Election Assembly Run Today; Elections Tomorrow, Friday

Pi Kappa Phi Triumphs in Greek Week Games

Pi Kappa Phi turned out on top in a neck-and-neck race to win this year's Greek Week trophy. With a total point score of 245, the Pi Kaps edged Triangle's second-place score 240. Sigma Phi Epilson, Alpha Epsilon Pi, and Alpha Sigma Phi finished third, fourth, and fifth, respectively, with points of 195, 185.

First place was captured by the Pi Kaps in the water fight and piñata tournament, as well as an attempt in the soap box derby.

Delta Tau Delta placed first in the cheerleading contest and Triangle won the soap box derby with a modified bicycle. In other contests, Alpha Sigma Phi finished over Triangle in bridge play, Too

IRC Elects New Officers; Sets Future Plans

The International Relations Club elected officers for the 1962-63 academic year at its business meeting May 9 and made tentative plans for summer activities and future programs.

Ron Walter will serve as president, assisted by vice-presidents Woody Hinman and Fred Well; Dan Flavin in the newly elected treasurer; Ferris Knapp and Carol Gross were appointed the club's secretaries.

Summer plans include a lawn party June 9, preceding IRC's participation in the World Unity Conference, July 24-27, at McCormick Place. Illinois Tech's IRC is now collecting applications for delegates to the conference. Leaders in labor, business, government, education will discuss Latin American affairs. Secretary of State Dean Rusk is tentatively scheduled as key speaker.

Next year, IRC plans to host a meeting of the United Nations, the Colloquium Branch of the National Conference of Christians and Jews, the College Conference on the United Nations, and a symposium on economic problems of Latin America. Illinois Tech's group will also participate in the annual Model UN Assemblies at the University of Wisconsin and the University of Minnesota.

Public Relations Moves To Commons Basement

Public Relations, Press Relations, and Development have moved to new quarters in the basement of the Commons. The basement has been remodeled and subdivided to accommodate the staff and secretaries. Accounted cooling and fluorescent lighting are two of the new features. The one-hundred-foot square room contains offices about twelve separate offices.

Mike Nore, director of Press Relations, noted, "We like our new office very much. Our work requires many visitors coming in and out all the time. Now we have room enough to function properly. We are in the middle of the campus and closer to the student activities."

The staff's been located in the Arcade Building on the corner of 5th and State Streets. The Commons basement was previously used as a study and recreation room for Illinois Tech students.

Thirty-seven Candidates Apply for ITSA Offices

The polls open tomorrow at 11 a.m. for the ITSA spring election. They will continue until 2:30 p.m. tomorrow and from 11 a.m. to 2:30 p.m. Friday. Students must have their Voter's Card to vote. Candidates will present their campaign speeches at 11 a.m. today in the Hub auditorium. Their written speeches are printed in this issue.

Positions to be filled in this election are ITSA president and secretary, ITSA executive board, and all class officers. Students will also vote on revisions in the ITSA constitution.

NSF Head To Speak at Graduation

Dr. Alan T. Waterman, Director of the National Science Foundation, Washington, D.C., will be the Commencement speaker on June 10 at the exercise of Illinois Tech in June.

Waterman, who will also be awarded a honorary Doctor of Laws Degree by Illinois Tech, has been Director of the National Science Foundation since 1955.

In his capacity as director of the National Science Foundation, he is also a member of the Federal Council for Science and Technology, the Advisory Committee on Automation and Manpower, the Defense Science Board of the Department of Defense, and serves as Consultant to the President's Science Advisory Committee.

In 1959 the National Academy of Sciences awarded him in Public Welfare Medal for "eminence in the application of science to public welfare." This award is unique in that it is given for outstanding public service in the use of science rather than for achievement in any particular scientific discipline.

Dr. Waterman is a Fellow of the American Association for the Advancement of Science, the American Physical Society and the New York Academy of Sciences. He is a member of the American Association of University Professors, the American Rocket Society, the Washington Academy of Sciences, the Washington Academy of Medicine, the American Chemical Society, and the Scientific Research Society of America.
Letters to the Editor

Students Support TN Stand on Reflection Pool

To the editor:

Last week, TECH NEWS published an article about a memorial pool in front of the Met-Chem building. Illinois Tech is getting a lot of money for doing this. This bit about "Will you give a pool if you give us money?" is brilliant. It should be carried further. Why not open ALL available space on campus to this sort of thing? A memorial in front of the HUB could go for $500,000. A fountain across 33rd street could not be the same. A statue atop any building except the library or the HUB could be had for only $150,000. On the other two the cost would have to be double to cover the expense of reinforcing the roof. Between Siegel and Crown we could have an outdoor cafe named after whoever is willing to put up one million dollars.

