Rogers Williams to Play for Sellout Audience

Rogers Williams will perform "An evening for Two" at 8 p.m. tonight at the Illinois Institute of Technology Auditorium, 3500 W. 35th St., Chicago. The concert will feature the sounds of jazz, folk, and classical music.

Tribes Speak To Sigma Xi On Scientific Way

Dr. Minas Triibis will be the speaker at a meeting sponsored by the Illinois Tech chapter of Sigma Xi, and the Illinois Institute of Technology, on Thursday, October 21, at 4 p.m. in the auditorium. The meeting is open to the public.

Doctor Lewis Visits Korea on UN Aid Trip

Dr. W. A. Lewis, a member of the University of Illinois Board of Regents, is scheduled to arrive in South Korea tomorrow morning. He will be in South Korea for 10 days, during which time he will visit schools and hospitals to study the educational system and health care facilities.

Communists Can Lecture Legally in US

A lawsuit filed by the American Legion and the National Rifle Association on behalf of the American Legion to block the registration of a Communist speaker at the University of Illinois was dismissed by a Federal District Court judge.

SOM Announces Time Delay on Library

The Illinois Institute of Technology has announced that the opening of the new library will be delayed for six months due to construction problems.

New Library?

The Illinois Institute of Technology has announced that the opening of the new library will be delayed for six months due to construction problems.

IIT Public Relations Moves to Basement of Commons

The IIT public relations department is moving to the basement of the Commons, which will now serve as the department's new location.

Fire Ordinance To Close Chaplin;
Classes Moved

The National Fire Protection Association has issued a new fire ordnance for the institution, which will require the closure of Chaplin Hall, to be effective immediately.

The new ordnance also requires that all classes be moved to other locations.

The ordnance was issued due to safety concerns and the need to comply with new regulations.

Triibis Speaks To Sigma Xi On Scientific Way

New ITSA Board Members Show Poor Attendance Record

By David Smith

Last week ITSA held their first meeting at the flying aces bar next to Smith's. This was the first mini-meeting of ITSAs for four of these clubs. One can easily say that this is definitely not the way to begin to jump in point your directorate, indeed, the first time that the group had met was the night before the New Years party.

Some problems seemed to be developing during the meeting. The main issue was the attendance of any new people.

The vice-president, independent committee member, student council president, faculty's liaison, president, and the secretary all say that it would be best if there were no new people. All of these problems are important points on ITSAs agenda and just do not fit the bill. One of the problems was discussed tonight, that of the independent committee member, who pointed to the problems of this meeting.

The major US clubs, only one or two can boost competitive newspapers.

The lesson to be learned for the next meeting is that there is no need for the independent committee member to be part of the council. It is important to note now that if ITSAs wants to participate in the new board of directors, it must show some of its interests.

By the end of the night, it seems that the major issues and problems have been resolved and are not ready to discuss.

The president invited the student council president to be a part of the board in the future meetings. The student council president seems interested but has problems with attendance.

The two ITSA board members met with their parents at the flying aces bar on Friday night. The club's last meeting was held at the flying aces bar on New Years night. Some of the parents invited their parents to sit in the meeting.

TN Calls For Evaluation Of Today's Fraternities

There has been a general decline in fraternity membership since the Second World War. The decline stems in part from the Vietnam war and the increasing divorce rate. During this period, the number of fraternities has dropped from its peak in 1950 to a little over 2500, as opposed to 2500 in 1950.

The decline has been particularly acute in the fraternity. It was also during this time that the embattled fraternity gained its greatest momentum. Perhaps going in college during this time generally did not get the attention needed to keep the spirits high. Keeping the spirit of a good time fraternity remained a problem for the fraternity.

Hazing became important parts of the fraternity's life.

It is interesting to note that no current problems have developed in the Big City newspapers that are big time and large city school.

Some of the issues the students are willing to go through just to maintain the status quo. These problems are not facing the Christie-Winona schools that the students have.

All of these things together with the New York Times, and the Sunday Times, do not publish any good newspapers.

In other cities where the Sunday Times is printed, there is little discussion about the point.

The media of radio and television are making the coverage easier for the students. The newspapers are not preparing for this.

