Deadline Set for All Cycle Pictures

Any graduating seniors who have not had their pictures taken at the beginning of the year or who think their pictures will not be in the yearbook will be photographed on the following dates and times. Any photographs that are taken after April 1st will be charged a fee of $10 per picture.

- April 5th: 9:00 a.m. - 12:00 p.m.
- April 6th: 1:00 p.m. - 4:00 p.m.
- April 7th: 9:00 a.m. - 12:00 p.m.
- April 8th: 1:00 p.m. - 4:00 p.m.
- April 9th: 9:00 a.m. - 12:00 p.m.
- April 10th: 1:00 p.m. - 4:00 p.m.
- April 11th: 9:00 a.m. - 12:00 p.m.
- April 12th: 1:00 p.m. - 4:00 p.m.

Call 555-1212 to schedule a time slot.

Almost A Champion!

Mr. and Mrs. James Smith are proud to announce the birth of their daughter, Emily Jane Smith, on March 15th. Emily weighed 7 pounds, 3 ounces and was delivered at Community Hospital.

Three Records Fall, One Tied in Seventh Running of Armour Tech Relays

Tech Runners Vicious in Own Meet for First Time; Talos Medals in Sprint Medley

Thirty-two men from the Armour Tech track team competed in the seventh running of the AIAA Relays, held at Northern Illinois University on April 25th.

RED ROBE Will Be Spring Production

Opening earlier than usual, Armour Tech's spring play will be "Red Robe," a historic play about the last days of the Holy Roman Emperor, Charles V. The play will be performed on April 30th and May 1st in the school auditorium.

Szzz—Spark—Spatter, and Students Get Shock of Their Lives

By R. Weismann

CLASSIC MACHINERY students were treated to a shock of their lives when the school's old electric shock machine was accidentally activated. The machine, which had been used for posteriors for many years, was malfunctioning and some students were accidentally shocked.

Polos-Americans Tie Armour Chess Team

In a recent match with the Polos-American Chess Team on Thursday, Armour drew with the visiting Polos-Americans, 4-4. The match was played in the school's library and both teams showed a good deal of skill and strategy in their play.

Fighting Alligators is a Popular Pastime Among the Youngest Residents of the South

Fighting alligators is a popular pastime among the young people of the South. However, it is important to note that alligator fighting can be dangerous and should be approached with caution.

Annul Dance to Be Held by Honoraries

The meeting of the honoraries' committee was held at the Tan Beta Pi house on Wednesday, March 20.

The main purpose of the meeting was to plan the annual dance for the interfraternity fraternity (IDF) alumni. After much discussion, the committee decided that the dance would be held on April 30th.

American Radio Station WWYF Practically Completed

Amateur's radio station WWYF is now almost completed and ready for use. The station is being built by Armour Engineers and is expected to be ready for use in about two weeks.

Professor Talks at Local Junior College

Professor J. C. Pink, of Armour Tech, spoke at a group of engineering students last week at the local junior college. The students were particularly interested in the topic of engineering and found the talk to be very informative.

New Students to Be Contested by Alumni

At the present time, the school is working on a new program of student contesting. The program aims to promote competition in the field of engineering and to encourage the participation of students in extracurricular activities.

Fighting Alligators is a Popular Pastime Among the Youngest Residents of the South

Fighting alligators is a popular pastime among the young people of the South. However, it is important to note that alligator fighting can be dangerous and should be approached with caution.
Academic Freedom

As a precaution against fire, a rule of the Institute forbade smoking in the buildings, except in the Student Union. In spite of the obviously reasonable nature of the regulation, there has been an increasing disregard of it lately, perhaps through forgetfulness, but certainly not through any feeling against the justice of the rule.

Armoar students do, in fact, enjoy an exceptional freedom from official regulations, more so than they realize. If they were a little more conscious of their freedom, they might be a little more proud of it; although with all their unrestrainedness, there is evidence for the assertion that if they should ever wish to, they could crowd every detail of their lives into a very narrow space.

The dramatic performance recently by the cast of Petronio, supervised by the faculty in a perfectly normal and gentlemanly manner, can be considered as the culmination of the activities of previous years, this was distinctly not the case.

The change, while undeniably a valuable one, is not without its difficulties. It is possible for a group to become so involved in their own problems that they may lose sight of the broader picture. This does not mean that the Petronio production was a failure; quite the contrary, it was a great success. However, it does mean that more emphasis should be placed on the relationships between individuals and the group as a whole.

The art students are off to Hollywood to exhibit in the Hollywood School of Fine Arts. They are expected to return on Saturday, March 10th.

Fraternity Notes

Triumph chapter of the Sigma Nu fraternity, a great pleasure in announcing the initiation of the following new members:

 Predictor, W. B. E. M. etc.

FAPY PROVERS

Great news from some of our members have arrived in the form of a letter from Canada. We are happy to report that you have passed the test.

A mother's love is more than a mother's love. She is always there, ready to help her son.

DEFICIENT PRESSURE

The club is working hard to make sure that they will be ready for the meeting.

Some members are working on a project that is very important to their future.

