Basic Training with Orientation Counselors

Christine Laub
Submission

Back to school is never fun, especially after a long relaxing summer vacation, but don’t be surprised if you happen to meet an ever-gaily electrically charged, and downright silly group of students when you arrive on campus. These students have been looking forward to this day since last semester. Sound crazy? Maybe not; just call them OC or Orientation Counselors.

This 32-person group represents the diverse population on IIT campus, most of whom have leadership positions in other student organizations on campus. Selected last Spring through an extensive application process, these students are charged with helping new students transition to campus life at IIT. It is not as easy a task as it may seem. Try being positive and happy for a week when you have literally worked from sunset to sundown everyday.

The 32 Orientation Counselors of 2002 met on August 14th to prepare for Orientation Week. Training ran for three days and included representatives from several university units and departments who made sure the OCs learned what they needed to know. To help them bond, training also involved team building and leadership exercises.

The Orientation theme this year is Basic Training. The theme mirrors the OC’s mission of helping and training new students on the required basics to be prepared for school. OC’s can learn how to set up e-mail accounts and get to know the school better. A session by IIT’s Counseling Center, called Transitions, helps students understand what college life is really like. There are also sessions about Greek life and other student organizations. On Tuesday, all new students are invited to join faculty at an informal luncheon and to participate in a fun and competitive Lego design contest.

Orientation Week is designed to help new students feel comfortable and well prepared for their first semester at IIT. With all the sessions and activities, they should easily make friends and be ready for life on their own away from home. With an enthusiastic group like the OC’s and a supportive Student Affairs office, this year’s Orientation Week will be memorable for all those involved.

Financial Aid

The Financial Aid Office would like to extend a warm welcome to all of our new students. This article is written to assist students with the financial aid process at IIT and to explain some of the services we provide. I hope the information contained in this article will be a resource guide for you as you navigate the financial aid process. For your convenience, we have assigned students by last name to the staff members listed below. We have found that this model provides consistency between the student and counselor thereby creating a more personalized and positive experience.

Daniel Davis david@iit.edu
AG
Sirena Rivers rivers@iit.edu
JM
Brian Hudson hudson@iit.edu
N-S
Aida Asencio-Pinto asencio@iit.edu

The Financial Aid Office does not require that a student make an appointment to speak with a staff member. If you would like to stop by the office between classes or during the lunch hour, you can visit us at your convenience. Additionally, you can send an email to our general office at financialaid@iit.edu or to your respective financial aid counselor and expect to receive a response within 24 hours.

Students who are interested in applying for financial aid should utilize the Free Application for Student Aid, more commonly called the FAFSA. This application is the initial source for consideration to receive all forms of financial aid available at IIT. The FAFSA may be obtained in the Financial Aid Office and can be submitted via paper or electronically through FAFSA On the Web. If you wish to apply for financial aid and have not already done so, you can stop by the Financial Aid Office and we will be happy to assist you.
Student Security: A Message from Public Safety

As we start a new school year, we have an opportunity to remind you that you can take a proactive approach to your own safety by following some common sense guidelines. The following information appears in a new brochure that is being distributed to new students. These easy to follow tips will go a long way to reduce the chance you could become a victim of crime.

When moving about the campus, or anywhere for that matter, safety is something we usually don't talk about with any great deal of frequency. Therefore, take a common sense approach when walking or off campus.

Plan your route in advance and use well-traveled routes. Avoid dark or deserted areas. Don't take short cuts through alleys, parks or vacant lots, especially at night.

Avoid being maneuvered into alleyways, doorways, or cars. Be aware of those around you and if you think you are being followed, cross the street, change direction, or go to a public place where others are present.

Never accept a ride or get too close to a car if someone is asking for directions.

Don't be a target.

Watch your belongings and always keep moving. Don't wear headphones or chat on the phone.

Try to walk in pairs during the day and alone at night. Always have a companion with you.

Use well-lighted walkways, keep your purse under your arm and wallet in your back pocket.

Don't carry too many packages.

Keep one hand free. Always have your keys handy. Carry enough cash to call a cab if you are in an unfamiliar area or neighborhood.

In case of danger, yell "get away", throw your books or anything you have in your hand, and run to the nearest public place where other people are.

Don't stand and fight. It is not worth the possibility of getting hurt.

