Alpha Sigs Take Sing First Again

Alpha Sigma Phi, directed by Jim Plankar, won the IF sing last Saturday night. Singing their fraternity song “Within the Mystic Circle” and an arrangement of “Ballyhoo Ballad,” they had a total of 412 points out of a possible 430.

Phi Kappa Sigma, directed by Carl Kupler, was in second with the songs “Down Land of Home” and “Climbing Up the Mountain.” The Phi Kaps had a total of 390 points.

Tripling was docked points for overtime but still came in third. Don Harvey, IF Sing Chairman, had penalized them three points per second instant count point for each additional three points. Tripling was 43 seconds overtime for a loss of 1A-13 points, dropping their total from 391 to 376-2/3 points.

Alpha Epsilon Pi was fourth with 365 points, and Theta Xi finished fifth with 355 points.

Spring Elections Set for May 17, 18

Spring elections for the officers of ITSA president and secretary, ITWA president, and all the class officers will take place May 17 and 18, 11 a.m. to 2:30 p.m. in the HUB lobby. In order to vote, a student must have hisBurton’s Card.

A special edition of Technology News will come out on the press that Wednesday. Written speeches by the candidates will be in that edition.

Campaigning for the ITWA presidency are Carol Rabinov and Barbara Smith.

Senior class candidates are president, Marty Fieler; vice-president, Larry Bacon; secretary, Arlene Episcopoulis, Carol Robinson; treasurer, Chuck Chadb; no one has applied for senior social chairman.

Running for Junior President are Vic Morgenstern and Frank Dana.

Campus Players to Perform One Act Plays by Saroyan

The Campus Players are presenting two one act plays by Edward Saroyan on May 14 and 15 at 8 p.m. in the old ballroom which has been scheduled to be torn down in the near future.

“Bring Your Own Beer” To ITSA Picnic Today

“Bring your own beer” is the cry for the annual ITSA picnic to take place today in Lullaborg woods, Foster and Cleoer Avenues.

UB Sets Paint For Old Union

Time is running out for Illinois Tech students to get their paintbrushes for the “Goodbye Old SU party,” to take place at 4 p.m. May 25 in the old SU, according to UB president David A. Spiegler.

A free dance will be held that night between Main Building and the old Union. Refreshments and entertainment for the affair are also free. Students will have the opportunity to bid a last farewell to the old SU building which is scheduled to be torn down in the near future.

UBS Paint for Old Union

UB president David A. Spiegler issued a call for students to send in their paintbrushes for the “Goodbye Old SU party,” set for May 25 at 4 p.m. The old SU building is scheduled to be torn down in the near future.

Pi Kap Enrants Wins Greek Queen Contest

Matt Carls, student, is the winner of the Interfraternity Queen contest, held May 13 at the annual Greek Ball.

The Greek Ball was held May 13, with Matt Carls being crowned the winner of the Interfraternity Queen contest. The event took place at 9 p.m. in the HUB.

1962 Integral Begins Distribution on June 5

Larry Bacon, Editor-in-Chief of the 1962 Integral, announced today that the 1962 issue of the Integral would be on campus June 5, for distribution.

“We have set a number of dates in this issue of the yearbook. This is the first time that the book is being printed by the offset method; second, we are not printing a photographic last, the book is being bound along the short side rather than the regular, longer side,” said Bacon.

Bacon went on to say that the entire concept of the yearbook was changed. “We wanted to create a book that would recall the classes, campus, and the people in those buildings in the book years from now.”

“We have not sold the entire number of books that were ordered so there is still a chance to buy one. After the book comes out it will sell for $3. The price now is $4.” People interested in purchasing the yearbook may contact the business manager at 3366 South Michigan or call 28-9928.
MC Pool Threatens Alumni Gift; Students Asked to Protest

We saw the plans for the proposed reflecting pool to be located in front of the CMC Building. The money for this project is coming from a gift to the school designated specifically for this use. While we realize the needs of the Institute and the fact that gifts sustain the school and that a reflecting pool might be a pleasant addition to the campus, we do feel that the location is wrong.