Unfortunately, there are not too many people willing to spend so much money, so why not invite financial concerns? A steel pedestrian bridge over State could have "COURTESY U.S. STEEL" letters over it. The parking lot could be paved and lit by letting Mobil erect some billboards there. A floating sign could be placed over Crown Plank. Hugging the company which would install air conditioning in the building, Illinois Tech could kill two birds with one stone. First, it would come into a lot of money; second, all the ugly square buildings on campus would be hidden by neon signs, billboards, fountains, pools statues and anything else our Board of Trustees can think up.

Cesar Danielson, Architecture

Dear Editor:

No one can possibly object to the idea of a memorial by a member of the board of trustees. However, Tech News has condemned and rightly so the site selection for an intended memorial. We join in this condemnation.

Placement of a memorial in front of the Met-Chem building is diversion and regression from the progress of campus development.

Cesar Danielson, Architecture

Test Scores

The following is a listing of the scores of all candidates for positions on the ITSA Board of Control. According to the ITSA constitution, all candidates for these positions must take the test.

The test concerns decisions of the officials as well as particulars of the constitution and bylaws. Maximum score on the test is 110. No minimum score is stipulated.

TECH NEWS
Published every Friday during the school year by the students of Illinois Institute of Technology, also 915 W. Fullerton Ave., Chicago, Ill., 60614. Published in good faith as a faculty-owned publication, but the authors of articles, the names of which appear at the end of the column, are not responsible for the opinions expressed. All articles for the columns should be submitted in writing.

Tech News is an equal opportunity publication.
Candidates Give Word on Qualifications, Ideas

Pres., ITSA

Bill Anderson

The one flaw that can disarm the ITSA board is lack of experience. Without men and women who are capable of making good decisions, the Board cannot represent the students properly. Having served on the board as vice-president I believe that I have become acquainted with the duties and obligations of the office of president. With major problems such as the reorganization of the political and board group policy there is more than ever before a need for a strong, experienced leader. It is necessary that the Board must progress along with the school. If I am elected president I promise to dedicate myself wholly to the attainment of these goals.

Louise Ahrendt

The most important duty of a secretary of ITSA is to reflect the responsibility of serving the student body. In my past two years at Illinois Tech, I have been a member of the Elections Commission and the Panhellenic Council. I have served as treasurer of Campus Players, Commander of Angel Flight, and treasurer of Delta Zeta Society. With your vote I would like to serve you as secretary of ITSA.

Carol Rohozka

Having served on the ITWA Council as Fresh representative and vice-president-secretary, I would now like to serve the women of Tech as president of the Student Senate. As President, I have plans to enlarge the scope and activities of ITWA especially the social and sports aspects. I have had opportunity to represent ITWA in the ITSA Board, and could easily fulfill my obligations as a Board member.

On Campus with Mr. Shuster

Author of "I Was a Young Man," "The Money Lessee of Tobi's Grill, etc." Hooray!

TILL WE MEET AGAIN

This is the final column of my eighth year of writing for the makers of Marlboro Cigarettes, and this year, as in every preceding year, when I come to the last column of the season, I always feel a little sad. My contract with the makers of Marlboro calls for me to write a humorous column, and truly, I do try to put all things considered, I cannot explain a silly man by nature. Why should I? First of all, I am not a solemn student. Second, there are many in my audience that laugh. Third, I work in television, and at least eight times each week, I have to write a column of a thousand words, or more, that is amusing to my audience, and I am almost sure that a column of a thousand words, or more, that is amusing to my audience, it just doesn't work at all.