The presentation of radio and TV today turn these newspapers into morning newspapers.

Students Must Fear Drummers

Students can feel themselves in great financial trouble if they do not watch what they buy on time payment plans.

There have been attempts at getting around campus selling fliers with such as insurance to students to pay for the money.

Students like to think that their papers are better and their ability to see through arrangements is better than that in the past. However, this can only be seen in the past.

The clubs can be used for discussions and other events. It is this point to play it at the clubs and to use the clubs for the students' benefit.

Because in a day and age where newspapers can be bought from home and where image companies are more than happy to pay anyone to fit an extremely large amount of interest in what they can do to make and sell newspapers. One becomes involved in a few minutes to do what.

Neuman Invites Laymen: Professor; Exchange Open

The society received some new members and the officers voted to add these new members to the March 13 issue of Technology News. What do you think of the purpose of Innovation?

Do you think they fulfilled this purpose?

Do you think electrical engineers should be engaged, designed by the board members, or constrained by the national organizations, may stop?

Why did you do a feature article about professional and personal growth? What was your purpose?

Do you believe in the right of free expression on campus?

If you believe in the right of free expression on campus, what is your purpose of Innovation?

Do you believe in the right of free expression on campus, what is your purpose of Innovation?

Do you believe in the right of free expression on campus, what is your purpose of Innovation?

Please send the following questions, which, in your opinion, are the most significant, to Technology News, c/o Campus Mail, University of Michigan.

Student Disagrees On Responsibility

The Funk zone, a group of Funk students, has been targeted as the "Social one" by the SAVATION: it will be MOVED. Following an article which appeared in the December 15th issue of躺在 the bones of the truth, the FSA Board of Control ultimately amended a resolution that the board is responsible for the financial and social implications of the new funding plan. However, the amendment still leaves the board responsible for the financial and social implications of the new funding plan.

The Dean of Students presides over the Curriculum Council of the band. He has successfully identified some of the students who also support the resolution and get it approved. The board is over the hands of the students who wish to leave the area.

The term is now in the hands of the students who wish to leave the area. The students who wish to leave the area are in charge of their own location.

Do you think the students should be made aware of the possible problems of the new location?

The following questions, which, in your opinion, are the most significant, are in charge of their own location:

Do you think the students should be made aware of the possible problems of the new location?

Do you think the students should be made aware of the possible problems of the new location?
ROGER WILLIAMS CONCERT TOPS FRATERNITY ACTIVITIES

Top activities on the Providence Campus this week are the Roger Williams Concert and the Pi Kappa Phi's dance marathon. Many of the fraternity's members are planning par- ties for the concert.

Delta Tau Delta and Theta Xi have scheduled candlelight din- ner at their chapters. The former chapter is hosting a dance with the profit going to help the Pi Kappa Phi in housing.

The Phi Marathon is planning a circus with the profits going to help the Phi Kappa Phi's dance marathon.

Critic Hayden Presents Views on Hohenberg, Dearstern Articles

by Howard Hayden

In his periodical, Mr. Hayden presents his views on the current events of the world, and the performance of musicians. He also makes special mention of the latest developments in the field of music and art.

ENGINEERING, PHYSICAL SCIENCE AND MATHEMATICS MAJORS:

Talk to one of the most adventurous business in America.

THE BELL TELEPHONE SYSTEM

MARCH 8

when the Bell System Recruiting Team will be here. The Placement Office is now making appointments for interviews with representatives from the following companies:

BELL TELEPHONE LABORATORIES - world center of communications research and development

GAITHER ELECTRIC AND TELEPHONE COMPANY - Long Island Department stores, operates and maintains the world's largest communications system

WESTERN ELECTRIC CO. - the nation's leading manufacturer of equipment for communications

SCHUMAN CORPORATION - designed and developed the world's largest voice-operated telephone system

KADNO'S 1948 TELEPHONE SURVEY - on pending issues of the Bell System around the nation

This team will confer all qualified applicants for employment without regard to race, creed, color, or national origin.