If you are physically attacked, kick, punch, pull hair, bite, poke eyes, yell and scream. The point is to either get away FAST or draw attention to yourself.

If you are on the Main Campus, go to the nearest Yellow Emergency Telephone or call 808-6363. If you are off campus, call the police by dialing 911.

Taking Public Transportation is also a concern. If you are planning on using these services, you can be safe if you take a common sense approach. Check the driver's license of the bus driver or train conductor.

Avoid isolated bus or train stops.

Don't be a target.

Don't fall asleep. Keep your belongings on your lap. Be prepared and know the schedules and the route you are taking.

Travel with friends.

Driving around Chicago and seeing the sights is very enjoyable. However, when doing so you should take a common sense approach to safety. Drive with your doors locked and windows up. Know where you are going. Park in well lit well traveled areas. Use a steering wheel lock or alarm.

Don't be a target.

Keep your packages out of view. Don't keep things like purses or briefcases on the passenger seat. Check your front and back seat before you get in the car.

Don't pick up hitch-hikers.

If a car bumps you from behind, be helpful. Stay in your car and wait for the other person to get out of their car. If you sense suspicious behavior, pull away and call the police immediately.

If your car breaks down, raise the hood and if possible, stay inside your car. If someone offers to help, do not open your window or door. Ask them to call the police or roadside assistance for you. Do not accept a ride.

Carry a cellular telephone.

Whether you live on campus or off, you can protect yourself and where you live if you take a common sense approach.

Keep your doors and windows locked, even if you are at home. Don't admit strangers into your home or apartment building. Know who you are letting in.

Be alert to strangers loitering around the building. If you see someone acting suspiciously, call the Public Safety Department.

Get to know your roommates and their friends. Never attach your name and address or identification card to your key ring.

Remain these important numbers to contact Public Safety.

Main Campus
Emergency (312-808-6363)
Non-Emergency (312-808-6300)
Downtown Campus (Kent)
Emergencies (312-906-5030)
Rice Campus
Emergency (312-808-6300)
Moffett Campus
Emergency (773-563-6501)

We hope these reminders are helpful to you and ask that anyone you feel in need Public Safety's assistance, or have any questions, you will not hesitate to call. On behalf of the entire Public Safety staff, we look forward to sharing another wonderful year together here at the Illinois Institute of Technology.

Financial Aid continued from page 1

The University of Illinois at Urbana-Champaign offers a variety of financial aid options for students. This includes grants, loans, scholarships, and work-study programs. Students are encouraged to apply for these programs to help offset the cost of tuition and fees. The deadline to submit financial aid applications for the 2022-2023 academic year is April 15th. If you have any questions or need assistance, please contact the Office of Student Financial Aid.

Federal Perkins Loan:
This loan is awarded to students who demonstrate financial need. It can be used to pay tuition and fees, as well as other educational expenses. To apply, students should contact the Office of Student Financial Aid.

Federal Work-Study Program:
This program provides part-time employment for undergraduate students who demonstrate financial need. Students can earn up to $10,000 per year, and this amount can be used to pay tuition and fees. To apply, students should contact the Office of Student Financial Aid.

State Grants:
State grants are available to Illinois residents who meet certain eligibility criteria. These grants do not need to be repaid and can be used to pay tuition and fees. To apply, students should submit the FAFSA and contact the Office of Student Financial Aid.

Merit Based Scholarships:
Merit based scholarships are awarded to students based on their academic performance. These scholarships can be used to pay tuition and fees, as well as other educational expenses. To apply, students should submit their academic transcripts and contact the Office of Student Financial Aid.

Library:
Visit your local library and ask for help in researching scholarship opportunities.

Hilltop Tower:
Find out if any professional or social organizations have a chapter in your city. Call them to see if they offer scholarships nationally and locally.

Publications:
The Alumni Association is proud to offer a variety of publications that highlight the achievements of Hilltop Tower.

Peterson's Guide:
Don't Miss Out! The Ambitious Student's Guide to Financial Aid, by Robert Leider and Anna Leider.

McGraw-Hill Publishing Company:
The College Money Handbook.
Features

Illinois Tech's CTA U-PASS Program

What is the CTA U-PASS?

