By Paul Schodl

THE LAST WEEK has again given many students a chance to solve the problems of the social scene. The organizers of the events were successful in attracting a large number of students to the various activities. The social scene has been lively and interesting, providing a welcome break from the academic pressures of the week.

OFCOURSE, the American public knows the changes are underway, that they are getting plans for the last days of the year. Plans are being made for the social scene, and it is expected there will be a flurry of activity in the coming days, with the sole exception of the one boy who was not invited to the social scene.

EVERY ONE realizes that aviation development has military potential. The only way to eliminate it is to eliminate the enemy. The only way to do this is to make sure there is no possibility for the enemy to develop such weapons. Through training programs and cooperation with the international community, we can minimize the risk of such problems. There is no exact timeline for the development of the necessary programs. The United States must be ready to act on any signs of aggression from any direction.

THERE IS NO conflict between the military and the civilian community. The United States wants to provide the means to protect the civilian population. The government is working toward a policy that balances the need for security with the requirement of free speech and the protection of human rights.

Public Policy Classes to Hear Mr. H. T. Hill

Mr. Harvey T. Hill, executive director of the American Institute of Economics, will address the class in Public Policy Classes to discuss the operations and activities in the area of economics. Mr. Hill will be assisted by Mr. John Smith, the class coordinator, who will continue the conversation.

Hatchets Talks on Social Order

On Tuesday afternoon, March 29, President Schodl will deliver a lecture on "The Social Order" in the Student Center. The lecture will be followed by a question-and-answer session.

Senior Chemicals Visit Act Plant

Another interesting note was that several senior chemicals, accompanied by their professors, visited the chemical plant. The students were given an opportunity to see the plant in operation, and they were able to observe the various processes involved in the production of chemicals.

Promotions Awarded Two New Alumni

Two alumni, David L. Peterson and Gordon A. Groves, were recently promoted. Mr. Peterson is the assistant secretary of the Institute of Neurology, and he has been appointed to the faculty of the University of Chicago.

Peterson started his career as a research assistant at the Institute of Neurology. In 1923, he joined the staff of the Department of Psychology at the University of Chicago, and he has since become a leading figure in the field of neurology.

Spring Concert May Be Given Downtown

This year the Armour Tech Music Festival Committee has decided to hold their annual concert downtown. The concert will be held on Friday, May 2, at 8:00 p.m. in the renovated Auditorium.

The concert will feature a variety of musical groups, including the Armour Tech Band, the Armour Tech Chorus, and the Armour Tech Choir.

The concert will be free to the public, and donations will be accepted to support the activities of the Music Department.

Scherger to Speak at Chicago W.S.S.

On Thursday, March 30, at 10:00 a.m., Mr. Schodl will deliver a lecture on "The Social Order" in the Student Center. The lecture will be followed by a question-and-answer session.

Gage L. Schodl will deliver the lecture on "The Social Order." All students are encouraged to attend the lecture to learn more about the various aspects of the social order.

Report Received on Physics Exams

According to a preliminary report, the physics exams given for the spring semester were not as difficult as expected. The exam results show a significant improvement in student performance compared to previous years.

The exam was designed to test the students' understanding of the fundamental principles of physics. The results show that the students have a good grasp of the fundamental concepts, and they are able to apply these concepts to solve problems.

Marasofi Elect to Lead Tech Rifle Club

New officers were elected at the meeting of the Armour Tech Rifle Club last Wednesday, March 29. The new officers are: President, J. H. Brown; Vice President, R. S. Turner; Secretary, R. M. Black; and Treasurer, J. E. Green.

The club has been active in the past, and the new officers are looking forward to continuing the tradition of excellence.

Location chosen for Interdisciplinary Council

In order to further the participation of alumni, the Interdisciplinary Council has selected the site for the interdisciplinary center to be held at the Armour Tech Rifle Club.

The council has also selected the site for the interdisciplinary center to be held at the Armour Tech Rifle Club.

“The Slipstick” - Closer to “The Slipstick” is the Sopwith 1½ Strutter, but it may be a closer copy than the Sopwith 1½ in its place on the flight deck of an aircraft carrier. But the Sopwith 1½ is not entirely confined to the flight deck; it is also used for training purposes.

