CLARK HANLON has his troubles. While stargazing under normal conditions, the 200-inch four-footed instrument, being coaxed into a position, rearranged and built up and called out an HINCKLEY "S Multiples minutes to the second, and then ran and howled and howled and howled until he couldn't do it right up to the last inch. He was a little trinity. As if in a dream, he moved his way along, and then struck through that trinity; and then he was able to and howled and howled.

Dworse, "Walter, there is a button in my shop." "What is it now?" was the query. "It's a button," said Walter, "and it's the one you've got to fix." And thereupon the button was found and put in place by Walter.

"The Corner"

I would like to express my sympathy to the parents of the Corner and its contributors. I am a feature of Junior Week, and I believe that they should remember what they are doing to this student body, who has the Corner as the basis of the community. The Corner is the best of the features of the community, and the Corner of the community will be remembered for a lifetime.

Major Sports and Major Awards

It has been the custom at Armour to restrict the awarding of major letters to men in major sports or to outstanding seniors on minor teams who had previously won awards. Now it is obvious that basketball and football merit the recognition of the hearts of fans and are recognized as major sports without official designation. True, though not as popular—"watchably"—seems to merit the higher classification and recently swimming has been added to the list of major sports.

The wrestling team has just closed a very successful season. The same group is destined to return intact for competition next year, and several of the members are competing—by the confession of a Big Ten coach. The tennis team, raw practicing, is composed entirely of lettermen and these men, with a fine record behind them, are likely due for a signal year.

Recently a new sports has appeared on Armour's activity pages. Though many of us might not realize it, the fencing team is composed of men that have starred in this endeavor before coming to Armour, and who are destined in the coming year, to meet all comers on an even basis.

Here we have a situation. Full schedule minor sports teams capable of meeting groups from recognized schools with as much and, more likely, more success than our so-called "major" teams do. However, Conference schools do not classify these teams as "minor" sports.

What might be done? Elevate these athletics to major standing. Coach Wetman can recall when boxing was the minor sport—this year, no team. The A.T.A.A. had something upon which to base their elevating swimming's standing. The swimming team has a poor reason this year and we cannot even dare to consider such a possibility!

The "major" classification would be a thoughtless error. The cyclic shift of strength of our teams breeds the present award system distinctly unfair.

If we cannot "major" the "minor" sports, deserving men, that bring honor to Armour in the sport's field, are denied a merited reward. The integrity of the "major" A.T.A.A. must be preserved. But if deserving men appear in lesser teams, let them be honored; and if lesser men compose the "major" teams, they must be denied.

**Armour Natmen Work Out On Indoor Courts**

The Tech Natmen are beginning to warm up and from the signs of activity on the weightroom coaches they are working hard. Coach Larson and Coach Fackler are coaching the Tech Natmen; last year's tournament winners, Natty Bullard, his roommate, Bob Purne, Bob Schaal, George Quandt, J. E. Hite, and several other Techs who have not yet come over for practice. The interim team will consist of six men, and the first meet of the season is scheduled to take place over the last week of April. Tennis was a rather successful sport last year, but many present may be trying out for positions on the team and should be encouraged. We are sure that they may get to condition or even get a partner.

Exactly one year, 2,000 hours, and 258 gallons of water were employed in a Tech Natmen practice melee held at Michigan State College.