Look at the picture which appears above this editorial; this is the way this landscaped area looks. It is a tranquil island next to State Street. The looks as if they belong there. Nothing seems out of place. Again we ask you to look at the picture. The Hawthornes are the finest specimen of their kind in Chicago, and the lawn would be spoiled by the addition of a pool. The landscaping plan represents a gift to the school from an alumna. It is not a gift of money; but rather, it is a gift of man's talent given from the heart. This same man did the rest of the landscaping on campus as a gift to his alma mater.

The pool and accompanying fountains, benches and paved areas would spoil this.

There is, also, a more practical reason why the pool should not be placed in front of CMC; that part of the campus has been finished and needs no embellishment. Other parts of the campus have not been touched. Looking around, two other sights are obvious.

America Starts Testing To Keep Ahead in Race

American has begun the inevitable task of testing big bombs again and the usual protest of the "arm the busters" has become noticeable.

These noisy and tiresome little and sometimes large groups offer plenty of slogans, all of which seem good and noble, but contain very little sound advice on the solutions of the problems that exist in the world today. They seem to ignore the fact that power-hungry leaders on both sides of the Iron Curtain have developed programs that tend to increase their individual power but do little to help solve the misunderstanding that exists.

The Russians can't change any ground because their cause wouldn't permit it. Also, no one in recent years has paid much attention to Soviet offers because their capacity is common knowledge.

The US can't give because the only thing eligible to be given is which the US values: those people whom we regard as important. Until a third country is the old story of the irresistible force meeting the immovable object; the US and USSR respectively.

The third factor is the fact of nuclear testing and the threat of giving nuclear weapons to allies such as West Germany or NATO. This is the force that may make the Russians move which will in turn allow the US to move in its position.

The nuclear testing means that we are improving our weapons systems. We can show the world that a Polaris missile launched from a submarine can hit a target and that a Minuteman missile from its site in the ground to destroy targets thousands of miles away.

as I see IT

Sorority Pledges Negro, Faces Campus Sanction

Several weeks ago, it was announced that the Delta Gamma Sorority at Beloit College had pledged a Negro girl, and wished to activate her. The National chapter, however, was opposed to this and therefore placed the chapter on probation with possible suspensions if the girl was not de-pledged.

For the local chapter that this action is praiseworthy. Very few fraternity or sorority organizations have broken with their tradition even though the person in question may be an excellent personality. Almost all of the National constitutions of these organizations have removed restrictive clauses, but it is not easy to remove the attitude as it is to remove the words. Many people claim that they would not mind having a good Negro in their house, but they fear what others might think, particularly during rush week.

My opinion is that if a person is influenced not into joining a Greek letter organization because of this fact alone, then he is not the type that would be a good member.

This is actually a good example of a group sticking out for what they believe. I can imagine that there were probably long discussions prior to the pledging of this girl. It certainly would be hoped that the girl was pledged on her own personality and not on her race. This is a show of individuality, a trait which unfortunately is not very common in our generation. If social pressures have been successful, this pledging would have never occurred at all.

I am not discussing this subject because of any particular actions on our campus. However, I do believe that every fraternity and sorority member should be aware of this situation and realize the importance of individual consideration not only away from home, but also in our backyard.

This is easy enough to say, but hard to carry out. In fact, I believe this is what the south is trying to show us right now by giving one way tickets to southern negroes if they will move north. We must all want to abolish restrictions in the south but all we are saying is that we are hypocrites. It takes much more courage to say that the south cannot change here is not good than it does to say that it is worse elsewhere.

Students Write About Tracht, Armour Mission

Dear Sir:

We read with interest the article on the "Good Party" for the Armour Mission, "Armour Mission", and we must say that we, the Armour Lewis Committee, the Preservation and Restoration of Historical Architectural Landmarks on the Campus of Illinois, are quite against such desecration of the buildings on campus. The ALCRIHALCIT is currently working on plans to save and restore the Armour Mission from ever being turned into a ballroom because the Mission is truly THE landmark on the campus. It was the first building in which we found was Dr. Gemmell's home; this is the very start of this now renowned institution.

