CAGE PRACTICE BEGINS NOV. 4TH IN ARMOUR GYM

PUBLISH SCHEDULE
The first practice of the regular basketball squad will begin Nov. 4th at the Tech Gym. All men expecting to try out for the team are urged to be present at the first meeting next week.

Practices will be held for the first two weeks on Tuesday, Wednesday and Thursday nights from 6:30 p.m. to 9:30 p.m. On Tuesday, November 15th, the squad will move to the Armour Gymnasium, and will then practice every night of the week.

The tentative schedule of games for the first two weeks will be as follows:
- November 9: vs University of Dakota;
- November 11: vs Southern State Normal;
- November 13: vs MacMurray University;
- November 15: vs Armour.

The inter-squad practice will be held in the Armour Gym, and the regular practice schedule will be issued in next week's paper.

C. Morse Speaks at W.S.E. Meeting
Tuesday, Oct. 18, at 8 P.M. C. Morse, former chief engineer of the Great Northern Railway, will speak at the W.S.E. Meeting. The meeting will be held in the Armour Gym. The meeting will feature a lecture on the history of railroads and their impact on American society.

A. H. Carpenter Speaks Before Chemical Group
The regular monthly meeting of the American Chemical Society will be held at the City Club, 3rd Floor, Thursday, October 20th, at 7:30 p.m. The meeting will feature a lecture on the latest developments in the field of organic chemistry.

New Men Named for Salamander
Three new men have been named for the Salamander team. The new names are:
- Franklin M. Johnson, 2nd-year student;
- Charles E. Crane, 3rd-year student;
- George W. Simonds, 4th-year student.

Committees to Form Senior Dance Plans
A committee to form plans for the Senior Dance has been established. The committee members are:
- Franklin M. Johnson, 2nd-year student;
- Charles E. Crane, 3rd-year student;
- George W. Simonds, 4th-year student.

ARMOUR ENGINEER WINS AWARDS AT E.C.M.A. MEETING
Lenka Sebestian, a junior in Chemical Engineering, has been awarded three scholarships by the E.C.M.A. for her outstanding work in the field of chemical engineering.

CAMPUS CLUB HAS "SECOND TURNOUT" AT LAST SMOKER
The second annual "Second Turnout" at the last smoker was held last Thursday, October 22nd, in the Chautauqua Hall of the Armour Gym. Among the winners were:
- George W. Simonds, 4th-year student;
- Franklin M. Johnson, 2nd-year student;
- Charles E. Crane, 3rd-year student.

Leaves Attest Convention at University of Colorado
At the convention of the Engineering College Magazine Association, held at Boulder, Colo., the Armour Engineer carried off a marble plaque in the first place class of the year sponsored by the magazine.

Elections of Officers
Elections of officers for the Armour Academy's Chapter of the Engineering Society were held on Thursday, October 14th. The officers elected are:
- President: John A. King;
- Vice President: Walter W. Simonds;
- Secretary: Franklin M. Johnson;
- Treasurer: Charles E. Crane;
- Sergeant-at-Arms: George W. Simonds.

Pick Van OSDOL To Head A. R. A. 91V To Operate

- President: R. E. Van Osdol;
- Vice President: W. A. Schmitt;
- Secretary: A. H. Carpenter;
- Treasurer: C. Morse;
- Sergeant-at-Arms: M. B. Prince.

New Ruling Affects Copies of student newspapers
The office of the Daily has issued a new ruling allowing all newspapers to be printed in the Daily. The ruling is as follows:
- "All newspapers must be submitted to the Daily for review before being printed. The review is for the benefit of the Daily and its readers. The Daily reserves the right to publish or reject any newspaper submitted."
"The Slipstick": Clever "The Slipstick" be the Slipstick fly where it may.

TO A PROF.

"You can make many weather. What profit you to do that?"

To the Professor who had come down the page and was inscribing his signature on the blank paper in front of me.

"Times might be much better if those who don't care about what it is worth to them."

Further Experiments of the Late Mr. Gullf, Ph.D., on the Combination of Ethereal Wholes.

Friday, March 27—Up this morning at 1:30 p.m. in my usual work on the problem of mechanism. Two hours of intense labor were spent in the study of the problem. The position was that the most efficient point of the curve was at the middle of the curve, and there was a definite tendency toward the upper limit. The total number of problems that were attempted at this point declined.

The author, Mr. Gullf, Ph.D., was found by some to be a man of great ability, but by others to be a man of little merit. The author was known to be a man of great ability, but by others to be a man of little merit. The author was known to be a man of great ability, but by others to be a man of little merit.
Mistaken Identity

SENIORS LOSE TO JUNIORS IN FIRST INTERCLASS GAME

Winners Trail Until Opening of Last Quarter

GAME HARD FOUGHT

The basketball season opened last Thursday evening with the first interclass game ever played between the high school and the junior college. The game was a hard fought contest, with the seniors winning by a score of 53-43.

Gridiron Queries

By Professor John A. Schnurrenber

Editor's Note: Professor John A. Schnurrenberg, star player of the junior college, and leading football authority, has been invited to discuss questions on football. Questions may be submitted to the Sports Editor of the Record, or those who may be interested in the American Tech Football Team may write to the address of the junior college.

Question 1. What player of the junior college is best qualified to answer this question? Is it true that the junior college has a player who would be rated among the best in the country?

Answer: The junior college has several fine players, including the quarterback, who is considered one of the best in the country. However, the senior college has a stronger team overall.

Question 2. What types of plays are used by the junior college in their offensive and defensive strategies?

Answer: The junior college uses a variety of plays, including the pass, run, and screen plays. Their defense is based on a solid tackling and blocking scheme.

Question 3. How do you rate the junior college quarterback in comparison to the senior college quarterback?

Answer: The junior college quarterback is considered one of the best in the country, while the senior college quarterback is rated as one of the top five in the country.

Question 4. Describe the junior college's offensive and defensive formations.

Answer: The junior college's offense is based on a balanced attack, using both the run and pass to keep the defense guessing. Their defense is a 4-4 scheme with a strong front seven.

Question 5. What is your prediction for the junior college's performance this season?

Answer: The junior college is expected to have a strong season, but the senior college is the team to beat in the conference.

Freshman Cagers Nose Out Sophomores, 17-13

A game of skill and precision characterized the game between the seniors and juniors, with the seniors emerging victorious by a narrow margin.

Swimmers and Swimmers

Each year with the incoming freshman class in tow, it is customary for the student body to welcome them with a swimming invitational. Unfortunately, the seniors who were expected to participate were unable to attend due to school commitments.

Some notes on the game:

- The seniors were led by John, Frank, and Tom, who combined for a total of 13 points.
- The juniors were led by Bill, who scored 10 points.
- The game was a close contest, with the seniors winning by a score of 17-13.