The CTA U-PASS is a transit pass that students can use for unlimited rides anywhere on the CTA (Chicago Transit Authority) system. The CTA U-PASS is valid on CTA-operated bus and rail lines all day during service operation hours, seven days per week. The U-Pass is also valid for CTA Paratransit Special Services through RTA. U-Pass replaces cash for all CTA fares—no cash is needed and it does not require a transfer or surcharge. The U-Pass is valid for travel on PACE and suburban buses or Metra Commuter trains.

The U-Pass is valid August 26, 2002 through December 15, 2002. For CTA maps and schedules, visit the CTA website at http://www.transitchicago.com/

How will I be charged?

All Full-time Undergraduate students must provide a credit card number for a credit card hold of $50.00, to help cover the cost of lost or stolen U-Pass. Once you have paid the $50.00, you will be issued a U-Pass. If you lose your U-Pass, you must pay $50.00 to replace it.

Failure to provide the credit card number will result in your inability to purchase a U-Pass. You will be required to provide a credit card number every time you purchase a U-Pass.

Your U-Pass is valid for all CTA rail and bus routes, as well as Metra and Pace. You may use your U-Pass to ride on any CTA rail or bus route, or any Pace or Metra route.

How long is the U-Pass valid?

The U-Pass is valid August 26, 2002 through December 15, 2002. The U-Pass is valid for all CTA rail and bus routes, as well as Metra and Pace. You may use your U-Pass to ride on any CTA rail or bus route, or any Pace or Metra route.

What if my U-Pass becomes damaged or lost?

If your U-Pass becomes damaged or lost, you must purchase a replacement pass. The replacement pass will be valid for the remaining time period of your original pass. You will be charged $50.00 to replace your lost or stolen U-Pass. Replacement passes can be purchased at any CTA transit center or through the CTA website.

What if I lose my U-Pass or it is stolen?

You will need to go to CTA Headquarters at the Merchandise Mart (7th floor, 350 N. Wells) and apply for a replacement pass between the hours of 8am-4pm, Monday-Friday. The student must bring their damaged U-Pass and valid Student ID. CTA will issue a temporary Transit Card valued at $10.00. No fee will be charged. CTA will process the pass within 5 business days and will send the replacement pass to the Office of Student Affairs at 122 Wishnick Hall, where you must come to pick up the replacement pass.

Who can I call with questions or comments?

If you have questions or comments concerning your U-Pass, call the CTA U-Pass Hotline at 312-664-7200, ext.3051, Monday-Friday, 8am-4pm. At any other time, please leave a voicemail message. You may also send an e-mail to newtonmil@iit.edu

Start your own Fraternity? Zeta Beta Tau is looking for members to start a new chapter. If interested, send an email to zbgst.tw@gmail.com.

The International Center: Helping facilitate an international living and learning environment at IIT.

In addition to working with students, the International Center assists academic and non-academic departments who are interested in hiring international faculty and staff. There are currently over 50 international students employed at IIT, and they are here on temporary work assignments.

In addition to working with the international student, faculty and staff populations at IIT, the International Center advises IIT students who are interested in studying abroad (see below). For more information about the International Center, please feel free to peruse the website www.iit.edu/INTERNAT or call 337-3680.

Study Abroad It's Never Too Early to Plan: IIT offers opportunities for students, both undergraduate and graduate, to study abroad in another country. Studying abroad is a great learning experience and can help students in their studies and careers by making them aware of the ever-changing world. It is an opportunity for IIT students to take IIT approved courses and get IIT credit while exploring a different cultural environment.

IIT has exchange agreements with several universities in Europe, for example, INSIA in Lyon, France, Robert Gordon University in Aberdeen, Scotland, KTH in Stockholm, Sweden, and University of Oviedo, Spain. IIT has also recently joined the Global 53 program, Global Engineering Education Exchange, which provides engineering students with a variety of countries and provides information about initial adjustment issues such as finding a place to live, establishing a bank account, and getting a U.S. social security number. This Fall semester, the International Center is expecting to greet anywhere between 400-500 new students.

During the year, the International Center advises the 2,000 international students at IIT on academic, cultural, and other personal issues, as well as immigration-related questions. The Center also coordinates workshops for students on a variety of topics such as employment options, assistance in filling income taxes, and English conversation groups. The annual International Fest in October is a program organized by the International Center and the International Student's Organization. This day-long festival is one of the highlights of the year—a program that all students will not want to miss!