Q!); How can the Mission be saved? Help us save it. Ask how you can donate to the Mission, but how you can stand up and fight with the ALCRIHALCIT and restore this great landmark on campus and architecture. Only a little is needed to save the Mission and restore it to its original glory and grandeur. Together we're taking the Audacity to help us in our quest to save and restore the Mission.

Very truly yours,

ALCRHALCIT

Dear Sir:

Mr. Tracht has doomed it necessary to close the Commons at 10 p.m. on weekends. That he feels in no great inconveniences to the campus residents. He believes that once warm weather arrives, residents will be away from campus. Perhaps he thinks they will flock to the beaches and parks.

But they have no place. They can't go to the Commons, no place in which to be. There are other places to go? East of Midway Avenue or downtown Chicago? No West of Campus? Not unless in a large group.

Of course there are those who have care and expense of their rooms not from the cafeteria. The only problem is in teaching those care for the house to take an interest in their rooms and keep them in peaks beneath one of the few lights. To quote, "Laziness on the part of any of us is a sort of ritual, Students should stay in all weekends and acres that there are too many things to hide.

Tru, you can always use the UI for events, any damage you make - no money, and yes, want your watch to hide away.

If we have to depend upon the HUB for snacks and entertainment, the HUB is the place, but any other side of the writing list.
Alums Invite Seniors To Reunion Fete Fri

For the first time seniors have been invited to the Alumni Reunion Dinner which will take place next Friday in the HUB. They will get a special price of $3.50 each. Alums may pay $5.25 for each ticket. The tickets will be available in the placement office starting next Thursday. The seniors will be the guest of the five-year graduates.

Tech Requests Return to H.S.

With the backing of the SAAB and the Director of Admissions office, Illinois Tech students are being encouraged to take part in a program next semester and go back to their old high schools to talk to the teachers and students there.

This is not a new idea but has been around since the "Techmakers." According to Director of Admissions, Philip Lottich, there is nothing spectacular about the project, just an attempt to acquaint more people with Illinois Tech.

Anyone interested in such a program may contact Wayne Davis at DA 6-9390 at 3560 S. Michigan before the end of this semester.

Career Cues:

"An interest in student activities can pay you dividends later on!"

Gibson F. Osborne, Asst. to the President

George A. Fuller Company

Extra-curricular activities never really interested me... architecture and construction always did. It's a paradox, though, because as I turned out student activities gave me a big jump on my career in construction.

"Recreational organized activities provided the confidence I needed to approach the business world. Looking back, it was these activities that really gave me my first knowledge of people, administration, leadership.

"Working for the college newspaper, fun magazine, engineering bulletin taught me writing - a gift I use today in the promotion and getting of new business. Student Council brought the chance to work with other men - a daily occurrence now. Penn's theatrical group and engineering shows helped me relax in front of an audience then - and help me find my voice when I'm talking to large groups now.

"Thus, today's heavy college curriculum doesn't allow much time for activities. There wasn't much time for them in my day either. I burned a lot of midnight oil on architectural studies. It was difficult as they were I still found time for student activities. -- I'm mighty happy that I did.

"If you have time during the rest of your years in school to take an interest in activities -- do it! It's certain to pay big dividends in an inspiring future in the business of your choice."

Smoking more now but enjoying it less...change to Camel!

Have a real cigarette-Camel!

**Up and Coming**

**I Don't Know, Marty — What Do You Want to Do?**

by Marty

Moderation in price level is the word this week as Marty presents a number of events which cost at the most $2. Note, however, that none of them are free.

Josh White, remembering the success he had entertaining at such schools as JFS, is trying again at another typical midwestern college, Lake Forest. He will be there tomorrow night. Call 4-3300 Ext. 204 for information.

If you're more of an Ella Fitzgerald fan, you can see her at still another college, the West Side Medical Center of the University of Illinois. Cregler Auditorium is at 1200 W. Greenough, MO 6-1900 Ext. 3391.

Everything else that follows occurs Sunday.

