Book Reviews

By Marine J. Flood

The book is about the life of a fish, a salmon, but the author is more interested in the man who catches it. The man, a fisherman, is shown as a wise and patient man who understands the ways of the salmon.

The author describes the different stages of the salmon's life, from when it is a small fry to when it returns to its home river. He also describes the different methods used by fishermen to catch the salmon, from traditional methods to modern ones.

The book is not only interesting to those interested in fishing, but also to anyone interested in the natural world. The author's descriptive writing style brings the salmon and its environment to life, making it a delightful read for all ages.

The author also includes information about the importance of conservation and the need to protect the salmon and its habitat.

Overall, this book is a wonderful read for anyone interested in fishing or the natural world. It is informative, engaging, and a great source of knowledge about the life of a salmon and its fishermen.
American Engineers and Workmen Set Records In Dam Construction

The Colorado River really fevered at the junction of the Green and Gardeners Rivers in Wyoming. The reason for this junction has been subjected to very heavy snowfall every year, and the spring Markets reveal a large volume of water into the Colorado River. In this part, the river had five high water areas, each one of them higher than the average and causing great damage to the navigation of the river

The section is to be dammed, the river has been set to high water areas, each one of them higher than the average and causing great damage to the navigation of the river.

W.S.E. to Hear Talk on Planned Progress

"W.S.E. is one of the main stops of the American Engineers," said Mr. Smith, who is in charge of the construction of the W.S.E. project. "We are planning a new water project which will be a major step forward for the river."

Two Managing Boards

Two managing boards will be established, one for the urban area and one for the rural area. The urban area board will be responsible for the construction of the city and the rural area board for the construction of the countryside.

Armour Alumina Is Temporary Director

Armour Alumina has made the move in the business world. Recently, Donald J. Armstrong, a former director of the company, has been appointed to the position of temporary director. He will be responsible for the company's operations.

Service Housing Aid In Securing Tenants

Students can secure tenancy for student apartments and houses owned by their parents through the Housing Authority. A non-profit foundation formed in basic dwellings for families living in the neighborhood is to be established.

New Film Shows Welding Practice

A new motion picture of modern welding methods has been made available to engineering students by the Lincoln Air Products Co. Entitled "The Hard-Man Understooling Head," it shows the improvements in strength and efficiency made possible by faster pipe line welding.

New Technique Explained

The picture first explains the multi-purpose newpads, which makes possible a setting in time because of more rapid and uniform heating. The technique of manipulating the flame and welding rod is then developed by side-side picture. To show the proper control of the speed, several experimental photographs with a side-light device were used. This method of photographing also makes it possible to show the action of the preheating and welding processes, and the final result is demonstrated.

Film Is Popular

While at first intended for special and developers, the film has been found very popular with other industrial circles. It may be leased for technical meetings by writing to the Lincoln Co., who will furnish further details.
LITERARY DIGEST Conducts Peace Poll in Colleges

Opinions Divided As to American Entrance into League Against Armaments

The University of Minnesota conducted a name-matter poll among its student body to find out what proportion of them favored the United States' entry into the League of Nations, and the results were returned by 1578 student bodies in 1578 college campuses.

The poll was sponsored by the Literary Digest Company in cooperation with the Association of College Editors.

Some questions regarding America's participation in any future war and the League of Nations were asked in an effort to obtain an accurate cross section of the opinion of undergraduates in American schools. The survey was made by the Literary Digest Company in cooperation with the Association of College Editors.

ARMOUR FENCERS DEFEATED BY THE EDGERTON CLUB

Last Wednesday night the Fencing Team held its first official meet with the Edgerton Fencing Club. The conclusion of the match showed Armour to the door end of 11-0 score. E. Tzenos and G. A. Quarles were high points, scoring 11 out of their 16 possible points, E. Tzenos, E. Kusz, and G. Quarles also flung, but with less success.

The judging was done by members of both teams, and was not too leny.

Most Sprung with Michigan State College a week from last Sat-urday, failed to materialize when they signed failed to arrive. However, Coach Foster, instead of three matches of the Northwesten Fencing Club, judged, to participate in a small heat, in which George Keating stole the show.

Most Sprung A tentative official match with the Wright Flying College has been scheduled for Wednesday, March 15. This match will be held at 4-6 o'clock in the Armour gym.

Four new members have been ad-mitted to the Fencing Club. One of these is the son of the team, or senior captain. Positions are still open for any student who wishes the opportunity to compete.

The match with Michigan State was furthered in a bet with the Michigan State which was offered by the Armour Fencers.

Lake Forest Game First Defeat

After being defeated for the first time in the history of the season by the Lake Forest team, Armour proved itself in the ranking of a return game to win by a 42-0 score. In these two games, Captain Charles L. Harkins, back in the lineup after a leg injury, went on as a great defensive player and was the main reason for the victory. In the first Michigan crew, the team played well and brought a rally just before the end of the match.

The Illinois Tennis Club's match that night was a great match, and the Armour team played a great game. The Armour tennis team played well and was on top of their game.

Take a cigarette like CHESTERFIELD

You know I like that cigarette... I like the way it tastes... there's plenty of taste there.

Chesterfield is mild, not strong... and that's another thing I like in a cigarette.

What's more, they Satisfy... and that's what I like a cigarette to do.

I get a lot of pleasure out of Chesterfield... you know I like that cigarette.