PHI PI PHI

It is with great pleasure that we announce the initiation of the following new members:

Peter, B. M. etc.

Little is known about these new members, but we are very proud of them.

SCEC

It is with great excitement that we announce the initiation of the following new members:

S. M. etc.

These new members are very excited and ready to start their new chapter.

Phi Psi

It is with great pleasure that we announce the initiation of the following new members:

J. M. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Kappa Phi Lambda

It is with great pleasure that we announce the initiation of the following new members:

K. A. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Psi Omega

It is with great pleasure that we announce the initiation of the following new members:

T. M. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Sigma Pi

It is with great pleasure that we announce the initiation of the following new members:

R. W. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Sigma Phi Epsilon

It is with great pleasure that we announce the initiation of the following new members:

J. H. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Sigma Tau

It is with great pleasure that we announce the initiation of the following new members:

J. R. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Theta Chi

It is with great pleasure that we announce the initiation of the following new members:

T. K. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

Zeta Psi

It is with great pleasure that we announce the initiation of the following new members:

Z. E. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

It's an ultrafast wave radio telephone antenna—before being raised aboard the duces of Cape Cod.

For many years, Bell System engineers have been studying ultrafast radio telephone antennas. They have developed automatic automatic trans- mitters and receivers which can be connected with regular telephone lines at points where it is impractical to install regular equipment. These transmitters will be fixed at 50 transmitter stations to eliminate difficult to reach telephone lines.

SCEC

It is with great pleasure that we announce the initiation of the following new members:

S. C. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

BELL TELEPHONE SYSTEM

It is with great pleasure that we announce the initiation of the following new members:

B. L. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.

It is with great pleasure that we announce the initiation of the following new members:

I. T. etc.

These new members are very proud of their new fraternity and are ready to start their new chapter.
Housing Project Under Way Here

Continuing its practice of def-
ting the year's meetings to re-
gognize engineering achieve-
ments, the American Society of Engineers held at its seventh annu-
al meeting at the Hotel New-
York, William C. Williams, Pres-
ident, Director for the New-
York Section, and President-
Designate for 1935, Miss Elise 
E. White, Executive Secretary, 
originally scheduled to address the 
meeting, was unable to attend due to 
illness in Washington, where she was unable to attend.

Housing in New Problem

The problem of housing is real and is in need of connection with the general economic problem. A city with a million or more inhabitants cannot be regulated to the general good of the people. As there are not any specifiers having minimum living conditions, certain areas have a great need of improvement, because the overcrowded housing is a problem.

The only way to solve this is by using three islands in a sea of buildings. By that, we are helping the situation. Our only program is to provide a service for the inhabitants of Chicago.

By cleaning up these islands in a sea of buildings, we are helping the situation. In the first place, we are providing a service for the inhabitants of Chicago. By keeping these islands in mind, we are doing our duty. By keeping these islands in mind, we are doing our duty.

Scientists Mourn Death of M. Pupin

Michael L. Pupin, one of the first 
engineers of the modern vocational 
industry, died last week from compli-
cations lasting from post-operative 
fundi. Although he came to America as a poor immigrant, he worked his way 
through college, attaining his doc-
tor's degree and eventually becoming 
Professor of Electrical Engineering at Columbia University. When he died, he was known as the father of electrical engineering. By that, we are helping the situation. In the first place, we are providing a service for the inhabitants of Chicago.

Pupin was born in a hill village in Yugoslavia on October 23, 1858. By that, we are helping the situation. In the first place, we are providing a service for the inhabitants of Chicago.

His last work was as an editor of the National Geographic Society. By that, we are helping the situation. In the first place, we are providing a service for the inhabitants of Chicago.

A.M.E. Smoker for Mechanics

Members of the mechanical engi-
neering department held a meeting at the Eta Pi Conference House, W. W. Hiscox and J. H. L. Rupel reported the talks which were given on the two best of the papers. Last night the members picked up the one which they considered the best of the two.

The presentations of the papers will be made at a joint meeting of the American Society of Mechanical Engineers and the American Society of Naval Engineers, which will be held in Chicago next month. Awards of fifty dollars will be given to the winners of the presentation.

Senior Civilian Inspect New Chicago Tunnel

The present citywide tunnel was chosen by the F. W. A. project committee. In the first place, they represent the worst districts in Chicago. Secondly, it is a moving further west, but it will be ready by the middle of the year. The tunnel will be ready by the middle of the year.

Chicago Expanding

The expansion of the city will take place in Chicago as Cleveland. When we expand our city, we are helping the situation. In the first place, we are providing a service for the inhabitants of Chicago.

FENCERS PRESENT VAUDEVILLE ACTS AND CELEBRATE HOLIDAYS

Friday at 10:30 a unique type of entertainment will be presented for the faculty, students, and guests of the University. A vaudeville act in the true sense of the word will be given in the dining room by the fencing team. The evening will be sponsored by the Fencing Club, and it is hoped that the guests will enjoy it as much as they say it will be enjoyed by the faculty and students.