Senior Douglas Smith will be selling the League of Women Voters' opinion on "The Crime Market-An Uncommon Opportunity." Students get a quarter.

**Rappoport**

knocked off at the $1 admission fee to hear him at the South Shore High School Auditorium, 7:30 and Constance at 7:30. To see if there are still seats left, call Mrs. Cconsal at MI 3-7376.

Laurel and Hardy may be more appealing to some of you. If so, you can see three of their films at the Hyde Park Art Center at 4 p.m. or 8 p.m. That's 5236 Blackstone.

**Announcements, Rings, Bids Available for Graduates**

Graduation announcement cards can be procured at the HUB candy counter for 17 cents each. Those who did not order them previously may obtain the announcements also.

Seniors can order their rings.

**Staff Discusses Peace Corps Projects Sat.**

Two senior Peace Corps staff members will be in Chicago next Wednesday through Saturday to talk with as many potential Peace Corps volunteers as possible. A special meeting to answer specific questions and to help volunteers fill out questionnaires will be held Friday at the Sheraton Chicago Hotel.

Anyone who would desire to meet the Peace Corps' representatives on campus should register at the Dean of Students Office prior to Wednesday.

**Two Students Present Work at ACS Meeting**

Two Illinois Tech students will present papers at an American Chemical Society meeting on May 18 at the University of Chicago.

Geree Zahler, Chem 6, will present a paper on his research project, entitled "Photocatalysis Substitution at an Anodic Carbon Atom" and Les Grolec, Chem 1, will present a paper research project, entitled "New Aspects of the Molecular Activation Reaction to the Synthesis of Alpha-Amino Acids."

Zahler's project was started when he was a sophomore and he is continuing his work this summer under a National Science Foundation undergraduate research award. His work was done under Sidney I. Miller, Associate Professor of Chemistry at Illinois Tech.

The project deals with a new preparation of thioesters by direct displacement of an acetylating halide. This work will appear in the May issue of the Journal of the American Chemical Society.

Grolec's project, sponsored by a National Science Foundation undergraduate research award, was started last summer and completed last fall. His work was sponsored by Robert F. Miller, Associate Professor of Chemistry at Illinois Tech.

The project concerned the synthesis of alpha-chloro-beta aryl propionyl acids via the molecular activation reaction, followed by synthesis to the alpha-amino acids. This work appears in the April issue of the Proceedings of the Chemical Society of London.

Grolec plans to continue his work in chemistry this fall at California Institute of Technology.
Midshipmen and Cadets Receive Honors at Review

The combined AFROTC and NROTC Military Review took place May 5. Awards were presented to the midshipmen and cadets who had distinguished themselves in Naval and Air Science classes this semester. The presentation of awards by various military and civilian organizations was viewed by Parent's Day visitors.

Receiving Chicago Tribune Gold Medals were LeRoy Botton, David Moore, Kurt Krueger and Barry Shiston. Silver Medal recipients from the Chicago Tribune were James Mangano, James Landfried, Frank Deen, and Charles Lipkin.

The Society of American Military Engineers gave medals to Larry Darda and William Leonard. Theodore Kesky and John Francos received medals from the Convair Corporation. The Armored Forces Communications and Electronics Association presented a medal to Jon Zimmerman.

An award from the Navy League of the United States was given to Leroy Botton. The Air Force Award went to Frank Paule. Joseph Johnson and George Frisch received awards from the Military Order of World Wars. Reserve Officers Association bestowed medals to Jack Heffer and Paul Linn.

Bill Roy and Richard Becker received medals from the Sons of American Revolution, while the Daughters of the American Revolution gave an award to Paul Tell. Presenting awards to Leroy Botton and Kurt Krueger was the US Naval Institute.

Peaks at the Greeks

Frats Continue Parties; HUH Pledges, Initiates

by Vicki Scannell

Despite the fast-approaching threat of finals, many houses have planned parties for the weekend. The Delts will have their Annual Rainbow Ball, a senior farewell dance at the Ambassador-West Hotel tonight.