Student Leadership Committee is Back... With a Bold, New Attitude

A college education at IIT's IITech is the ticket to the future, and one great way to make the best of your education is to join an organization that can bring about changes in the university. Student Leadership Council is the student government at IIT, where students can make extraordinary differences in issues concerning the university and its policy.

Student Leadership Committee has numerous responsibilities, including hosting Leadership Day in the fall and Pride Day in the spring. SLC also honored exemplary students with Of-The-Month awards to recognize outstanding service to the campus community. Student leaders are also invited to meetings in order to discuss pressing issues, mainly from the organization to bridge the gap between the student body and the administration. Past issues have included student safety, parking permits, and student schedules.

SLC's subcommittee, Finance Board, is responsible for allocating money from the student activity fund to student organizations for special events as well as operating budgets. The money has been used to bring big name musical acts to IIT, support 33rd Street productions, as well as to host countless events, including the Gala in the spring and several formal dances throughout the year.

This year, SLC is making a big comeback with a new, completely professional attitude and an executive board determined to make SLC productive and hold a respectable outlook. Students can expect to associate their roles as voting members as an important and worthwhile experience this year.

One of the biggest changes to take place this year will be for SLC to become financially savvy. This is going to occur mainly from the entire executive board attending finance board meetings on the off-weeks starting this fall. Chair Matt Hurt explains, "SLC and Finance Board have made a commitment to each other to become more involved and interested in each other's doings. SLC Executive Board will rotate attending every single FB meeting, so that in the event that a FB decision is appealed, our SLC board will have a first-hand experience of the situation, not biased by FB or the student organization appealing FB's decision."

In all of SLC's years at Illinois Tech, there has never been a year where the executive board has needed any Finance Board hearings, other than last year's treasurer. Matt adds, "in order to have more productive meetings, SLC Executive Board and Finance Board will work together to have productive meetings with us. Also, I expect that the voting members will anticipate the possibility of using SLC to do productive things on campus, and will present us with hosting worthwhile challenges."

Another big change to take place this year is the voting procedure, which will start in the fall. Members attending meeting will have to exchange their here at Illinois Tech for a voting card while non-members' IDs will be used as proof of attendance. The executive council will take roll from the board list and then file them alphabetically for easy pick up at the end of the meeting.

This procedure will require all voting members and those who wish to gain voting status to remain throughout the entire meeting. If a person is to leave for any reason, other than one excused by the chair, their votes will not be counted as present at that evening's meeting. Vice Chair Dennis Anziano shared his thoughts, "This is an effort to have a more informed and responsible voting student body. The voting procedure is just one of the first steps SLC is taking towards making the student government on campus as important as it should be."

Other SLC officers include Vice Chair Internal Pat O'Leary, Secretary Scott Waczkaukas and Treasurer Dylan Easley. SLC Membership is open to all interested undergraduate students and meetings are held biweekly on Tuesday nights at 9:15 pm in the E-I Auditorium with food and drinks provided. The first meeting of this year will be on August 27.
Ten Things to do in Chicago

SAM PILONY
TechNews Writer

Museums
If you are looking for an entertaining, yet education way to spend your day, look no further than Chicago's wide selection of museums. Found in the Museum Campus (Green or Red line to Roosevelt), the Adler Planetarium, the Field Museum of Natural History, and the John G. Shedd Aquarium are great places to start. The Art Institute of Chicago (Green line to Adams/Wabash) and the Museum of Science and Industry (Green line to Garfield) are also popular for their many (amazing) exhibits. Known for their quality and quantity, one can easily devote an entire day to any one of these museums. Look for certain days of the week that offer free admission.

Sports
With a work stoppage in baseball looming and the Bears playing at Champaign, the outlook for the Chicago sports fan may look grim. But don’t despair, the Bulls and the Black Hawks provide plenty of affordable entertainment at the United Center (Blue line to Medical Center). It also may be a good time to catch a baseball game at historic Wrigley Field (Red line to Addison), or nearby Comiskey Park while you still can.

