25 New Mentors Join ITT’s Ranks

Twenty-five new faculty members have been added to the staff of Illinois Tech. Dr. John J. Rettig, President of Illinois Tech, announced recently. Among the appointees is Dr. Arthur E. Marshall, who was named chairman of the department of chemistry. He received his doctorate in chemistry from New York University.

Other named to the Illinois Tech chemistry department staff are Dr. John E. Frey, who received his doctorate from the University of Chicago, and Alexander J. Kirschig, recipient of a PhD from the University of Illinois, and assistant professor, Dr. Philip G. Walshe, who also received his PhD from the University of Illinois as instructor. Additions to the language, literature, and philosophy departments as English instructors are Joseph Moscow, who received his master’s degree at the University of Chicago, and Douglas H. White, who holds an MA Degree from the University of Nebraska.

Louis R. Richards has been appointed to the Institute of Design as an instructor. He received his MS in product design at Illinois Tech last year.

Two new lecturers, Edward Bedine, an E. E. Montague, have also been added to the staff of the Institute of Design. Bedine has a master’s degree from the Institute of Design and Montague See FACULTY page 8.

ARO Holds “Ethos” Discussion Tuesday

“Moral Disenfranchisement or Moral Leadership” will be the subject of a talk given by Commander Robert S. Van Benschoten, United States Navy, Tuesday at noon in South-Ellin Hall.

His presentation is the last of a series entitled “Ethos.” It will be sponsored by the Association of Religious Organizations which has been sponsoring talks for the past two years on a monthly basis.

Van Benschoten has been on active duty with the Naval Air Arm since February, 1941. He has had several tours of duty with various patrol squadrons, and served as an instructor at the Naval Air Station, Pensacola, Florida.

Godzicki, Golick Given Seats In Dean of Students Office

The position of assistant dean of students will be filled by institute admissions counselor Ralph Godzicki, according to President John T. Rettig. This appointment will take effect as soon as an admissions counselor replacement is found. Godzicki has been a part-time instructor at Illinois Tech for five years since he received his bachelor’s degree in business administration.

He received his degree in mechanical engineering and is now doing graduate work at the Institute of Design.

Frosh Class Picks Officers

The freshman class of September, 1960 elected their board at 2 p.m. last Thursday. All freshmen were invited to attend the first meeting, which was held in the Student Union auditorium.

Elected to the board were: Carol Groes, Barbara Waddell, Tom Brown, Herb Caster, and Anthony Stramhaar.

Set October 7

Limit for Forms

Recognition forms for student organizations were placed in all Student Union mailboxes of previously recognized ITSA organizations last week. These forms must be filled out and returned to the dean of students by 5 p.m. on October 7. More copies are available at the dean’s office. New organizations desiring recognition must submit their constitution along with the recognition form.

Pub Board Discusses FM Future for WIIT

WIIT’s operation as an FM station was the main topic of discussion at the Publications Board meeting Tuesday evening. During the meeting the board recommended to the dean of students that the editor of Lineings be given a one-quarter tuition grant. The editors of Technology News and Informal now receive full tuition and half tuition grants, respectively.

The board also discussed a smoker during October to interest more students in publications.

Dr. Wood to Inaugurate Fresh Orientation Class

Dr. Janet E. Wood, administrative officer of the chemistry department, will speak on the general field of chemistry at 1:30 p.m. Monday in the Student Union auditorium. Dr. Wood will tell how the individual concepts of chemistry as he advances from high school to college, and finally, to the graduate school where he does research.

He is the first speaker in a new series of courses called “Engineering and Science Orientation” now required of all Illinois Tech students. Students may attend the weekly sessions.

The course has been designed to give concise surveys of the various fields within engineering and science, and to help undecided students reach a decision concerning their major fields of study. Speakers from the various departments will answer such questions as, “What do engineers do?” and “What does engineering and science have to offer as a lifetime occupation?”

SUB Concert Features Ahmad Jamal Jazz Trio

The Student Union Board of Illinois Tech will present the Ahmad Jamal trio on Friday, October 14, at 8 p.m., in the Student Union auditorium. Advanced and regular students are expected to begin Monday, and continue throughout the week. Tickets will be made available to the general public on October 3.

Prices for Illinois Tech students and personnel will be $4 individually, or $7 per couple. All other tickets sold to the general public or on the night of the performance will cost $5.

Tickets may be obtained at the Common Bookstore, the Student Union candy counter, and the dormitories and fraternity houses.

The Student Union Board is also planning to have a jazz dinner, on Monday, at the Common Bookstore. The Student Union Board is also planning to have a jazz dinner.

