Vol. XIV. No. 6
Armour Institute of Technology, Chicago, Illinois

SIDELINES

By Loyce Busch

Last year, Armour President Enloe had marked the seventh anniversary of the Armour College of Engineering. This year, he has marked the eighth anniversary, and it is the time to look back at the achievements of the last year and the goals for the future. The Armour College of Engineering has continued to grow in size and reputation, and the faculty and students have made significant contributions to the field of engineering.

Armour Architects

As part of this anniversary celebration, Armour Architects has organized a number of events to showcase its latest projects and to give back to the community. The events include an open house at the new building, a conference on sustainable architecture, and a series of workshops on green building practices.

Social Activities

In addition to the academic events, Armour College of Engineering has a strong focus on social activities. This year, the college has hosted several events, including a student art exhibit, a symposium on the role of technology in society, and a concert featuring local musicians.

Whittier Defines Engineers' Ideals

Whittier College offers a series of lectures on the ideals of engineering, focusing on the role of engineers in society. The lectures are led by distinguished engineers and scholars, and they explore topics such as the ethical responsibilities of engineers, the impact of technology on society, and the role of engineers in solving global problems.

First Reunion of '34 M.E.'s Is Held

The first reunion of the class of 1934 was held recently at Armour College of Engineering. The reunion provided an opportunity for graduates to reconnect with each other and with their alma mater, and to reflect on their time at Armour and their careers since graduation.

Ten Students and One Alumnus Are Named at Assembly

Ten students and one alumnus were named at the recent assembly of Armour College of Engineering. The students were honored for their academic achievements, and the alumnus was recognized for his contributions to the field of engineering.

Armour Beto Honors Outstanding Men in Public Banking

The Armour Beto Honors Outstanding Men in Public Banking award was presented to four outstanding men in the field of banking. The award recognizes individuals who have made significant contributions to the field of banking and to their communities.

TO WRITE THESIS

In order to write a thesis, students must complete a series of courses and pass a comprehensive examination. The thesis is a significant piece of work that demonstrates the student's ability to conduct independent research and to contribute to the field of engineering.

Ames I. Smith

As the director of the department of civil and environmental engineering, Ames I. Smith is leading the department in its efforts to prepare students for careers in the field of civil engineering.

George A. Ames

As a professor and department head in the department of civil and environmental engineering, George A. Ames is dedicated to preparing students for careers in the field of civil engineering.

James W. Smith

As the director of the department of civil and environmental engineering, James W. Smith is leading the department in its efforts to prepare students for careers in the field of civil engineering.

THE LIFE OF A JOKE
Billy and Frighten think it up and chuckle with glee,
Making up two frequently and in the back yard.

Age 2 months: Frighten tells it as follows the answers:
"Yeah, it's funny, but I've heard it before.

Age 1 day: Frighten turns it to the camera funny
And has a good time.

Age 2 days: Frighten has to fill magazines, prints jokes.

Age 1 week: Thirteen College Comics comic jokes.

Age 3 years: "Life" reprint jokes in "College Parade." Dumps.

Age 10 years: Seventy-five radio comedians discover joke simultaneously. Tell it, accompanied by looks of mirth from the ladies in the orchestra (in 5 10 feet.

Age 20 years: Frighten is replaced. "The College" Dumps.

Feud: "Why do they know the source instead of praise?
Frighten: "Why wouldn't they know the source if it wasn't for the source?"

ROBERT FEDERMAN, 35, Says: "I'm involved in every phase of making—everything. I often talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show. I talk to a lot of people and I'm involved in almost every kind of show.

TUNE BILL CAMEL CARAVAN with Glen Gray's Casa Loma Orchestra, XUM and "Vocalion" will be heard worldwide. See Sunday's Battery News.

"DONE IN!.."

GET A LIFT WITH A CAMEL!

Heres the way to get back your energy quickly when you feel plans and weary. Thousands of students have adopted the way of combatting low energy and low spirits mentioned by Federman. When their energy sinks down they smoke a Camel and find the delightful "lift" its balsamic—delightful—enjoyable. Camel's costlier tobaccos never get on your nerves.

AUGUST, 1934

"CAMEL'S COSTLIER TOBACCOS
NEVER GET ON YOUR NERVES!

Tobacco experts and all say:
CAMEL'S CREAMY TOBACCOS
NEVER GET ON YOUR NERVES!

CAMEL'S TOBACCO
NEVER GET ON YOUR NERVES!

CAMEL'S TOBACCO
NEVER GET ON YOUR NERVES!

CAMEL'S TOBACCO
NEVER GET ON YOUR NERVES!

DON'T EVER CONFUSE THE "CAMEL"" WITH A "TAMPACO TOBACCO!" YOU'll SADLY DISCOVER THAT "TAMPACO TOBACCO" NEVER GETS ON YOUR NERVES!

ALARM COLLECTOR. Bar-Ms Morton (of the Columbia School of Advertising) and I am off this day on our more in a Camel. A Camel is a favorite of students, when they can't have their new tobacco without opening their smokes.

ARMS HOSTILES. Bar-Ms Morton (of the Columbia School of Advertising) and I are off this day on our more in a Camel. A Camel is a favorite of students, when they can't have their new tobacco without opening their smokes.

W.E. Presents Collegiate Night

(Continued from page 7)

The Armour Club held its annual "Tech News" celebration this year in the manner of the past years. The event was well attended, and the Club stayed late into the night, enjoying the company of friends and classmates.

Best Book Reviews Are Awarded Prizes

(Continued from page 2)

The Armour Club held its annual "Tech News" celebration this year in the manner of the past years. The event was well attended, and the Club stayed late into the night, enjoying the company of friends and classmates.

