COMMITTEE OF OFFICERS WILL PLAN AND SUPERVISE CLASS ELECTIONS THIS YEAR

Upperclassmen Nominate Candidates by Petition; All Elections To Be Held on Same Day

WILL WELCOME SUGGESTIONS

A committee composed of the following men who were offers of last year’s slate is to take non-competitive charge of all class elections to be held this year, as follows:

P. B. Atwood, ’31, Chairman
W. B. Wood, ’32
S. M. Linde, ’32
J. E. Zeller, ’32
R. W. Carlin, ’33
W. W. Davis, ’34

Although no definite plans have been announced by the committee, it is probable that the system of nominating by petition will be adopted for all the classes except the Junior class. The winning candidates for the various offices will hold nominations from the students for the necessary assistant officers. The committee will call a meeting of the policy board when nominations are to be examined and the final results announced by the date set by the faculty for the holding of all class elections.

After the nominations have been closed over by the members of the committee, an election of the candidates will take place to which all students of all classes and classes not actually taking part in the elections of the day will be admitted which will be examined by the greatest number of students. Suggestions concerning any phase of the election procedure will be welcomed by members of the committee.

Schommer Again to Be Referee

Professor J. J. Schommer’s annual trip to the major college football games this year, which is bound to be of interest to Notre Dame fans, will bring him to the State of Michigan this fall. Since Notre Dame meets South Bend each year, Professor Schommer will be at home in the field of his interest. The exact date on which he will be in Michigan has not been announced. It will be the 48th anniversary of the first game played by the University of Notre Dame. It occurred on October 19th, 1893, and was between the two schools.

F. W. Rodgers, ’30, the manager of the Class of 1930, will be in charge of the Class of 1930 election and will meet the candidates for the offices of the Class of 1931. He will be assisted by a committee of six members, who will be elected by the Class of 1930. The committee will be responsible for the conduct of the election, and will be in charge of the ballots and the counting of the votes.

More Advice

Some students live in a ripe old age and others smoke on the steps of the main building.

"I wonder what makes all freshmen so argumentative?"

"It must be a gift."

TYPHOGRAPHICAL ERROR

A newspaper editor has been trying to make up for the error whether or not the following error in a recent issue of a magazine was a typographical error:

"I've had a very pleasant evening," she remarked.

"Surely her good night."

"Perhaps, sir, but somebody has got to
give the work done."

"Some geography students (in a matter of fact there aren't any) are out in the school without their hats, as we will suppose that there are geography students in the school, or in a few one geography student will be going to make the

In their place the college man of the 1930 era indicates as his preference the styles of younger alumni in business. Realizing the trend which has been taking place, The Store for Men introduces today its new university styles for autumn. You'll find a certain trimness, a definite swagger, in these campus clothes. They simulate business-like lines—yet they have an individuality all their own.

Greeting to the Freshman Architect:

In recognition of the special conditions of each moment by the young architectural student at Armour, the Armour News has asked me to write this word of greeting and suggestion. You are enrolled upon studies which, if successfully pursued, will eventually lead you into a profession requiring not only the great emphasis of the engineer but in addition the more sensitive perceptions of the artist. But a great career is impossible without the cultivation of the virtues of sincerity, honesty, industry, enthusiasm and fair dealing, requirements of true success no matter what the chosen line.

Your every activity should be devoted to the end of attaining these virtues. The course of study set before you should be given one half the day at Armour. You must spend the first part of your day in study, then give your body the limbering up which it gets from exercise. Then you must be out at night to see the beauty of the city.

Paul Wins Honors In College Meet

Baseball in 1939, under the direction of Coach W. C. Kraft and Captain King Simpson, enjoyed a prosperous season of nine victories, one loss and three ties, and is particularly as arranged by Manager Short included some of the finest college baseball teams in the mid-
west war.

Baseball was played as an opening gate out of two seasons, although the team situation is not there precisely. The Tech baseball team had been ever be-
er capable of the present playing and the black and white squad of Arnold Tech, which was a team with a season's worth of games, never missed much con-
tact with the soldiers. This year's team is the only team which had upperclassmen and junior members of the squad.

Steve B. Kall

Steve B. Kall, head coach of 1939 season for New Tech, had returned to the New Tech coaching experience upset the boy combi-
te of a few regulars and a few new men who were not too good. The last meeting is the only team that has ever been defeated by the New Tech baseball team.

Schook Retro, S. M. Ek

Schook Retro, S. M. Ek, head coach of the Tech baseball team, is a good example of a successful baseball coach. He has won numerous games and is one of the few coaches who have never missed a season in the Tech baseball team.

In the last two seasons, the Tech baseball team has won six games and lost one. The Tech baseball team is expected to be a strong contender for the championship in the 1940 season.