Three Hundred Attend Dance; One-third Girls

Approximately 300 people attended the all school Orientation Dance last Friday evening. Approximately 100 were present. The dance was sponsored by the senior class.

Alumni who attended the dance were from Presbyterian-St. Luke’s, St. Mary’s, and the University of Wisconsin. According to Pat Ritter, secretary of the senior class, over 40 were present.
Letters to the Editor

Reader Questions ‘Thought Gap’ and Tech News Stand

In your editorial of Sept. 15, 1960, there is a disturbing gap in the thought. You do not explain why you identify Eisenhower’s famous comment, Trujillo’s regime and Buckley’s blacklist with a brand of liberalism in which it is disregard of the moral value of means to economic goals, of freedom of speech and the press and of an enlightened public. Is it the liberalism of the late Senator McCarthy, of the Communist Party, of the New Dealers or of the American Civil Liberties Union? Further, you call Trujillo regime “left-wingery.” What is it left c?

What you have written is nonsense, because you have not bothered to identify adequately what you are talking about. If you are taking your stand as conservatives do yourselves the honor of presenting and defending your position intelligently and without the use of evasions that characterize the dole. There is enough to criticize in the liberalism of Schengen and Cardinale to make it unnecessary to criticize the liberalism of News and Culture. If you want to attack a theory that deals with it directly and find the real points of disagreement. The editorial column is not the place for political cartoons. Sincerely yours,

BARRY GOLDENSOHN
Instructor, Dept. of L. and P

Ed. Note: See explanatory editorial immediately following this letter.

Newspaper Critics Abound; Goldensohn Joins Throng

Freedom of the press does not bar Barry Goldensohn, in a letter printed use this of the little article. It’s fun to be a newspaper critic. And it’s even more

preclude freedom to criticize the press; everywhere on this page, has made some social critic and even more fun to be a newspaperer.

No doubt philosopher Goldensohn is correct in saying that we should be a
two bit more careful in defining our position on the political balance, but does he realize how much room adequate definition takes? We don’t purport to present to our readers a text in political theory done up neatly with a blue or pink bow, depending on your preference.

If philosopher Goldensohn will only be patient, as all philosophers are supposed to do, see a little bit of truth.

We most certainly intend to explore fallacies and truths (if any) of modern day political thought. We must certainly intend to apply some of these truths, think you) to problems that are currently arising within our social system. And most certainly all of us, we don’t pretend to be infallible as some would have the newspapers with which they agree.

At the same time we don’t especially want to supply complete footnotes and a 14-volume bibliography with every editorial. Rather we intend to establish some sort of theme in the reader’s mind during the 90 or so seconds it takes to read an average editorial. Calling this image an editorial cartoon is very clever, philosophers must be clever, journalists, too.

Questions That ‘Union Enemies’ Oppose Progress and Growth

“The goals of the labor movement are the goals of all Americans, and their enemies are the enemies of progress.” At least that was claimed by John Ruskin, the oratorisch candidate for President of the United States in a recent address. During the same week of campaigning, Kennedy also advocated that the United States should increase its rate of economic growth, and assumed that “With an average rate of growth in this country, every workingman in the last eight years would have received $7,000 more than he has received.”

Kennedy’s concern appears to strongly support the very liberal view of rapidly increasing the status of the working class, without great concern for the methods of approach. Let’s make a quick analysis of the above statements.

Last year the Steel Worker’s union, peace-setter of all the unions, staged a walkout only to discover that this had not only affected the economy of the nation, but also very much affected the economy of the steel workers themselves. In recent reports it was revealed that because of this strike steel workers, and those
Remind Catholics Of Parish, Masses

Catholic students are reminded that while they are living on campus, they are also members of St. James Parish, 2912 S. Wabash avenue.

Sunday Mass is offered at 7 a.m., 9 a.m., 10:30 a.m., and 12:15 p.m. All are encouraged to receive the Holy Eucharist every Sunday to participate more fully in the Mass. The Sacrament of Penance is administered every Saturday and on the days before Holy Days as well as before the First Fridays from 3:30 p.m. until 5:30 p.m., and from 7:15 p.m. until 8:30 p.m. Daily Mass is offered at 6:45 a.m., 7:30 a.m., and 8 a.m. Instruction classes for adults in the teachings of the Catholic Church are held every Monday and Friday in the school building, 2912 S. Wabash.

Plan Bregman Science Paper

Dr. James J. Bregman, Armour Research Foundation supervisor of physical chemistry research, will present a scientific paper at the European Symposium on Corrosion Inhibitors at the University of Perugia, Italy, September 28th through October 1st. Bregman will discuss corrosive factors, types of inhibitors that are effective, and the mechanism of inhibition for a large number of different applications in the petroleum industry.