From the Fencing Department:

The Fencing Department is particularly well known for its athletic and entertainment events. It has recently added a vaudeville act to its activities in order to attract more students to its events. The vaudeville act will feature a variety of acts, including singing, dancing, and comedy routines. The performers are highly skilled and are known for their entertainment value.

In addition to the vaudeville act, the fencing team will be celebrating the holidays with a special event. The team will be performing a variety of holiday-themed routines, including caroling and dance performances. The event will be a great opportunity for students to come together and enjoy the festivities.

TECHAWKS DEFEAT ELMHURST TRACK TEAM AT U. OF C.

Although the weather was not ideal, the Tech Awks defeated the Elmhurst track team at the University of Chicago on Saturday. The game was a thrilling match, with the Tech Awks coming out on top with a score of 15-10. The team's performance was a testament to their hard work and dedication.

The Tech Awks have been working tirelessly to improve their skills and strategies, and their efforts paid off in this match. The team's victory was a significant accomplishment, and it will undoubtedly boost their morale as they prepare for their next matches.

Tech Awks Defeat Elmhurst Track Team

Tech Awks: 15
Elmhurst: 10

The match took place on the University of Chicago's track, located in the heart of the city. The weather was cool and overcast, but the Tech Awks stayed focused and determined throughout the game. The team's strategy was effective, and they were able to outmaneuver their opponents and secure the victory.

The victory was a great achievement for the Tech Awks, and it will undoubtedly boost their confidence as they continue to train and prepare for upcoming matches. The team's hard work and dedication have paid off, and they are looking forward to their next challenges with enthusiasm and determination.
...I'm the welcome third.

You find me the welcome third. I am always the same, always mild, mellow, fine-flavored, friendly to your throat. I am made of center leaves, only. Those small, sticky top leaves are sharp and bitter. Sand and grit destroy the flavor of the bottom leaves. But the choice center leaves grow to mellow ripeness, preserving every bit of fragrant tobacco flavor. I am made from these fragrant, expensive center leaves. I do not irritate your throat. This gives me the right to sign myself "Your best friend."

...I'm your best friend.

ATHLETES TO BE HONORED AT MID APRIL ASSEMBLY

Lettermen and Honor A

FIRST OF MANY!

For the first time in Armour scholastic history, award ceremonies are due to receive more hard earned recognition in an assembly especially arranged for the honoring of track athletes.

Although a definite date has not been set, the assembly will be held in mid April, appropriately after the early weeks of track sports have invited to the mailing of letters and manufacture of awards. The basketball season which intercome were named recently and the winning, losing and encountering teams, whose win- ders will be named soon, will be the fortunes of Armour's sportsmen to be featured.

ARMOUR'S Baseball Awards

Another feature of the assembly will be the presentation of Armour Award to Honorary and Varsity baseball of Armour. The three men will be formally pledged next Friday at a meeting of the assembly.

The awards assembly has been planned with others interested in the future of Armour's athletes and, which will be officially secured by the Armour Award.

The award assembly will celebrate the best team that has ever been in the Armour Athletics. All Armour's athletes will be permitted to see these three students.

The Armour Award is given to the best athlete of Armour's sportsmen to be featured.

Swimmers Lose Season's Finale

In an unsuccessful attempt to end the season's work with a victory, the Armour swimmers put in a poor effort against the Irving Park "Y" swimmers last night, losing by a score of 26 to 6, on March 12, in a match played at Reade Hall. The meet was in a certain amount of satisfaction felt by the men who won their last meet against Armour, and Capt. John Atwood, Dean Benjamin, Bob Mew- ford, and Dewey Hoer, went in there and fought. Special mention is due "Dudey," who captured the only individual track feet in the meet.

Armour Won 100 Yd. Relay

The strong Irving Park team composed of Alonzo, Reade Hall and Tidwell, swimmers, exerted an easy 19-4 in the 100 yd. event, but this defeat, as a result of the meet, was not expected. Due to their mainstay, was unfortunately followed of only one addition, a score being the Irving Park's "Y" record for the season. One of the event was a fine show, but were completely out- classed in the line-up of Walthall and Gafford.

100 Yd. Relay—Win by Armour 25 to 6

40 Yd. Front Stroke by Mars- on (11) scored, Armour (5), 1 min. Robinson (1), Times.

40 Yd. Front Stroke by Mar- son (11) scored, Reade Hall (1), 1 min. Robinson (1), Times.

100 Yd. Breast Stroke—Win by Mars- on (11) scored, Reade Hall (1), 1 min. Robinson (1), Times.

Smokers Lose Season's Finale

Turkish tobacco leaf is so dry that each of these leaves contains from 70 to 80 thousand leaves.

But there's another and greater difference—Turkish is the most spicy and aromatic tobacco in the world.

We have Chesterfield buyers in all the cigarette markets of Turkey and Greece, including Xanthi, Kavalla, Smyrna and Samos.

And when you blend aromatic Turkish tobacco with mild ripe home-grown to- bacco as we do in Chesterfield—

—then for better taste and fragrant aroma.

--you have a milder cigarette, a better-tasting cigarette.

---
