FALL EXAM TO START SATURDAY; FINISH TUESDAY

Schedule Conflicts Must Be Reported to Office

TWO HOURS LONG

The final examinations for the first semester 1967-68 will begin preceeding the regular finals schedule. Each examination will be held on the dates listed below. This is a total of 2:30-3:50, 10:30-11:50 and 11:50-1:10. No classes will be held on the days of the final exams.

Mondav Day Blind Day

Final examinations will be written during the last three days of the semester. That is, the last three class days of the semester will be held in the usual manner. The days are Monday, December 12th, Tuesday, December 13th, and Wednesday, December 14th.

Final examinations are to be scheduled for the three to five hour period for which they are usually designated. No final examinations will be held in the same room as the class meeting held the day prior to the final exam.

The complete schedule will be found on p. 8.

Sophomores Class Dance Doubtful

At the sophomores class meeting last week, it was proposed that the class of 1971 sponsor a dance to be held Friday, December 16th. The meeting was well attended with both members and non members of the class present. It was agreed by the members present that a large enough interest would be shown to warrant a dance. The time would be 9:00 P.M., and that the place would be the 400 room. This is a large room and would be well suited for the event if the interest is adequate. A committee of five was chosen to work on the arrangements for the dance. It is hoped that the money raised by the dance will help to support the class activities for the year. It is anticipated that there will be a large attendance at the dance and that it will be a great success. The members of the class are looking forward to a fun filled evening at the dance and are excited about the prospects of a successful event. The event is expected to be a great opportunity for the class to come together and enjoy a fun night. It is a chance to let loose and have a good time. The event is sure to be a highlight of the year and a great way to end the first semester. The members of the class are looking forward to a successful and enjoyable dance and are excited about the prospects of a successful event. It is sure to be a great event and a great way to end the first semester.
THE SUN
The sun, your greatest orb of day,
Millions of miles away;
It will be many hours before you see it;
But you will never forget its beam.

THE SLIPSTICK
Close to to "The Slipstick," let the Slipstick fly where it may.

PI TAU SIGMA
National Bureau of Standards

The founding of Pi Tau Sigma was announced by the National Bureau of Standards on March 10, 1933. The purpose of this organization is the promotion of scientific research and the exchange of information among students and faculty. The members are selected on the basis of excellence in scholarship and achievement in the field of science. The organization is open to students and faculty of institutions of higher learning.

STEEPING INTO A MODERN WORLD

Nothing small about this world.

Regulating Reporter

The Question: What is the small planet that the astronomer discovered on Mars in 1881? What is its name?

The Answer: The small planet discovered by astronomer Percival Lowell on Mars in 1881 is called Phobos. Phobos is the closest natural satellite to the planet Mars and is one of its two natural satellites. Phobos is a small, irregularly shaped object, and its orbit is highly inclined relative to the plane of the martian equator. Phobos is thought to be a captured asteroid, and it is one of the most interesting objects in the solar system for astronomers and space scientists.

<td>There is a Santa Claus even when Christmas is past. Last December we would complete light a Christmas tree for the next seven week. Now, perhaps, the next seven week may be even more enjoyable. So let your crystal wish be one of Santa's gifts, for it is just what you want. As a matter of fact, we believe you would be interested if we sent you a Christmas wish and if you would like to make one now, we would be delighted to help you do so.</td>