Shopping
Chicago also has plenty of shopping for all types of spenders. The Magnificent Mile runs along Michigan Avenue from Oak Street to the Chicago River. Here one can find upscale shopping including many famous designers. For Downtown Loop shopping check out the newly renovated, original Marshall Fields along State Street. Finally, Navy Pier offers not only shopping, but entertainment and fine dining as well. Finish off a day at Navy Pier with an IMAX movie or a trip to the Beer Gardens.

Parks and Gardens
Just because you live in a big city, it doesn’t mean you can’t enjoy the great outdoors. With over 500 parks in the Chicago Park District, nature enthusiasts can enjoy the scenic views, historic communities, and miles of lakeshore. For a truly breathtaking experience, take a trip to the Chicago Botanical Garden (25 miles North of Chicago on Lake Cook Road, off of Edens Expwy). This 385-acre living museum is open year round and admission is free. Parking is $5 to $6.

Zoo
Lincoln Park Zoo is a 35-acre zoo located in downtown Chicago. It has a complete list of animals and has activities and exhibits in any time of the year. Enjoy lunch at the new Park Place Cafe or take a paddleboat ride through the trees of the zoo. The admission is always free and the zoo is easily accessed by CTA Bus #151.

Lakefront
With 33 miles of lakefront, Chicago is a great place to hang out by the water. Take advantage of the hot Chicago weather by taking a dip in one of Chicago’s 28 beaches. Check www.chicagolifeguardservice.com for a complete list of beaches. Biking, rollerblading, or jogging along the lakefront paths are also great and scenic ways to help get in shape.

Festivals
One of the great things about living in Chicago is that there is always something going on, especially during the warm weather. From parades to fireworks to concerts, Chicago has them all. Check out Navy Pier’s weekend performances and fireworks for a great time this fall. For more information visit www.cityofchicago.org.

Observatories
For astonishing views of the city, the Sears Tower and John Hancock Center Observatories are a must. On a clear day, four states can be seen from standing on the Sears Tower Observation deck towering over 1,450 feet tall. Or for a spectacular view of the lakefront, including Navy Pier, the Hancock Observatory is equally astonishing. Admission for Sears Tower Observatory is $8 and Hancock Observatory is $6.

Architecture
Chicago is home to some of the most famous architects, including Louis Sullivan, Frank Lloyd Wright, and Mies van der Rohe, designer of famous Crown Hall on IIT’s campus. Tours are available through the Chicago Architecture Foundation. For more information, visit www.architecture.org.

Explore
Chicago can not be completely broken down by any book or article. The best way to discover Chicago is to explore it with a buddy or group of friends. With the plentiful and long running schedules of CTA, getting around is hardly ever a problem. Just be careful to avoid traveling in public alone at night and you will almost always find a good time something new each time you venture out into the city.
Must-Eat Chicago Restaurants

There are plenty of advantages to living in a big city like Chicago. You can never go hungry or complain about the lack of good food—if you have a few bucks to spare that is. We have rounded up a few of Chicago's favorites that will surely tickle your taste buds. So get started, already, if you don't want to wait for a table. And remember to bring some back for us!

$ (5$-10) $8 (10$-20) $8 (30$-40)

Cheesecake Factory
If you crave good food and big portions with relatively low prices, then this restaurant is for you. Located in the lower level of the Hancock building, this restaurant offers a unique atmosphere and decor, with an outdoor café also available, depending on the weather. A one-hour wait for dinner is typical, but we believe that with a taste of their cheesecake you will agree that it is well worth the wait.

Maggiano's
This upscale Italian restaurant offers many great dishes for an affordable price. The family style dinner is a great choice when eating out with friends or family members. Be sure to try the Rigatoni "T"—chicken, mushroom with marsala sauce and the wonderful pastry selections for dessert. $5 $16 NORTH CLARK ST.

Food Life
It's a food court without the fast food! This restaurant actually endorses the slow food philosophy—slow for the way you savor the food, not the time waiting for the food. Choose from a variety of menus of your favorite American, Mexican, Italian, and Asian dishes. A stop at Food Life's juice bar and desert counter is a must.

Giordano's
A visit to Chicago is not complete until you try Chicago's famous stuffed pizza at this restaurant. Opened since 1974, Chef Efren Boglio is continually perfecting his grandmother's recipe to bring you the best tasting pizza. Who can boast that their recipe is 200 to 300 years old? Not too many. $790 N RUSH ST.