More often than not, when it comes to writing this column, I write a good Marlboro Cigarette, put in my cigarette, try with all the strength in my body to make it as amusing as possible. Sometimes it works better than others, but on the best column of the year, it just didn't work at all. Even in this very beginning this was true—and that, you will recall, was eight years ago when I was a young man and had not yet discovered that I was in the wrong column. Well do I remember sitting down to write the final column of my first year. Day followed day, and not a word, not a laugh, a suggestion, or a joke. I was about to give up and take a job selling men's suits when all at once, in a blinding flash, I realized why I couldn't think of any jokes. I looked upon my typewriter and my blank paper and my blank mind and I put it to the test. Marlboro, Marlboro, Marlboro, Marlboro. Marlboro, Marlboro, Marlboro, Marlboro. Marlboro, Marlboro, Marlboro, Marlboro. And that was the beginning of the column, and as I polished the final column of the season, I now feel too ready for the final column of the season in all, a happy and when I think of saying goodbye to my readers — the earliest audience in the world — the college students of America — wonderful human beings, every man and woman of them — wise and kindly — attitude but compassionate — perceptive but understanding — wise, wise; I think of saying goodbye to such an audience. I am too much my own to be unkindly, and I ask you, sir, to join in the final column of the year, and may the Marlboro Cigarette and the Marlboro be in your hands and in your hearts.

May 16, 1962 Page 3
President, '63
Larry Bacon
The major job of the Senior Class President is to co-ordinate and supervise the activities of the Senior Class. Equally important is the representation of the Senior Class, as a body, on the ITSA Board.
If elected I will strive to carry out both of these duties, providing a well-rounded, well-prepared social calendar, and consistent representation on the board.
As far as representing the feelings and ideas of the Senior Class on ITSA, I feel that I am acquainted with enough seniors to be able to voice their best interests. Your support will be greatly appreciated.

Marty Jischke
Activities Vice-President Delta Tau Delta Fraternity, Interfraternity Council Scholarship chairman, Vice-President Sigma Pi Sigma Honorary Society, UB chairman, Interfraternity Executive Committee, ITSA committees, Phi Beta Sigma, and officer of the Newman Club.

Vice-Pres., '63
Arnie Epstein
Secretary, '63
Carol Gross
In my two years at Tech, I have taken an active interest in student activities. I served on Prosh Board, the only Board which did something, Tech News, and the International Relations Club. I am presently a Cheerleader and Bowling Chairman. This experience would aid me in planning activities for the Junior Class. I promise to try to make our Junior year a swinging one.

Treas., '63
Chuck Chadd
I have been an officer of several organizations, and my experiences in these positions have given me the knowledge required to perform the duties of class treasurer in an orderly and efficient manner. If I am elected, I will not only do the menial tasks that occur in the job, but will also do my best to help plan the various senior activities.

Soc. Ch., '63
no candidates
President, '64
Frederick Dean
I am an independent candidate interested in seeing the class of '64 become active on campus. Although the primary concern of a student should be scholastic achievement, college is still a time for meeting people and developing social attitudes. During the past two years virtually no social functions have been sponsored by the class of '64. Filling this social vacuum is my primary purpose in seeking office. Vote Dean.

Vic Morgenstern
A main duty of the junior class president is to represent the junior class on the ITSA Board of Control. If the present bill up for a referendum vote is passed the Board will acquire a new and increased policy making capacity. Hopefully this will include such matters as student-faculty administration relations and national politics. These matters deserve the direct attention of Tech students and as junior class president I intend to see that the Board's decisions are a reflection of your opinions.

Sec.-Pres., '64
Carl Kupfer
My activities both on and off campus will validate my qualifications for this office. In this capacity, if elected, I shall strive for an active, functioning Junior Class. It has already been seen that the present Sophomore class is a potentially strong group. Many of its members are active in various campus organizations. I believe, that if elected, under my leadership, the class of '64, will maintain our honorable position on campus.

Treas., '64
Peter R. Polko
As an independent candidate for the office of Junior Class Treasurer, I shall work with the other class officers in attempting to give the Junior Class the greatest possible number of both scholarly and social activities. These activities would be set at such times as to allow a majority of the class to participate in them.

Alan Unikel
Let's be objective. The position of treasurer is one for which many students are qualified. I feel that I am one of these students and that my experience as an treasurer of my fraternity has helped me greatly. I also seek this election to have the chance to direct the activities of our class. I shall be sure that they are run in a punctual and efficient manner, which (it seems) has not been the case in the past.

It's what's up front that counts
FILTER-BLEND is yours in Winston and only Winston. Up front you get rich golden tobaccos specially selected and specially processed for filter smoking. Smoke Winston.

