Sophomore Class to Have Jackets

Out of class.money temporarily suspended last Monday. News of the event was announced through student announcements. A question was immediately brought up about what would be done to prevent such a situation from occurring again. In the midst of the discussions, a question was raised whether the class would receive their jackets at all. However, when the issue of whether the class would or would not receive their jackets was finally decided, the class was presented with their jackets.

Placement Group to Adjust Plans for Employment

Four Committees Will Work on Important Problem

EEOK MORE CONTACTS

Best estimates of the present post-war situation indicated that the Placement Group's committee was not likely to go any further. However, the group did make some tentative arrangements. The group was divided into four committees, each of which would work on a specific problem.

Placement Group to Adjust Plans for Employment

Four Committees Will Work on Important Problem

Social Chairman Favor More Bids

With many indefinite plans under discussion, the social chairman of the class, Mr. R. H. Blossom, was already preparing for Arcana's coming social season. "I think our recent plans have been somewhat unsatisfactory," he said. "I believe we should have more bids to choose from."

Ward Movers Plan

W. A. Towers, social chairmain of the class, said, "I believe that the present season's social activities will be more satisfactory than the previous one."

Junior Only Spectacle

D. Graham, chairman of the social committee, said, "I believe that the present season's social activities will be more satisfactory than the previous one."

Tech News Social To Be Without Speakers

An informal get-together for the Tech News Social on Wednesday evening will be held. The purpose of the get-together will be for a few minutes of discussion among the Tech News staff.

Glee Club to Present "The Lake"

On Friday afternoon, November 6, the Glee Club will present "The Lake," a new version of the Glee Club's annual musical. The production will be held in the Grande Ballroom of the Student Union. The show will begin at 8:30 p.m. and will feature music and dance by the Glee Club.

Revision Made in Loan Committees

All of the former loan committees have been reappointed for the coming year. The old membership of the Loan Committee was maintained, with some changes. The new membership includes members from other colleges and from the technical departments.

Institutes Progress in Past Two Years Told by President's Report

Financial and Administrative Difficulties Overcome by Adjustments in Staff and Curriculum

Plan to Resume Shop Work Soon

In an appeal to the freshmen to join in active social activities as soon as possible was the first of the Tech News' "Frosh Plan." The idea was explained by Mr. J. B. Allston, the freshmen advisor. "The Frosh Plan is a means of encouraging freshmen to get involved in the social activities of the Institute," he said. "I believe that this plan will be very effective in bringing freshmen into the social activities of the Institute." The freshmen were urged to display some new ideas that will help the Frosh Plan to be successful. "I believe that this plan will be very effective in bringing freshmen into the social activities of the Institute," he said. "I believe that this plan will be very effective in bringing freshmen into the social activities of the Institute."
The Slipstick

Glove to "The Slipstick," let the Slipstick fly where it may.

"Papaya, say it is delicious."

"Or, if you don't believe me, Science is doing things that says the glovecloseup.

LOOK ALIKE

Mother: "And did the monkey see her but when you gave him the peel, don't?"

Tommy: "Yes, ma'am."

Mother: "Dad, is he going to eat this with the peel on it?"

Tommy: "I guess it to his father who played the organ.

Expecting a Rope Old Age

The problem of the telephonepole was growing at the end of the earth in fifty million years,

"What many" cried "Tony" Magnani, with a frightend voice.

"Five million years?"

"Oh, said "Tony," with a deep sigh of relief, thought you said fifteen million."

Pencils With a Kick

On Monday we had

Two pens behind,

And on Tuesday we said: "Yes, before,

We look behind before we read" What are the two and behind before.""

Now "Henry was quite angry when I bought this evening's paper."

Can you imagine getting zapped over a little thing like that?"

On another Campus

Just: "Oh, pretty, do you know of one that you've kissed?"

Pretty: "Yes, I have."

THE CANDY SCOUT

The Scoutmaster couldn't get his ticket. On the canvas says "don't sell it" and it was still raining. "What's that in your mouth?" the conductor asked.

Just: "I'm sorry, I was just eating" off the canoe."

1st Step: "Well, I need a Cub. quite at last."

2nd Step: "Suddenly, an idea?"

1st Step: "What difference does that make?"

In closing truly appreciate the controls of N. B. D. Smalley, and A. Malvich. Until next week.

Railroad Engineer Addresses W.S.E.

Mr. Charles A. Morse, retired chief engineer of the Rock Island railroad, addressed the Armour student of W. S. E., last Friday. His speech was divided into his personal experience and a review of qualities of a good engineer.

After his school days, which were spent at Minneota, to becomeacquainted with the Burlington railroad as an engineer for a very few years. This type of work was in great demand during the last years of the 19th century. He gave up this position for one as an engineer on a locomotive railroad.

The work was very hazardous for he was in close contact with boiler explosions. This did not deter him, however, because his work was interesting enough to make him forget his hardhats.

He enjoyed his work so much that he spent his evenings in his rooms playing his instrument, in waiting for sufficient light to see his dinner plates to begin his dinner, and then continued working until seven when locomotive smoke entered. Although of course of this sort would discourage most men, his interest in his work made it a hobby for him.

Mail Order House

Gives Scholarships

Mansfield and Co. and others offer a number of opportunities for Hood students to attain a college education.

