SOPHOS TO EMPL oy Petition Method

An interesting atmosphere was created just prior to the first sophomores meeting when the number of seconds of Billy Rogers' approximation of the classics became more and more evident. In the course of the meeting, the classics were used to good effect.

The Sophomore Class is a part of the Freshmen Class and is a part of the University. It is not to be confused with the Freshmen Class. The Sophomore Class is the only class that can be considered as the junior class of the University.

By Cherry Breitenstein

FRASHAND KNOX IS WELL ATTENDED

Schooner, Cherniack Building

Late Wednesday evening the freshman class was able to occupy itself in some other way than by discussing, or rather, by discussing, about the classics. There was a meeting of the faculty and the president, who acted as master of ceremonies.

After the meeting, the chairman of the faculty was heard to give the following speech:

"We have been told that we are to be a class of great promise, and we are to be a class of great achievement. We have been told that we are to be a class of great potential, and we are to be a class of great realization. We are told that we are to be a class of great enthusiasm, and we are to be a class of great zeal. We are told that we are to be a class of great success, and we are to be a class of great reputation.

We are told that we are to be a class of great interest, and we are to be a class of great enjoyment. We are told that we are to be a class of great importance, and we are to be a class of great necessity.

We are told that we are to be a class of great profit, and we are to be a class of great value. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

We are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are not to be a class of great good fortune, and we are not to be a class of great good success. We are told that we are not to be a class of great good fortune, and we are not to be a class of great good success.

We are told that we are not to be a class of great good fortune, and we are not to be a class of great good success. We are told that we are not to be a class of great good fortune, and we are not to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.

But we are told that we are to be a class of great good fortune, and we are to be a class of great good success. We are told that we are to be a class of great good fortune, and we are to be a class of great good success.
"The Slipstick"

Close to the "Slipstick" be the Satchel fly where it may.

With the wimpers of the Blue’s "Bill" a very appropriate gilch has been set in place quite early. Everybody, no matter where you can see the feeding ground. And for ever more of these, my friends, there never more get seen.

With faces every mile deep. They range across and out and in upon every gnat. This building up this fact.

What, my friend, are we to do.

With this bewildering food? Who has an easily able to keep the slipstick in sight where the avian.

The only thing to my friends, is to up out on the street. There is no other alternative but to love the quick and green.

—E. J. Mears

A Drop Too Black

"It was considered the worst peremptory Azure in the country," remarked one of the friends standing at the open window.

"Yes," said the other, "he was just the last of the day.

Evidence

The shadows of night were falling fast.

When for a time he was kept.

A residence of one kind.

In the Recording Office. It becomes a more important office.

R. H.}

DOUGLAS E. JONES ’36—ENGLISH

Composition is hard work when... When I felt I played out, Camel gives me a real smokeback in energy.

"Even the greatest writers are supposed to feel writing a hard task, and if you ever have to do any writing you know how hard it is to see it off. We don’t aspire to genius, have it expiring ourselves," says Douglas E. Jones ’36, "but the top of English, I put as much energy into writing as a man would use up in heavy physical labor. When I feel I played out, I smoke a Camel. Camels give me a real smokeback in energy. They are all that I can smoke all I want without spoiling my nerves. I can’t, I will like Camel’s mixture blend of conditioned tobaccos. Mild— but not flat or ‘too mild.’ They have all the niceties of smoking, you know, not being too strong or too mild. I find they don’t jingle the nerves, you understand..."

Grades in a Course Should Be Graded on a Curve

In the Chemical Engineering Department of the University, the grading system is being revised to include a curve. This is being done in an effort to make the grading system more equitable and to provide a better basis for evaluating student performance. The new system, which has been in effect since the fall semester, has been well received by both students and faculty. The curve system gives a more accurate picture of student performance, and it also helps to discourage cheating.

The system is based on the assumption that all students have equal ability, and that any differences in performance are due to factors such as motivation, study habits, and the like. The curve system gives a more accurate picture of student performance, and it also helps to discourage cheating.

Students Lose To Junior Ball Team

Juniors Take Series Opener with 4-3 Score

Armour defeated the techs Friday in the first game of the new Douglas-Dubuque series by an even score of 4-3. The game was played at the Techs' home court and the score was 3-3 going into the last minute of play when the techs scored the winning run. With the win, the techs now have a 1-1 record for the season.

Seniors Take Foul Shot

The fourth inning saw the third game of the series between Armour and Dubuque. The score was 2-2 going into the last inning when the techs scored the winning run. With the win, the techs now have a 1-1 record for the season.

More Students In Sports Last Year

Last year's sports participation was down from previous years, but the techs still had a successful season. The baseball team finished second in the conference and the track team finished first. The tennis team also had a successful season, finishing second in the conference.

Tennis Matches Draw Students to Court

With 33 wins earned in the tennis matches, the techs' tennis team had a successful season. The team was led by Captain Bob Miller and achieved a top-10 ranking in the state.

Poor Track Record

The beginning of the season was marked by the increased activity in track and field sports. The track team was second in the state meet and third in the conference meet. The field team finished fourth in the state meet and second in the conference meet.

Good Season Ball

Last year's baseball team played a very successful season. With a winning record, the team was able to make the playoffs and advance to the state tournament.

Believe It or Not?

by Sengay

The techs lost a 25,000 contract because their Pen ran dry.

If a person, through purchase at a supermarket, signed for $1,000,000 in a contract and the bank refused it, the person would think he had won $1,000,000. The win was actually a授予's contract. The person would think he had won $1,000,000.

IT SAVES THE DAY FOR MANY A MAN

by W. H. Sengay

It is true that many men find their lives saved by this little gem.

IT LOOKS LIKE A PEN, WORKS LIKE A PAPER VACUUM, IS ADAPTED TO MANY USES, IS AS EASY TO OPERATE AS A RIFLE.

In order to hold as many as such pens in a pocket, the Parker VACUUM is ordinarily used with a vacuum cleaner or a pump