Also tomorrow is an AEPI Dinner Dance at the Hyatt House and a TEP Pledge Dance. The Sig Ep Seniors are giving a Roman Toga dance. No one will be told where the party is until they appear properly attired at the house. On Sunday TEP's are having a party after the last IF baseball game.

Etu, Upsilon Eta (HUH), yearbook honorary, has initiated two members, Sandy Jo Martin and Renee Antal. They have pledged Donny Kiley, Bob Lofgren, and Pat Sambone and Cathy Carlyle of the Register's Office.

The Phi Kaps will have their Alumni Smoker tonight. DZ hosted an exchange dinner for the Phi Kaps this week.

On May 5, Kappas Phi Delta's seniors held their annual White Elephant Sale. This year's proceeds go for a memorial at Roosevelt University's Auditorium to Marie Blauz, the sorority's first sponsor. Tomorrow DZ will have a hot sale for women on campus in the Carman Hall food court.

Only the Phi Kaps have reported a Pussing: Vern Kiehl to Mary Farrell. Also in that house, Joe Ciudalek has introduced Margaret Schlack.

The has selected its officers for the fall semester. Jack Zayner was elected president; Phil Woolworth, vicepresident; Jack Woychick, treasurer.

Students Pass on Changes In ITSA Constitution

Several ITSA constitutional revisions are to be approved by the student body during the spring elections. The main effect of the revisions will be to reduce the number of voting members on the Board of Control from 17 to 12 and to enable the Board to deal more with policy making.

Included in the positions to be vacated will be all of the divisional representatives. These are the three engineering, one liberal studies, and one Arch-IID representatives. Replacing these positions will be an executive vice president and a legislative vice president.

The executive vice president will have charge of all committees with the exceptions of the rules committee and the elections commission which will fall under the charge of the legislative vice president. Also elected will be the position of ITSA social chairman.

The Student Investigating Committee, a standing committee of ITSA, will also be dropped. It is intended that if the need arises for a special commission of this nature, it can be appointed by the Board of Control.

Eklund Takes Position As IIT Comptroller

Robert W. Eklund, was recently appointed Comptroller of Illinois Tech. Eklund will replace Robert Jarrell who will assume the position of Business Manager.

Eklund holds a BSBA from Northwestern University, an MBA from the University of Chicago, and received his CPA in 1953. Before 1953 he held various accounting and financial positions with the United States government and the University of Chicago.

From 1953 to the present he has been assistant comptroller for Armour Research Foundation. Eklund is the editor of Business Budgeting, technical publication of the National Association of Business Budgeters. He is a member of the Illinois Society of Certified Public Accountants, the American Institute of CPAs, and the National Accounting Association.

Activities

Newman Club

Father Lambert, Newman Club Chaplain will give a talk on "Catholic Pacifism" at next week's regular meeting, in Room 306 of the HUB at 7:30 p.m. Wednesday. On May 12, the Newman Club will hold its initiation ceremony and party at the Calvert Club, at 8 p.m. Admission is $1 for present members, but free to the initiates. Refreshments will be served.

Sea Power Symposium

All students and staff of Illinois Tech are invited to attend the Sea Power Symposium which will take place on May 15-18, at the Conrad Hilton Hotel. For more information, see the folders on the bulletin board in the HUB. SAAB.

Applications for student councilors for next fall may be obtained from the Dean of Students' Office or from John Deckerson, 3300 S. Michigan. The applications should be returned to the Dean of Students' Office by 5 p.m. May 18.

Magda Heuermann Miniatures On Exhibit At IIT

by Mehryn A. Skwaro

A little known, but rather valuable, art collection is now in storage on our campus. It is the Magda Heuermann Miniatures Painting Collection given to Illinois Tech in 1949 by the artist, Magda Heuermann, and at that time valued at over $200,000. It consists of some 80 miniature paintings, of which 50 were done by her and the rest are paintings she had collected.

Upon first being presented to the Institute, the paintings were displayed in two glass enclosed cases on the third floor of the old Student Union in the Student Lounge. Now in storage because the building will soon be torn down, they will eventually be put on permanent exhibit in the basement.