June Graduates Receive Highest Salaries in History

June graduates at Illinois Tech received the highest starting salaries ever paid by business and industry to Illinois Tech alumni, according to a recent report issued by the placement center.

Average salaries of $6,200 annually were paid to the engineers who received their bachelor's degrees. Graduates of the business and economics departments received average starting salaries of $5,570. These figures are a 4 per cent increase over those for 1959 graduates.

According to placement director Earl C. Kubicek, the Illinois Tech career center placed about 78 per cent of its graduates. The remaining 22 per cent entered graduate school, the armed forces, or found their own employment.

Besides arranging interviews for February and June graduates, the placement center operates year round, receiving information from industry concerning an average of 250 employment opportunities each month. This service enables anyone, from an older alumnus to a part-time student, to have access to a range of employment extending from executive positions to after-school jobs. The center also seeks and finds summer employment for students.

Air Force Unit Enrolls 75 Freshman Students

Lt. Colonel W. B. Monkiewicz, professor of air science at Illinois Tech has announced that the full enrollment in the Air Force ROTC will include one of the largest freshman groups in recent years. There are presently 75 freshmen enrolled, compared to 48 last year.

The AFROTC program is conducted in two phases. The first two years constitute the basic course, which aims at giving students an opportunity to acquaint themselves with the air power concept. Cadets in the basic course average one hour each week in the classroom and two hours each week at a leadership laboratory over four semesters.

Offer Students Dancing Classes

Dancing lessons will be offered to Illinois Tech students beginning this Sunday and continuing for twelve weeks. The classes will be held in the Commons basement from 7 to 10 p.m.

Each lesson, which will cost $1.50, will feature several dances. Girls from various morning schools will also be invited.

It's what's up front that counts

Up front is FILTER-BLEND and only Winston has it! Rich, golden tobaccos specially selected and specially processed for full flavor in filter smoking.

ITSA Board Votes Down Paint Use During Elections

Ed Morler, ITSA social chairman, reported that plans for the Integral Ball to be held on November 19 are well under way and that details will be announced soon. It will be held in the Grand Ballroom of the Palmer House Hotel. George Seigle, president of the Student Union Board, reported that Ahmad Jamil will perform in Crown Hall on October 14 to an expected audience of 1,000. There will be an advance ticket sale for Technology Center personnel, but tickets are made available to the general public.

Alan Olson, chairman of the Advisory Committee on Student Activities, announced that the school social calendar will be published soon, including six closed and eight open weekends.

ITSA Board of Control voted 15-0-4 Wednesday night with no point of order. It shall be on Institute property during future student election campaigns. In the past only water base paints were allowed.

Dr. Shurrager Works on Sub

Dr. Phil S. Shurrager, chairman of Illinois Tech's department of psychology and education, is chosen by the government to work aboard the nuclear submarine Triton. The purpose of this trip was to study the atmosphere and stimulation of muscles as related to the maintenance of proficiency in performance.

Woodrow Wilson Fund Gives 1000 Fellowships

The Woodrow Wilson National Fellowship Foundation is now offering 1000 fellowships for first-year graduate work leading to careers in college teaching. Woodrow Wilson fellowships are financed from a special grant from the Ford Foundation to encourage those who may wish to prepare for college teaching in the areas of humanities, social sciences, as well as the natural and physical sciences. These grants are available in a number of universities.

Eligibility for nomination is outstanding college seniors and graduates who, by the fall of 1961, will have accumulated less than your graduate credit. Mid-year graduates may be nominated either as juniors or in their senior year. Applicants must be citizens of the United States or Canada, or aliens in the process of becoming citizens.

1-Ball Publicity Job Now Open

Applications for publicity chairman of the 1960 Integral Ball are now being accepted by Ed Morler, ITSA social chairman, at 336 S. Michigan, DA 6-9450.

Parties Decline on Row Pinnings Run Rampant

by Wayne Davis

Run Scozo and Larry Lundy of Phi Kappa Sigma were placed last summer to Mary Row Hughes and Barbara Hoppo, respectively. Also, Larry Burch and Lorrie McDaniel will be married this weekend. The Phi Kaps also are planning a hayside party for next Saturday.

Pi Kappa Psi plans an Alumni Picnic October 2. Pi Kaps Dave Peterson and Gene Hendricks are married to Greta Johanson and Penny Tamm respectively.

Theta Xi announced the planning of Danny Geiger's for Ken Klaugel and Janice Bemiss and Jim Printk of Triangle were placed last summer.