Movement Began for Camera Club

A movement is now under way at Armour toward formation of a camera club. The members of the movement point out that photography improves one's knowledge of artistic composition and enables him to appreciate finer things in life. Several such groups are organized activity might include visits of elementary classes in Chicago, to the photographic de- partments of large supermarkets, and to photographic supply companies. If the group were satisfactorily or- ganized, members of the group could become proficient in the art.

Examination Is Given To Spinach Candidates

As examination for the purpose of determining eligibility of new spin- ners for Armour, house literary ac- tivities, you gave had Thursday evening by the active members of the organization.

Organized in 1935 for the purpose of selecting new members of the literary societies at Armour, the group has functioned exclusively as a grade for the approval of candidates. The men who completed the exam- nation were invited to be present at the final banquet, which was held on the evening of the 24th.
Many Magazines in Armour Library

Network of Tunnels Serves Loop Building

We people know about the usual system of transportation used by the city of Chicago. In the loop there are several hundreds of thousands of people. By handling freight of all kinds, the different companies are able to control the operations of the loop system. There are several advantages of using this system of transportation. It is more economical and more efficient than any other system of transportation.

The loop system is divided into several sections. Each section has its own train station. The trains run on a circular track and change their direction at each station. The trains are powered by electric motors. They travel at high speeds and can stop and start very quickly. The loop system is a very important part of the transportation system in Chicago.
To Lay Plans for Honorary Banquet

Hooisers Grip Over Losing Also

As the final sectionings into the sticks, the majority of University students that themselves attempting to follow in the footsteps of the late Thomas Field, who found that he could make four or five hours deep a night without feeling any ill effects. His biographers reveal that he had been able to do this for three years, after which period he was left in the care of a new honoree.

Despite claims in some medical schools in the past quarter century, physiology for the most part remains as an avowed eight hours of sleep seven days a week for the average person. Doubtless the saprophytes acquisits its anaesthetics, but if it were to be taken seriously on this campus would mean that the majority of us are increasing our health by remaining in the University, for how many of us are eight hours a night to devote exclusively to studies?

There are just three solutions to the problem of time in sleep curtailment the student. Either the time must be lengthened to more than 24 hours, the student must stop and go cycling or other exercises all day and all night, or he must take some sleep supplement, or he must study less. The first two solutions are technologically impossible; the third has been used for years. Doubtless teaching methods of each day in a state of equilibrium. Can the doctors wake it? It is certain that it will not be long after this has been done in which Field will eventually float the phystioy that has enabled the student to increase his reading resistance to 10 health at the age of 16 years.

-The Daily Student.

The Tale of a Tech Man

The tale of a Tech Man is one you should know.

He is seldom asked, always listened. Live by live.

His place is this good soil is but a step.

When he graduates he is still in the red.

Takes his knowledge fresh from his life's work.

In his voice there is an echo to be heard.

He is wistful, into that type of being.

That weary of the life he is seeking.

As a sophomore he heard fragments.

Only to see more of their voices.

Just one more day, that's all he's run.

But his plans of companionship meet the dream.

His life is just the sort to meet his expectations.

---he year goes,

To be not by stranger, you stranger knows,

Two years have been spent in going this far,

Two more may be spent in the school of knowledge.

To make him just one more graduate of college.

His elder sister won him his campus fame.

He leaving new life he has but a name "Flop."

Greb. 10. 21:00-11. Ch. E. vs. "French."

Tackles

The world's finest tobaccos are used in Luckies—the "Cream of the Crop"—only the clean center leaves—for the clean center leaves are the mildest leaves—cost more—they taste better.
Let's find out why Turkish tobacco is so important to a good cigarette

On the sunny slopes of southeastern Turkey, a breed of tobacco known as "Artsakh" is grown. This tobacco is famous for its spicy aroma, and a blend of the right kinds of Turkish tobacco with our own home-grown is better than any one kind used alone.

In Chesterfield we balance the tobacco in our cigarettes to ensure the right amount of the right kinds of Turkish tobacco.

It is by blending and cross-breeding these different tobaccos that we make Chesterfield that's milder, the cigarette that tastes better.

Survey of Impending Basketball Campaign Has Favorable Aspect

Only one month more until winter basketball will be illuminated by the winter sunlight, bringing those dreary days of basketball. Armistice has turned out to be a great season for basketball. It's a season for that reason the opening of the basketball season always a much-waited-for and climactic event. The season which begins and ends with considerable excitement, the coming of the present season, only the first of the basketball season was always a much-mourned and tense time. In some areas the basketball season has been extended, ending over a period of one or two weeks. At Cincinnati and Columbus, basketball matches have been arranged in the various high schools. With a great deal of interest in the season, the first game will be at the Armory and the second at the Armory. Basketball School for Season

| Dec. 4 | Chicago Athletic Club at Armory |
| Dec. 11 | George Washington at Armory |
| Dec. 18 | Armory at University of Chicago |
| Dec. 25 | Armory at Arena |
| Jan. 1 | Lake Forest at Arena |
| Jan. 8 | Chicago Indoor at Arena |
| Jan. 15 | University of Chicago at Arena |
| Jan. 22 | University of Michigan at Arena |
| Jan. 29 | University of Illinois at Arena |
| Feb. 4 | Purdue at Arena |
| Feb. 11 | Northwestern at Arena |
| Feb. 18 | University of Wisconsin at Arena |
| Feb. 25 | University of Minnesota at Arena |
| Mar. 4 | Illinois at Arena |

This schedule is subject to change. There is a chance that some games may be moved to the Armory.