The plan consists of writing orders from friends and parents for which the student receives 10% of the order as credit toward his school cost.

The students may enroll at any time and at any school in the country. It also includes transportation and miscellaneous expenses.

When a student has obtained $50 in credits, it is paid into his four-year scholarship fund.

Each month thereafter 10% of the total credits paid to his name for the month's is added to the fund. This plan may continue as long as the student wishes.

Further information may be obtained by writing to the Dean's office, and are included in the College Scholarship Department of Mansfield and Co., Chicago.

President's Report Explains Policies of Institute

In the fall of this background it is probable to take stock of the year's development and plan the year ahead. The first step in this process is to ensure that the goals set for the fall of the Institute's financial year are consistent with the long-term objectives of the Institution. This involves examining the financial statements of the Institute, assessing the adequacy of the budget, and determining the need for any adjustments.

The background to the financial statements is provided by the annual report of the Institute, which includes a detailed analysis of the financial operations of the previous year. This report serves as a basis for planning the financial resources of the Institute for the coming year.

In the context of the financial statements, the report highlights the need for careful planning and management of resources. The report emphasizes the importance of maintaining a balance between the Institute's financial obligations and its long-term goals.

The report also provides a summary of the Institute's activities and achievements during the year. This includes a review of the Institute's research, teaching, and service programs, as well as an assessment of the impact of these activities on the broader scientific community.

The report concludes with a summary of the Institute's financial position at the end of the year, including a projection of future financial trends and the steps being taken to ensure the financial stability of the Institute.

In summary, the President's Report is a comprehensive document that provides a detailed analysis of the financial operations of the Institute. It serves as a basis for planning the financial resources of the Institute for the coming year. The report emphasizes the importance of maintaining a balance between the Institute's financial obligations and its long-term goals.
President Submits Report to Alumni

(Armour Alumna to Speak to Engineers)

The Senior Senate of the Armour College of Engineering will hold their annual meeting of the class Thursday, November 5, at 7:30 in the Armour Auditorium. The keynote speaker who will be the class of 1934 will be Armour Alumna to speak to engineers.

A.S.M.E. Membership Drive Shows Results

Results of the membership drive of the Armour College of Mechanical Engineers are very encouraging. By last Friday there were 17 members. A short business meeting was held, during the course of which it was suggested that any member who reads an article in some technical magazine, which would be of particular interest to the group, should copy the article and make a report on it before the group.

The scheduled speaker for the meeting was called out of town. Professor Gish offered to substitute. He brought to the attention of the American Society for Testing of Materials, a group which works in close cooperation with the latter, labor-saving executives. Professor Gish is a member of the formation of the A.S.M.E. for text testing. They have been working for the past five or six years on such technical foods. Petruccello, a food compound, has been found most satisfactory. A new cylinder of engine oil has been developed in which the work of the compression, while the engine is running. These were entered engines are used in all parts of the country for testing foods and other similar conditions are covered. A laboratory test with one cylinder will vary somewhat from these conditions, said to be most satisfactory. At an earlier test is done with a standard engine and whether it is so high as they are at this moment.

(The text is incomplete and difficult to read clearly.)

Social Chairman Favor Free Bids

Weber and Olm have been appointed to the committee of the St. Louis Alumni Chapter. We refer to the notice on the front page for further information.

Wanted: Six men, between 16 and 20 years of age, to take part in the Arc light experiments. All will be small, well-formed, having plenty of pep, and not too sophisticated. Anyone having these qualifications must write to Main finns 4, A. I. A. B. 11, 1 E. SAUERBAUER, 21.

Will pay 25 for each of the above.

The Invisible man has finally materialized. Believe it or not, BILL (SHAME) SAVAGE is right. SAWYER, under A. L. Y. 1, may be supplied with a continued subscription for $1.25.

Good Taste!

The clean center leaves are the mildest leaves—they cost more— they taste better—so of course, Luckies use only the clean center leaves—the choicest Turkish and Domestic tobaccos.

They Taste Better

It's toasted

50 cent per package—opened corncobs—tested pack
The Manager of the M.I. team pushed on when they eliminated the center receiver from the back field team. The centerfield players took the protection of the center receiver, but they have a couple of games left before the center is disabled. The potential changes didn’t call for much as they didn’t take all the game plans.

SCHEDULED GAMES

- Wed, July 15th - 7:30pm - vs. Repy, R.C. in Montclair, New York.
- Wed, July 22nd - 7:30pm - "Final" vs. Repy, M.I.

The schedule games, remaining in New York, are the result of several other games of abbreviation. The center receiver’s return to hurling a little more often and have concerned several additional games are arthritis threatening to the center receiver. After these games there may well remain and then the championship will be staged on October Field.

Interfraternity all-star games are in the offing since the interferentially uncoordinated meeting last Friday. The schedule was drawn up for the opening season, and although the cost dates have not been disclosed yet, the list of teams still interesting in attendance "intervals" during the winter months. The basketball tournament will be begun as soon as the spring crops demand from the back yards. As in the past, the preliminary games are to be held in the gym and the final game at the_instance.

Most intramural is the preparation of the continuing tournament, a new point in the season. This effort will be staged prior to the number of intramural teams in the back yard, although there are no eggs or medals, these informal games are drawing the attention of the
