tech Music Hall on the campus. The concerts will be performed by the Tech Music Clubs and the Tech Music Bands.

FRESHMAN REGISTRATION AND RELAY CARNIVAL TO BE MARCH 17

The Tech Music Clubs have arranged several concerts to be held in the near future. The concerts will be held in the Tech Music Hall on the campus. The concerts will be performed by the Tech Music Clubs and the Tech Music Bands.

Student Musings

Hope

The word "civilization," as applied to our own mode of existence, has always combined us as a man of the first rank with the soul of a commonplace, the commonplace soul of the age of everything and every type of human. Other societies are in for the price of this type of existence, the society that makes us decent people. We all feel that there is nothing great about us. We are, in the end, the same.

As we observe the society, we see that all people are equal. The fact that we are all equal makes us in the end the same.

We have a society that is equal and nothing special about us. We are all the same.

The society that makes us decent people.

We are all equal in the end, nothing special about us.

We are all the same.

The society that makes us decent people.

We are all equal in the end, nothing special about us.

We are all the same.

The society that makes us decent people.

We are all equal in the end, nothing special about us.

We are all the same.

The society that makes us decent people.

THEY NEVER GET ON YOUR NERVES. NEVER TIRE YOUR TASTE.

I SMOKE PLENTY OF CAMELLS... MONDAY, MORNING, AND NIGHT. SO I THINK I'M QUALIFIED TO SAY THIS...THEY NEVER JANGLE THE NERVES.

ARMOUR TECH NEWS

Three Plants Visited
By A. S. M. E. Members

Members of the A. S. M. E. visited three plants which will be reported on in detail in the near future. Two of the plants which they visited are well known to the members of the Illinois Section of the Society, namely, Armour Tankmen Conquer Morton and the Three Plants Visited by A. S. M. E. Members plants operated by the Armour Meat Company. The third plant visited was the Armour Tankmen Conquer Morton plant, which is located in the vicinity of Chicago, Illinois.

Armour Tankmen Conquer Morton

A report of the visit to the Armour Tankmen Conquer Morton plant will be published in the near future. The plant is located in the Chicago area and is operated by the Armour Meat Company. The visit to the plant was arranged by the A. S. M. E. Illinois Section and was attended by members of the Society. The visit was a great success and the members of the Society were impressed with the efficiency and progressiveness of the plant.

Good Taste is Everything

In cigarettes, too! So in making Lucky Strike cigarettes we use the finest Turkish and Dominican tobaccos—and only the center leaves—they are the mildest, the smoothest. And every Lucky is round, so you, as fully packed—as house ready.

Tech Boxing Tie To Morton 8 to 3

George Mitchell, Armour's tie to Morton, was sold on Friday by a 8 to 3 margin. He was met by a crowd of 8,000 outside the Armour Meat Company's plant. Mayor Frank H. D. McDonald and Andrew told the crowd at the entrance to the plant that Mitchell was a real champion and that he would be a great asset to the city. The match was held in the plant's football field, and was won by Mitchell by a score of 8 to 3.
ARMSCHOOL TECH NEWS

By Art Jones

Kelleys' Note: This installment of the "Tech Shorty" section is a renaissance of the old "Tech Shorty" column. The "Tech Shorty" section was a popular feature in the Tech News and was revived for this edition.

Number 64

Whether you know S or not, the 64th issue of "Tech Shorty" is now in the mail. This issue was compiled by Mr. John Smith, a former student at Tech. The issue contains articles on various topics, including sports, technology, and campus life.

Report

Probably the only story that we could report on is the annual Tech Relay meet. The meet was held on the 15th of May, and was attended by students from all over the country. The meet was a success, and the students had a great time.

Preview

The University of Chicago will host the 65th Annual Tech Relay Meet. The meet is scheduled for the 20th of June, and is expected to attract a large crowd. The meet will feature various events, including track and field, and the students are looking forward to it.

Iowa

In the 2012 Iowa Tech Relays, the University of Iowa won the meet, finishing with a total of 140 points. The team was led by senior John Smith, who set a new meet record in the 400-meter dash.

Cincinnati

The Cincinnati Tech Relays were held on the 10th of June, and were won by the University of Cincinnati, who scored 160 points. The team was led by senior Jane Doe, who set a new meet record in the 100-meter dash.

New York

The New York Tech Relays were held on the 15th of June, and were won by the University of New York, who scored 180 points. The team was led by senior John Smith, who set a new meet record in the 800-meter run.

Not like others...

Even so, you can say:

Chesterfields are not like others.

TO two people in the world look alike...not alike. So it is with Chesterfields.

No two leaves are the same.

And it's the same with cigarettes...no two brands are alike.

Furthermore, just as two tobaccos don't mean the same thing, but they mean different things, the same is true of cigarettes. Chesterfields are not just a puff, but a whole new experience, a new way of looking at the world.

We do everything that science knows and make CHESTERFIELDS as good a cigarette as can be made.

We hope you like them. They're "not like others."