A Good Crop

A young man was covering the作物 at his farm, and he said, “It’s been a good year for crops.” “Yes, in fact,” said his wife, “it’s the best year we’ve had in years.”

The Simple Life

Simplicity is the keynote of the life of a farmer. “You know how simple life is on the farm,” said the farmer to his wife. “It’s just you, me, the children, and the animals.”

Positive Feeling

It is easy to identify the voice of the farmer in the early morning hours. “Good morning,” he says, “I feel positive today.”

Triad

Lexington, Virginia - A meeting of farmers was held last night in the state capital. The meeting was attended by farmers from all parts of the state, and it was a success. The farmers discussed various topics, including the need for better roads and improved irrigation systems. The meeting ended with a vote of thanks to the organizers.

OPERA GHETTO

Friday, March 12, 1954 - The opera company of the Metropolitan Opera House performed at the State University of New York, Albany. The opera was Medea, by Rossini. The performance was well received by the audience, and the cast included famous singers in leading roles. The opera was very well done, and it received enthusiastic applause from the audience.

ROLO DELTA FIG.

The homecoming party held on Saturday, March 13, will be remembered for the annual Delta Phi event. The event was held in the state capital and was attended by many students from the university. The party included a variety of activities, including music, dancing, and a Midnight Mass. The event was a success, and the students enjoyed themselves.

færismar "Hildur" WASSONAY - showed off his capering and pranced that when he began to look for that Spite was just ahead of the curve.

Mr. Reed generally reaches the githears, they're his last. Last week he made the rounds and found the boys in a very bad condition about the forthcoming dinner dance. The fact that it was the first day of Spring might legitimate an excuse in terms of their feeling from Research. If they thought they could...

A particularly silent in Lind MESTON's Riding Club was caused by a lot of excitement. To make it perfectly clear and remove all misunderstandings, Lind McCaffrey is going to perform at the annual spring dance, which is to be held on Saturday, April 1st. It was just about that time that Mrs. REED, who was the hostess, received the invitation to the event. When she was asked, "What are you going to do for the program?"

Another dance is in the making, fellow. And where we will be at that time is not yet decided. As a matter of fact, we've got no rings around keeping it through the right.

I'm sure the entire affair will be handled with the utmost care, and that we will have a wonderful evening. The event will take place at the school auditorium, and we are looking forward to seeing all our friends there.
Tunnel Inspected by Senior Civils

Donated State lawn university football field are used by the Black Shoe football team at Ring Day.

Edna cott's footnotes popular with students at the Idaho Agricultural college at College, Idaho. The footnote is called "noots." Students at Duquesne University are required to have their driving permits before they can drive on automobiles about the campus. A driving permit is issued only when the car is absolutely necessary. Seventy percent permits were issued for use during the fall semester. "Active waste of the time of the student," stated Donn L. H. Derrick, supervisor of the permits.

The first American institution of higher learning to offer a course in medical instruction was Williams University. The first lecture in this course were given in Nov. 1917.

Dr. L. F. Lunt, director of the Harvard university undergraduate station, has given to his sons that the earth's crust is very old, contrary to all ordinary conceptions.

Team members consisting of 20,000 will be collected from the University of Pennsylvania university fraternity and sorority systems during the next five years to destroy the cost of the new women's dormitory plant built by the city. Four of these students are expected to be the expected number of students.

Armour Alumnae Plays in Tennis Exhibitions

In addition to having graduates who have become successful in the business world, Armour also has alumni who have become prominent in the field of athletics. On Saturday afternoon, George Joss and H. S. W. Hart, together with Vincent Davies, nationally known tennis player, and with Harold Hallowell, the national professional, performed in the tournament sponsored by Armour College and Armour College Town and Country Club.

The match was held at the Court of Commerce as one of the American Olympic fund parties and the proceeds are to be given to the American Olympic fund.

Averages

Largely themselves, the city underwrote the big project and saved approximately $16,000. In addition, the mortgaged and insured the project at $20,000. At the present time all the labor is done and the property accepted in the form of a mortgage on the property, which was $20,000.

The name of the plot is "Tennis," and the name of the property is "Tennis," and the name of the property is "Tennis," and the name of the property is "Tennis," and the name of the property is "Tennis," and the name of the property is "Tennis."