Dave Shunk of Delta Lambda Xi and Sandy Saxton were married last summer.
SUB to Auction Off Unclaimed Articles

Articles left in the lost and found of the Buildings and Grounds department will be auctioned to students during free hour from noon to 2 p.m. on Tuesday and Thursday in the Student Union auditorium. The auctions will be managed by the Student UnionBoard.

Y.

Explains Parkinson's Law As Applied to Waiters

By Bill

Nicks

It is in a less than adequately-defined job, you get a more than adequate job-holder, what do you get? Job embroidery. You're probably seen examples yourself. Give a guy ten things he needs for a job and he may do one of several things, two of which are: 1) take it easier to fill the time and 2) add frills at time permits. Either one is an example of C. Northcote Parkinson's dictum that work expands to fill the available time. The two methods serve as statements of the dynamics of underworked mechanics, in equations of action for Parkinson's Law.

It is with the second form that we are concerned here, for in the nature of adding frills self-expression comes to the fore and a talented technician can raise job embroidery to an art form. Now art forms are not neces-

Season's First Meet

Cross country, Tech's newest sport, opens in 1960 season October 3. Running against Tech will be two of the strongest teams in the conference, Valparaiso and U of I the year before to better their last season's record of one and one. Their one win of the season was against Wright Junior College.

Content announced that there would be practices every day up until the meet. He expressed hope that any student who was interested would come out to these practices. See the athletic bulletin board in the gym for details and place.

The team will have four returning lettermen, John LeBlanc, Dave Helling, Ralph Laras, and Dave Hubbard, to give the team the depth that is needed. As yet the schedule has not been announced. It will be posted the early part of next week.

Baseball Coach
Amanda Fall
Baseball Tryouts

Coach Ed Glancy has set up the schedule for this year's fall baseball tryouts. Due to the fact that the work is being done in Tech's baseball diamond no general tryouts will be held this year. Glancy plans on working with incoming freshmen and pitching and catching candidates. Next season pitching staff should be very strong as Ed Fandel, Dave McGraw and Mike Warren, members of last year's staff, will all return.

Workouts will be held daily in the gym. October 3 is the tentative date for the first practice. Anybody interested in trying out for the team is asked to stop by the gym and talk to Coach Glancy.

Weissman Plans
Athletic Dinner

Athletic Director Sidney Weissman announced Tuesday that a dinner will be held for the coaches and captain of Tech's athletic teams. The purpose of the meeting is to set athletic policies for the coming school year. Team schedules will also be discussed at this dinner.

As yet, no definite date has been set for the dinner. Tentative plans are being made however, for the first or second week in October.

**September 22, 1960**

Padva Makes Plans For Fall Tennis Tournament

Illinois Tech tennis coach Phil Padva, announced plans Tuesday for a fall tennis tournament. The tournament will be open to all undergraduate students who were not members of last year's varsity squad.

The deadline for those wishing to enter is Thursday, September 29. Entrants should leave their name and phone number with Sidney Weissman or contact Padva at extension 3225. An entry list will also be available at the athletic office.

Present plans call for singles play only, unless enough entries are received to include a doubles division. All matches will be played on the institute's tennis courts. Coaches may specify their own courts. Trophies will be awarded to winners of both singles and doubles. The tournament will be posted at the Tech courts and in the athletic department.

Padva urges all incoming freshmen to enter this tournament as the results will be used in next year's squad.

Padva also arranged a schedule of challenge matches for the tennis teams which will also be posted at the institute courts. According to coach Padva, "This year's league should be evenly matched and greatly improve upon last season's record. We will lose only one of last year's top players and the team was coming along nicely at the end of the year."

**Skulls Lead In Points Race**

Phi Kappa Sigma is currently leading in the Inter-Fraternity Activities Trophy with 66.5 points. Alpha Sigma Phi is in second place with 53 points. Delta Tau Delta, Theta Xi and Sigma Chi are all a close battle for third place.

At present participation points for varsity athletics have not been computed. Each house receives two points for each participating member in a major sport and one for a minor sport. Delta Tau Delta is expected to gain a large share of the points awarded for varsity participation.

John Mathur, basketball manager, has compiled a complete list of the participation points for each house. These figures, if approved, will award the trophy to Phi Kappa Sigma, with Alpha Sigma Phi second and Delta Tau Delta third.

**Sonny's Sells Team Uniforms**

FIT Basketball jackets and all uniforms from last season's team will be sold in the 1st gym. Basketball uniforms will sell for $15.00 and jackets for $5.00. Jacket prices will vary with condition.

LEADING TECH'S athletic teams in captures this year will be Bill Chousada (left), tennis; Jack Novo (above), archery; and Clarence Konrad, baseball. Dan Neill, golf captain, was not available for a picture.