Keds "Outrageous" in new, trending hopscotch.

Nobody's really suggesting romance will be yours if you wear U.S. Keds. But it is true that Keds are the best-fitting, most comfortable, good-looking and long-wearing fabric casuals you can buy. Because Keds are made with costlier fabrics. With an exclusive shockproofed arch cushion and cushioned insole. In short, with all those "extras" that make them your best buy in the long run. Head for your nearest Keds dealer. Get that Keds look, that Keds fit... GET THAT GREAT KEDS FEELING!
Sluggers Clip U. of C. 5-4 Wednesday

Trackmen Sweep Triangular Meet; Vie at Rockford

On Wednesday, May 9, Illinois Tech's track team, along with Ericsson, and Milton College, journeyed to Rockford College in Rockford, Illinois for a 3:00 p.m. meet. It was the first time Tech has faced any of these squads this season. Tech won the meet.

In Illinois Tech's meet last Saturday, the team swept a triangular meet with Wright J. C. and Lewis College. The outstanding performer of the meet was John Vomastic of Tech. Vomastic, the smallest man on the team, at 5'7" and 147 lbs., broke the school record of 11.79s, which has stood since 1949, to take first place in the 100 and 220 yard events.

Edge South Side Contender

Tuning up for the Chicago City College Tournament, the Illinois Techwaks edged their Southside rival Chicago, 5-4. They had to win in the lastinning but it still gave them momentum for their encounter with St. Procopius. This game was played yesterday but results were incomplete at press time.

Even though the Hawks got only five hits, they used each one to the best advantage. The most important hit was that by secondbaseman, Jay Klempner. Although the hit never got past the first-baseman it knocked in the winning run.

Glory Goes Head Coach Ed Glancy used all of his strategy in the last inning when the lead-off man, Joe Holm, walked. The next batter was not trying to sacrifice but pitcher Grant Hinte succeeded in putting both runners on base. With two outs, Holm stole third and Jim Fes- wien walked. On the second pitch Klempner got his hit and Holm crossed the plate with the winning run.

This victory brings the Tech record to 3-4. Before the last inning the game was a comedy of errors. Most of the errors were mental and could have been avoided.

Greeks Vie on Track

Roll Roosevelt; Lose to Valpo

Illinois Tech's luckless tennis squad ran into another powerful squad as they jouneyed to Valparaiso and lost a 7-2 match last Wed. Bob Gollon was the only singles winner while Wayne Davis and Jim Carlin both lost very close matches. Gollon and Carlin seemed to take the number one doubles for the Techwaks only wish.

On Friday the squad rolled over Roosevelt 9-0 in a match which was not quite finished because of rainy weather.

This weekend the team will be trying to make a successful season by doing well in the Chicago College Tournament. Gollon will be out to average his three set loss in the finals of last season number one singles match.

Greek Baseball Witnesses Close Competition to Finals

 Theta Xi scored six runs in the bottom of the seventh to edge the Delta 16-17 and take over undisputed first place in League II. With Anderson and Leyva on base, and two out, Prasak smashed a single to left field to grab the victory. Love paced the batters with four hits.

The Delta's made their season record 3-1 by annihilation the TEP's 23-1. The TEP's were also on the losing end again as they were toppled by the St. Egs 4-11. This left the winners TEP's record at 0-3 for the season.

The St. Egs continued their sweep of a doubleheader by beating the TEP's 21-12. This left their record at 2-4, while the TEP's are 0-3.

In League I the ABF's swept a doubleheader to clinch first place with a record of 4-0. They beat Triangle 15-5 and the Phi Kappa's 16-2. Drew Kay paid the ABF's with 7 hits in the doubleheader. The Phi Kappa's scored their season record at 1-1 by beating the Phi Kappa's 7-5. Nelson led the Phi Kappa's with six hits for the doubleheader.

The St. Egs clinched second place by taking a forfeit win from the Phi Kappa's. This makes their record 2-3. The Phi Kaps ended the season with an 0-5 record.

He Flies Thru the Air . . .