WINSTON TASTES GOOD like a cigarette should!
Soc. Ch., '64
Martha Rappaport
1. Marty, have represented the
class of Jan. 1964 since January
1962. Small in this group is, it
needs a voice among the class oﬃcers. It needs the voice of a
committee to represent it fairly.
As a nonresident student with
experience in student govern-
ment, I feel I can do a good job.

President, '65
Bill Lazzio
In former se-

mesters, students who commute and
those who live in
dorms weren't af-

fected all the repre-

sentation as the social activities
that they
deserved. The sophomore class presi-

dent should apply pressure to

other oﬃcers. In my opinion, this
 hasn't been done in past semes-
ters. You want a representative
who will do more than sit on the
ITSA board of control and raise
his hand to vote when an issue
comes up. I know which reforms
are needed, and I'm hoping you'll
give me a chance to carry them out.

Keith Stowe
My one-semester

term as your Freshman Class
President has ex-

pired quickly. Our class has
gained much re-

spect. We've initi-
ated projects, and

sponsored new events. We've set
an example of what a really ac-
tive class can do. I'm very proud
of what we have done, and I
would like to help our class con-
tinue its record for the next two
semesters. I shall continue to do

Ed Schwartz
This year I've
noticed a deﬁnite
lack of participa-
tion on the part
of the present Freshman Class.
As President, I
would strive for a

uniﬁcation of the
class by initiating a competitive
event or project such as a class
tournament.

Dennis Wenger
As members of
the Sophomore
class, it is our
duty to see that
your oﬃcers
represent you. This
representation is

constantly becom-
ing more impor-
tant, especially if the pro-

posed ITSA changes

are dropped.

Wayne Kosterman

and of the Fresh-

man scholastic honorary fra-

taternity. Phi Eta

Sigma.

Steve Hadar
The job of

vice-president is usu-

ally a vague

unidentiﬁable

thing. Actually,

the position is ac-

tively pursued.

Not only can it be one of

great importance

and can produce very noticeable

results.

If elected I plan to take a

very active interest in the job,

lighten the load of the presi-

dent, and to contribute a great

amount of energy to the various

issues and events. Naturally I will
carry out the formal aspects of the

oﬃce, but I hope through my ini-

tiative, to bring up different ideas

for projects, social events, etc., in

order to have a well rounded and

socially successful sophomore
class.

Steve Resan
Secretary, '65
Fern Krauss
The familiar cry of "Find me
the records of that meeting" is
heard and once again the secre-
tary is responsible for that aspect
of the proceedings.
Although I feel while serving as
secretary for various organiza-
tions in high school. As the job
of secretary is not foreign to me,
I feel able to accept the responsi-
bility of the oﬃce and will serve

Ron Ozeki
The main problem that we face
is to mold into one functioning
unit the committees, dorm and
fraternity men. This uniﬁcation

can be accomplished by public-

izing class meetings and more

activities sponsored by the oﬃ-

ers for the members of the class.

Lillian A. Shramek
Lillian A. Shramek, am

a candidate for the position of sec-

etary of the class of '65. Dur-

ing the past year I have had the

opportunity to serve students in

several ways and at present time

I am a member of the ITSA

executive committee and I am on

the Executive Board of the Uni-

versity.

Treas., '65
AI Gouwens

ALPHA SIGMA PHI WINS VICE ROY CONTEST

Alpha Sigma Phi has been declared the winner of the big Viceroy Empty Pack Contest. For collecting the most empty packs of Viceroys, Alpha Sigma Phi won the RCA Victor 4-speed Stereo Hi-Fi Console offered as first prize.

“It was literally music to our ears, when we heard we had won,” declared Jay Klompemaker, president of Alpha Sigma Phi. “And it couldn’t have happened to a nicer or harder working-bunch of fellows. We’re saving Viceroy packs the year around now, in case there’s another contest.”

Theta Xi finished second to win a portable RCA Victor Stereo Console. Triangle won third prize, a General Electric Snooze Alarm Clock-Radio.

“The Viceroy congratulates the winners,” said Bill Hyland, Viceroy representative at Illinois Tech. “And to the losers we offer our condolences and this piece of advice: Keep smoking Viceroys and keep an eye out for next year’s contest.”

“IT’S CALLED CHESTERFIELD