Ed Debevic's
The restaurant is 50's-themed, and the waiters and waitresses dress and act the part. Oddly enough, what brings people to Ed's is the service. The servers are all well trained in mock-studiness, an act that sometimes seems to border on the truth. It's the one place where customers accept insults from the staff as comedy. Ed's is a fun family and friends activity. Take a stroll back to the 50's and have a groovy good time at Ed's. $6 $6 640 N. WELLST ST.

The Signature Room at the 95th
With a few extra dollars you can reach for the stars at the Signature Room at the 95th. Located atop the John Hancock Center, it offers the post card-perfect Chicago view. The Signature Room offers lavish receptions and exquisite sit-down dinners for up to 1,100 guests, elaborate flower and table settings, personalized menus, exciting entertainment, and incomparable beauty. But if you are strapped for cash like most of us, buy the three dollar soft drink and enjoy the equally magnificent view from the bar. $5 $55

Financial Aid continued from page 3

4) Never invest more than a postage stamp to get information about scholarships
5) Nobody can guarantee that you will win a scholarship
6) Legitimate scholarship foundations do not charge application fees
7) If you are suspicious of an offer, it is usually with good reason

For more information on scholarship scams, go to www.finaid.org/finaid/scams.html

Financial Aid Frequently Asked Questions:
1) When will I receive my tuition refund check?
2) After the second week of classes, if there is a credit on the student's account, a refund will be generated in 5 to 7 business days. The Bursar's office will automatically hold refund checks for pick-up (room 207MB) unless the student contacts the Bursar's office and specifically requests that it be mailed. Note that federal and state funds are usually disbursed to a student's account after the third week of classes for the current semester.
3) I have turned in all of my financial aid paperwork for receiving a loan from a bank, so when is my loan going to appear on my student account?
4) Why did I receive a revised award letter? What should I do?
Illinois Tech’s Cricket Club

Arjun Shrinath
TechNews Writer

I.I.T has been renowned all over cricket for its accomplishments. Even then, its exploit in the sports arena hasn’t been lagging behind. This is due to the presence of a multi-cultural population the people of I.I.T have always tried to bridge the gap of ignorance of games played by each country. It was with this intention that the I.I.T Cricket Club was established.

Established back in 1997 by a few dedicated individuals, the aim of the I.I.T cricket club was to bring the game of cricket right to the doorstep of I.I.T. It can be probably mentioned that cricket is truly a global game. When the I.I.T cricket club was started the game of cricket was a relatively unknown game to the rest of the I.I.T community. Although faced with a daunting task the members carried on utilizing, organizing various events to popularize this game. It is in this context that cricket is played—matching the aura of the people who play the game at the highest level. Such is the passion of cricket.

The members of the Cricket Club organized two tournaments this summer. The first tournament, Tech League, was a meet with success. A total of 9 teams registered and played during the weekend of 13th and 14th in July. Buoyed by the success of the Tech League, the I.I.T Cricket Club members decided to host another tournament.

The Summer Cricket Fiestas tournament has been arranged to accommodate more teams and span more days than the Tech League. It commenced on the 3rd of August and expanded to the weekends, with the final slated to be on the 18th of August. The game was moved to I.I.T Oval instead of the ground between Carman Hall and Bailey Hall, on which the Tech League was organized. So far the tournament has been met with much enthusiasm among the participants. The tournament has had a dash of all the ingredients that can promise a spectacular finale: passion, enthusiasm, team spirit and determination. One just hopes that this trend continues, providing spectator with absolute entertainment as the tournament progresses.

The Cricket Club has also initiated other significant steps to further kindle the interest of the I.I.T community in the game. It regularly holds telecast sessions of matches being played to raise the general awareness of the game. These telecast sessions are open to the public.

The organization also encourages avid players to play in the Midwest Cricket Conference (http://www.midwestcricket.org), one of the several leagues in the US. The league is part of the United States of America Cricket Association (USACA), which includes clubs from Peoria, Milwaukee, St. Louis and Chicago. The Midwest Cricket Conference has been primarily responsible for making cricket popular in this part of the country. From a meager 12 teams in 1995, the number of participating clubs in the Midwest League had grown to a staggering 29 for the 2003 season.

I.I.T has sported a lot of talented people who play cricket for the Midwest Cricket Conference.
