Plan to Advertise Armour Activities

BY LOYSE BURBAM

The Armour Administration, recognizing certain opportunities for community service in the interest of propaganda and public relations, has decided to undertake a plan to advertise Armour activities. Mr. Villard presented this plan to the Armour Administration, with the hope that plans may be made for the early execution of the plan. He mentioned that he had been in communication with Mr. J. L. Buckingham, who has been looking into the possibilities of advertising Armour in the interest of the Armour Administration.

HOLIDAYS AHEAD!

 Armour in the past years has done away with the normal holiday season, and the Armour Administration has decided to continue this practice. The Armour Administration is pleased to announce that Armour will be closed on Christmas Day and New Year's Day, and that Armour will open on Monday, January 2.

The Free Bird Situation Again

For the past year, or thereabouts, there has been much said about the free bird situation at the informal dance held each month by each class at Armour. Last year's class dances were generally recognized as the number of free birds in the assembly hall was considered to be just an amount in comparison to the whole crowd, but not all free birds which had been the custom of the years before. It seemed for a while this year that the lame-lassival condition of several years ago was going to be in effect. But, thanks to what we understand is the senior social committee's latest and final stand, namely, that free birds to class dances shall be given to only the members of the class, the committee sponsoring the dance and the faculty members of the dance, it seems unlikely that the uniformity of class dances is going to be affected by anything other than the affair.

The senior social committee is to be commended for this decision. The fair one has been pointed out, time and again, and it hardly seems worthwhile to enter into a discussion of it again. If anyone takes the trouble to make comments on or off this free bird situation, we are very willing to print its comments in our "Letter Box" and perhaps make answer in this column.

For Which We Are Thankful

In our long list of things for which we are thankful (Thursday is Thanksgiving Day, you know) let us include the work of the Armour Players. Their latest effort last Friday, which was the presentation of "In the Zone," was very well done and enjoyable by everyone who saw it. Despite the usual behavior of the Armour student body, the Assembly Hall seemed to us all we have been working on so far. The main event was a student's work and this is the only thing that counts in high school life. Today's opening performance is the only thing that counts in high school life. Today's opening performance is the only thing that counts in high school life.

Golf, The Great Educator

It will be a long, cold day when the champions of the golf have to move over to make room for us. We have to make a golf hall sometimes (if you can call it a square of a hundred and some-striker round occasional) that has taught us something.

For instance, it has taught us to go a long time. It has taught us that playing golf is a very serious business, that playing is a team sport, and that playing is a very serious business. It has taught us that playing is a very serious business, that playing is a very serious business.
The Alumni Meet at Winter Banquet

The annual winter banquet of the Alumni Association was held Friday evening at the Michigan Alumni Club. Two hundred and seventy-nine alumni and their guests were present, including students from the University of Chicago, Evanston, and various other institutions.

The program included speeches by President P. M. Merwin, and an address by Professor John J. Schenck, president of the Alumni Association. The speeches were followed by a formal dance.

After the dance, a formal dinner was held at the Michigan Alumni Club. The dinner was attended by a large number of alumni and guests.

The night ended with a large dance at the Michigan Alumni Club, attended by a large number of alumni and guests.
Tech Tank Team Needs Able Diver

Tobacco...there are just as many kinds as there are kinds of folks

long, short, thick, heavy, dark, light
all kinds and styles

but it takes mild ripe tobacco—Turkish and home-grown—to make a milder better-rasping cigarette.

and that's the kind you get in every Chesterfield package.

Dave Snow in the tobacco country, where he grew and created the Chesterfield, is the largest-selling cigarette.

TRACKMEET MEET TO PLAN EVENTS FOR COMING YEAR

Squad Is Left Unbalanced by Graduation

Losers

DISTANCE MEN NEEDED

With the track season rounding around corner, the girls are trying to round up the distance men that will make a good choice to show their faces at the various meets this year. Coach Bingy and Captain Roberts believe that they will be able to pull in enough men to fill the missing spots in the distance events. A good number of distance men are needed by the Tech Team.

Outstanding Hilites of Last Year's Basketball Schedule Are Reviewd

At last the basketball season has come to an end, and with it the game which earned Tech the Class B title. The season started well, with a victory over the Greeneville High School at Greenfield, but the success was short-lived. The team was defeated by the University of Tennessee in the first round of the state tournament, and the season ended with a loss to the University of Kentucky in the semi-finals.