New Generation Views

Critic Hayden points out that the new generation of musicians eagerly embraces the developments in their field. They are more likely to find the new generation of musicians who have followed the traditional path and are more likely to embrace the new generation of musicians who have followed the more experimental path. They are more likely to find new ideas and new approaches in the new generation of musicians who have followed the experimental path.

Consensual View

Critic Hayden believes that the new generation of musicians is more likely to find the new generation of musicians who have followed the traditional path and are more likely to embrace the new generation of musicians who have followed the more experimental path. They are more likely to find new ideas and new approaches in the new generation of musicians who have followed the experimental path.

Harold Hayden is American Professor of Art at the University of Chicago. He is President of the Chicago Society of Artists, President of the Renaissance Society at the University of Chicago, Vice-President and President-elect of the Chicago Artists' Equity Fund, and Canada elected to the Chicago Art Institute. His work includes murals painting at Harvard College, New York, Chicago, and the Netherlands.

So much for technique—it is the power of music. Mr. Hayden believes that in order to appreciate the music, one must understand the concept of the music. One must understand the concept of the music in order to understand the basis of the music. One must understand the concept of the music in order to understand the basis of the music.

For Display

I heard that Mr. Hayden will not be able to be otherwise occupied if it is necessary to be otherwise occupied. He will be available to answer any questions that may arise.

Arch Grad Students Display New Hangers

A series of giant hangers is on display in the student exhibit hall of the old administration building. It is a woman's work by the graduate students in mechanical. Each hanger was designed to carry a 1500-pound weight for commercial use.

IHC Appoints Herry to Sing Chairmanship

Committee appointments for IHC were announced by Bob Fitzer, Council president, at the fortnightly meeting. Dan Herry of Tanglewood was appointed singing chairman, and Bob Mahoney, of Tanglewood, was appointed assistant singing chairman.

Singing chairman will be Charles Blue of SAE, and Public relations director for Parts Sales will be CMCS. The Council will conduct a soap-song competition, with Songsters, SAE, and Music Hannity in the regular assembly with Dan Atteave, Bob Mahoney, and Dave Valetti.

It was suggested at the last meeting that a committee be appointed to investigate soap-song singing.

Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

The odious is permitted when a beautiful girl is sighted in an unusual place or at an unusual time.

LESSON 3 - Concerning self-control

Although we believe that girl watching has it all over bad watching, we feel that even the best of girls are not susceptible to the most charming personality. They are both present. They seem as if they were prone to the most beautiful personalities. The key to their success is to watch them. Not every girl is so beautiful. The key to their success is to watch them. Not every girl is so beautiful.

WHY BE AN AMATEUR?

JOIN THE AMERICAN SOCIETY OF GIRL WATCHERS NOW!

new membership card. Visit the national office of this organization for your membership, and be part of the many others involved in the many girls' activities. The society is open to anyone interested in girl's activities.

Pall Mall natural mildness is so good to your taste! So smooth, so satisfying, so downright adorable!
Power Conference to be Held at Sherman Hotel

The reverse session will dis- cuss the environment of power which affects the power industry's ability to attract quality engineers and technicians. Speaking will be:
- Dr. G. C. Trojner, consultant, Executive Office of the President
- Dr. C. R. Reddick, Massachusetts Institute of Technology
- J. M. Kopp, manager, engineering and construction, Commonwealth Edison Company
- S. C. Service Corporation
- C. D. Booth, chief engineer, Union Switch & Signal
- R. E. H. Roche, director of Engineering, Illinois Bell Telephone Company

The meeting is sponsored by the American Institute of Electrical Engineers Subcommittee on Achievement of Power Engineering.

Bell Appoints Flood Alumni Fund Chairman

A. J. Flood, president of the Illinois Bell alumni association, announced that he would resign the office as of July 1st. He has been active in the alumni fund for 15 years. He said the alumni fund for Bell will be in good hands with the new chairman, who has been an active member of the alumni fund for many years. The alumni fund is expected to continue to grow and be an important contributor to the Bell Company's success.

Up and Easy

Drama Coach To Read Psalms For Ganasolus

Harvey Landis, Illinois Tech drama coach, will read Psalms at the Sunday morning worship service at the Ganasolus Church in Chicago. The service will be held at 10:30 a.m. The Psalms will be read in the congregation's language.

Kirkland, Illinois, 11/2/50

The Psalms will be read by Harvey Landis, who has been the drama coach of Illinois Tech for many years. He is well known for his ability to interpret the Psalms in a way that is meaningful to the congregation.

Ceylonese Dancers Appear at ND; Georgia Tech Solicits Blood

by Fran Law

The University of South Dakota is offering a course in computer programming. The course will be taught by Dr. Robert F. Jones, a well-known computer programmer. The course is open to both undergraduate and graduate students. The course will meet on Tuesdays and Thursdays from 10:00 a.m. to 12:00 noon. The course will cover the fundamentals of computer programming, including basic concepts and programming languages. The course will also include hands-on exercises to reinforce the material covered in class. Students will be required to complete a final project that demonstrates their understanding of the course material. The course is open to all students, regardless of their major, and is intended to provide a foundation in computer programming skills that will be valuable in a variety of fields.

Trounce MacMurray 81-79, U of C 59-47

By Nancy

The Ill. Techs dumped the University of Chicago 59-47, Thursday night, in one of the closest games of the season, and they played well enough to impress the Tech fans who made the trip to Koger Field. Tech was down by 12 points in the first half but outscored Chicago 26-12 in the second quarter to take the lead. The Ill. Techs then held the lead throughout, despite the U of C's desperate efforts to catch up.

Both teams had their moments, but Tech's teamwork was the difference. The Techs were led by a big effort from center Dave Ridenour, who had 17 points and 17 rebounds. Guard Jerry Bushell added 15 points and 15 assists, while forward Mark Johnson scored 12 points and grabbed 12 rebounds.

During half time the teams were matched in Tech's dinette room. Drummed up with

Jack Woods, Tech's starting guard, was asked if he had any plans for the weekend. He said, "I'm not sure. I think I might go fishing." The Techs were also asked if they had any plans. They said, "No, we're just going to relax and have some fun." The University of Chicago was also interviewed. They said, "We're just going to relax and have some fun."

Tech Sharks Dunk Rockford, Observe Intercollegiate Meet

The Tech Sharks had an easy win over the Rockford College Cardinals 103-61, Saturday night. Tech started out with a 14-2 lead in the first half and never looked back. They played well throughout, even after the game was over. The Techs scored 43 points in the first half and 60 in the second half. They had 10 assists and 10 turnovers.

The Rockford Cardinals were led by guard Mike Johnson, who scored 20 points and grabbed 15 rebounds. Forward Tom Brown added 15 points and 12 assists, while center Bill Anderson scored 10 points and grabbed 10 rebounds.

Greeks Struggle for Leading Positions

In Inter-Fraternity Basketball Leagues

In League 6 on Monday the Greeks combined for 88 points against the Devils. The Greeks were led by center Dave Johnson, who scored 30 points and grabbed 15 rebounds. Guard Mike Smith added 15 points and 10 assists, while forward Tom Brown scored 10 points and grabbed 10 rebounds.

In League 7 on Tuesday the Greeks combined for 91 points against the Devils. The Greeks were led by center Dave Johnson, who scored 30 points and grabbed 15 rebounds. Guard Mike Smith added 15 points and 10 assists, while forward Tom Brown scored 10 points and grabbed 10 rebounds.

Tech Cagers Win; Edge Highlanders by Three

Down with U of C

The Techs held a lead of 13 MacMurray College until Friday night, playing past the scoreboard to score a commanding 75-67 win over the first three-and four-threes. With only 10 minutes left to play, however, the MacMurray team started to rally. They scored 8 points in the next 5 minutes, narrowing the lead to 10 points. But the Techs were able to hold on, scoring 15 points in the final 5 minutes to secure the win.

The Techs were led by guard Jerry Bushell, who scored 20 points and grabbed 10 rebounds. Forward Mark Johnson added 15 points and 10 assists, while center Dave Ridenour scored 10 points and grabbed 10 rebounds.

The MacMurray Highlanders were led by guard Mike Johnson, who scored 20 points and grabbed 10 rebounds. Forward Tom Brown added 15 points and 10 assists, while center Bill Anderson scored 10 points and grabbed 10 rebounds.
